# ACCA APPROVED CONTENT PROVIDER

As the first accredited publisher of ACCA materials, BPP Learning Media has set the benchmark for producing exceptional study materials for students and tutors alike.

Our Study Texts, Practice & Revision Kits and i-Passes (for exams on demand) are reviewed by the ACCA examining team and are written by our in-house authors with industry and teaching experience who understand what is required for exam success.

## EXAM SUCCESS SITE

To help maximise your chances of succeeding in your exams, we've put together a suite of exclusive ACCA resources. Our Exam Success site provides you with access to a free digital version of this publication, as well as extra resources designed to focus your efforts on exams and study methods.

To access the Exam Success site, please email [learningmedia@bpp.com](mailto:learningmedia@bpp.com) with the subject line "Access to Exam Success site - eBook", including your order reference number and the name of the book you've bought (ie ACCA F5 Study Text) for your access code. Once you have received your code, please follow the instructions below:

To access the BPP ACCA Exam Success site for this material please go to:

[www bpp com/ExamSuccessSite](http://www bpp com/ExamSuccessSite)

- **Create a user account** if you don't already have one.  
Make sure you reply to the confirmation email.
- **Log in** using your registered username and password.  
Select the paper you wish to access.
- **Enter the code** you received when prompted. You will only have to do this once for each paper you are studying.

**A note about copyright**

Dear Customer

What does the little © mean and why does it matter?

Your market-leading BPP books, course materials and e-learning materials do not write and update themselves. People write them on their own behalf or as employees of an organisation that invests in this activity. Copyright law protects their livelihoods. It does so by creating rights over the use of the content.

Breach of copyright is a form of theft – as well as being a criminal offence in some jurisdictions, it is potentially a serious breach of professional ethics.

With current technology, things might seem a bit hazy but, basically, without the express permission of BPP Learning Media:

- Photocopying our materials is a breach of copyright
- Scanning, ripcasting or conversion of our digital materials into different file formats, uploading them to facebook or e-mailing them to your friends is a breach of copyright

You can, of course, sell your books, in the form in which you have bought them – once you have finished with them. (Is this fair to your fellow students? We update for a reason.) Please note the e-products are sold on a single user licence basis: we do not supply 'unlock' codes to people who have bought them secondhand.

And what about outside the UK? BPP Learning Media strives to make our materials available at prices students can afford by local printing arrangements, pricing policies and partnerships which are clearly listed on our website. A tiny minority ignore this and indulge in criminal activity by illegally photocopying our material or supporting organisations that do. If they act illegally and unethically in one area, can you really trust them?

## Topic Index

Listed below are the key F3/FFA syllabus topics and the numbers of the questions in this Kit covering those topics.

If you need to concentrate your practice and revision on certain topics or if you want to attempt all available questions that refer to a particular subject, you will find this index useful.

| Syllabus topic                      | Question numbers                                 |
|-------------------------------------|--|
| Analytical procedures               | 52, 89, 90, 91                                   |
| Audit documentation                 | 28, 29   |

## Helping you with your revision

### BPP Learning Media – ACCA Approved Content Provider

As an **ACCA Approved Content Provider**, BPP Learning Media gives you the **opportunity** to use revision materials reviewed by the ACCA examination team. By incorporating the ACCA examination team's comments and suggestions regarding the depth and breadth of syllabus coverage, the BPP Learning Media Practice & Revision Kit provides excellent, **ACCA-approved** support for your revision.

#### Selecting questions

We provide signposts to help you plan your revision.

- A full **question index**
- A **topic index** listing questions that cover each part of the syllabus, so that you can locate the questions that provide practice on key topics, and see the different ways in which they might be tested.

#### Attempting mock exams

There are two mock exams that provide practice at coping with the pressures of the exam day. We strongly recommend that you attempt them under exam conditions. **Mock exam 1** is the Specimen Exam June 2014. **Mock exam 2** reflects the question styles and syllabus coverage of the exam.

## Using your BPP Practice & Revision Kit

### Aim of this Practice & Revision Kit

To provide the practice to help you succeed in the examination for F3/FFA *Financial Accounting*.

To pass the examination you need a thorough understanding in all areas covered by the syllabus and teaching guide.

### Recommended approach

- Make sure you are able to answer questions on **everything** specified by the syllabus and teaching guide. You cannot make any assumptions about what questions may come up on your paper. The examination team aims to discourage 'question spotting'.
- Learning is an **active** process. Use the **DO YOU KNOW?** Checklists to test your knowledge and understanding of the topics covered in F3/FFA *Financial Accounting* by filling in the blank spaces. Then check your answers against the **DID YOU KNOW?** Checklists. Do not attempt any questions if you are unable to fill in any of the blanks – go back to your **BPP Interactive Text** and revise first.
- When you are revising a topic, think about the mistakes that you know that you should avoid by writing down **POSSIBLE PITFALLS** at the end of each **DO YOU KNOW?** Checklist.
- Once you have completed the checklists successfully, you should attempt the questions on that topic. Each section has a selection of **MULTIPLE CHOICE QUESTIONS** and **COMPULSORY WRITTEN QUESTIONS**. Make good use of the **HELPING HANDS** provided to help you answer the questions.
- There is a mark allocation for each compulsory written question. Each mark carries with it a time allocation of 1.2 minutes (including time for selecting and reading questions). A 10 mark question should therefore be completed in 12 minutes.
- Twenty percent of the exam consists of **Multiple Choice Questions**. You should attempt each bank of MCQs to ensure you are familiar with their styles and to practise your technique. Ensure you read **Tackling Multiple Choice Questions** on page xiii to get advice on how best to approach them.
- Once you have completed all of the questions in the body of this Practice & Revision Kit, you should attempt the **MOCK EXAMS** under examination conditions. Check your answers against our answers to find out how well you did.

## Passing the F3/FFA exam

Paper F3/FFA aims to develop your knowledge and understanding of the underlying principles, concepts and regulations relating to financial accounting. You will need to demonstrate technical proficiency in the use of double entry techniques, including the preparation of basic financial statements for incorporated and unincorporated entities, as well as simple consolidated financial statements for group incorporated entities. You also need to be able to conduct a basic interpretation of financial statements. If you plan to progress through the ACCA qualification, the skills you learn at F3/FFA will be built upon in papers F7 and P2.

To access Foundations in Accountancy syllabuses, visit the ACCA website  
[www2.accaglobal.com/students/fia](http://www2.accaglobal.com/students/fia)

### The exam

You can take this exam as a paper based exam or by computer based exam. All questions in the exam are compulsory. This means you cannot avoid any topic, but also means that you do not need to waste time in the exam deciding which questions to attempt. There are thirty-five MCQs in the paper-based exam and a mixture of MCQs and other types of objective test question (number entry, multiple response and multiple response matching) in the CBE. This means that the examiner is able to test most of the syllabus at each sitting, so you need to have revised right across the syllabus for this exam.

### Revision

This Practice and Revision kit has been reviewed by the F3/FFA examining team and contains the Specimen exam June 2014, so if you just worked through it to the end you would be very well prepared for the exam. It is important to tackle questions under exam conditions. Allow yourself just the number of minutes shown next to the questions in the index and don't look at the answers until you have finished. Then correct your answer and go back to the Interactive Text for any topic you are really having trouble with. Try the same question again a week later – you will be surprised how much better you are getting. Doing the questions like this will really show you what you know, and will make the exam experience less worrying.

### Doing the exam

If you have honestly done your revision you can pass this exam. There are a couple of points to bear in mind:

- Read the question properly.
- Don't spend more than the allotted time on each question. If you are having trouble with a question leave it and carry on. You can come back to it at the end.

## Approach to examining the syllabus

F3/FFA is a two-hour paper. It can be taken as a paper based or a computer based exam.

The exam is structured as follows:

|  | <i>No of marks</i> |
|--|--------------------|
| Section A – 35 compulsory objective test questions of 2 marks each | 70                 |
| Section B – 2 compulsory multi-part questions of 15 marks each     | 30                 |
|  | <u>100</u>         |

## Tackling Multiple Choice Questions

MCQs are part of all Foundations in Accountancy exams and the first three ACCA exams (F1, F2 and F3). MCQs may feature in the CBE, along with other types of question.

The MCQs in your exam contain four possible answers. You have to **choose the option that best answers the question**. The three incorrect options are called distracters. There is a skill in answering MCQs quickly and correctly. By practising MCQs you can develop this skill, giving you a better chance of passing the exam.

You may wish to follow the approach outlined below, or you may prefer to adapt it.

**Step 1** Skim read all the MCQs and identify what appear to be the easier questions.

**Step 2** Attempt each question – **starting with the easier questions** identified in Step 1. Read the question **thoroughly**. You may prefer to work out the answer before looking at the options, or you may prefer to look at the options at the beginning. Adopt the method that works best for you.

**Step 3** Read the four options and see if one matches your own answer. Be careful with numerical questions as the distracters are designed to match answers that incorporate common errors. Check that your calculation is correct. Have you followed the requirement exactly? Have you included every stage of the calculation?

**Step 4** You may find that none of the options matches your answer.

- Re-read the question to ensure that you understand it and are answering the requirement
- Eliminate any obviously wrong answers
- Consider which of the remaining answers is the most likely to be correct and select the option

**Step 5** If you are still unsure make a note and continue to the next question

**Step 6** Revisit unanswered questions. When you come back to a question after a break you often find you are able to answer it correctly straight away. If you are still unsure have a guess. You are not penalised for incorrect answers, so **never leave a question unanswered!**

After extensive practice and revision of MCQs, you may find that you recognise a question when you sit the exam. Be aware that the detail and/or requirement may be different. If the question seems familiar read the requirement and options carefully – do not assume that it is identical.

## Using your BPP products

This Kit gives you the question practice and guidance you need in the exam. Our other products can also help you pass:

- **Interactive Text** introduces and explains the knowledge required for your exam
- **Passcards** provide you with clear topic summaries and exam tips

You can purchase these products by visiting [www bpp com/learningmedia](http://www bpp com/learningmedia).

# **Questions**

## Do you know? – The context and purpose of financial reporting

**Check that you can fill in the blanks in the statements below before you attempt any questions. If in doubt, you should go back to your BPP Interactive Text and revise first.**

- **F**..... **r** ..... is a way of recording, analysing and summarising financial data.
- Businesses of whatever size or nature exist to make a .....

- A statement of profit or loss is a record of ..... generated and ..... incurred over a given period.
- Accounting standards were developed to try to address **s**.....**y**
- The IASB develops .....
- The main objectives of the IFRS Foundation are to:
  - ..... a single set of high quality, understandable, enforceable and globally accepted **I**.... through its standard-setting body, the **I**.....
  - Promote the ..... and rigours application of those standards
  - Take account of the financial reporting needs of emerging economies and ..... and ..... entities
  - Bring about **c**..... of national accounting standards and IFRSs to high quality solutions.

## Did you know? – The context and purpose of financial reporting

Could you fill in the blanks? The answers are in bold. Use this page for revision purposes as you approach the exam.

- **Financial reporting** is a way of recording, analysing and summarising financial data.
- **For-profit** entities of whatever size or nature exist to make a **profit**.
- **Not-for-profit** entities exist for the achievement of specific objectives rather than to make a profit.
- **Profit** is the excess of **income** over expenditure. When **expenditure** exceeds **revenue**, the business is running at a **loss**.
- A **sole tradership** is a business owned and run by one individual, perhaps employing one or two assistants and controlling their work.
- **Limited liability** status means that the business's debts and the personal debts of the business's owners (shareholders) are legally separate.
- **Partnerships** are arrangements between individuals to carry on business in common with a view to profit. Partnerships are governed by a **partnership agreement**.
- Financial accounting is mainly a method of reporting the **financial performance** and **financial position** of a business. Financial accounts provide **historical** information.
- There are various groups of people who need **information** about the activities of a business.
- Those charged with **governance** of a company are responsible for the preparation of the financial statements.
- The statement of financial position is simply a list of all the **assets** owned and all the **liabilities** owed by a business as at a particular date.
- An **asset** is a resource controlled by an entity as a result of past events and from which future economic benefits are expected to flow to the entity.
- A **liability** is a present obligation of the entity arising from past events, the settlement of which is expected to result in an outflow from the entity of resources embodying economic benefits.
- **Equity** is the residual interest in the assets of the entity after deducting all its liabilities.
- A statement of profit or loss is a record of **income** generated and **expenditure** incurred over a given period.
- Accounting standards were developed to try to address **subjectivity**.
- The IASB develops **International Financial Reporting Standards (IFRSs)**.
- The main objectives of the IFRS Foundation are to:
  - **Develop** a single set of high quality, understandable, enforceable and globally accepted **international financial reporting standards (IFRSs)** through its standard-setting body, the **IASB**
  - Promote the **use** and rigorous application of those standards
  - Take account of the financial reporting needs of emerging economies and **small** and **medium-sized entities (SMEs)**
  - Bring about **convergence** of national accounting standards and IFRSs to high quality solutions.

**1 The context and purpose of financial reporting****34 mins**

1.1 Who issues International Financial Reporting Standards?

- A The IFRS Advisory Committee
- B The stock exchange
- C The International Accounting Standards Board
- D The government

**(2 marks)**

1.2 Which groups of people are most likely to be interested in the financial statements of a sole trader?

- 1 Shareholders of the company
  - 2 The business's bank manager
  - 3 The tax authorities
  - 4 Financial analysts
- 
- A 1 and 2 only
  - B 2 and 3 only
  - C 2, 3 and 4 only
  - D 1, 2 and 3 only

**(2 marks)**

1.3 Which of the following statements is/are true?

- 1 A supplier of goods on credit is interested only in the statement of financial position, ie an indication of the current state of affairs.
  - 2 The objective of financial statements is to provide information about the financial position, performance and changes in financial position of an entity that is useful to a wide range of users in making economic decisions.
- 
- A 1 only
  - B 2 only
  - C Both 1 and 2
  - D Neither 1 or 2

**(2 marks)**

1.4 Which of the following are advantages of trading as a limited liability company?

- 1 Operating as a limited liability company makes raising finance easier because additional shares can be issued to raise additional cash.
  - 2 Operating as a limited liability company is more risky than operating as a sole trader because the shareholders of a business are liable for all the debts of the business whereas the sole trader is only liable for the debts up to the amount he has invested.
- 
- A 1 only
  - B 2 only
  - C Both 1 and 2
  - D Neither 1 or 2

**(2 marks)**

1.5 Which of the following best describes corporate governance?

- A Corporate governance is the system of rules and regulations surrounding financial reporting.
- B Corporate governance is the system by which companies and other entities are directed and controlled.
- C Corporate governance is carried out by the finance department in preparing the financial statements.
- D Corporate governance is the system by which an entity monitors its impact on the natural environment.

**(2 marks)**

1.6 Which of the following statements is/are true?

- 1 The directors of a company are ultimately responsible for the preparation of financial statements, even if the majority of the work on them is performed by the finance department.
  - 2 If financial statements are audited, then the responsibility for those financial statements instead falls on the auditors instead of the directors.
  - 3 There are generally no laws surrounding the duties of directors in managing the affairs of a company.
- A 1 only  
 B 1 and 2 only  
 C 1, 2 and 3  
 D 1 and 3 only

(2 marks)

1.7 Which ONE of the following statements correctly describes the contents of the Statement of Financial Position?

- A A list of ledger balances shown in debit and credit columns  
 B A list of all the assets owned and all the liabilities owed by a business  
 C A record of income generated and expenditure incurred over a given period  
 D A record of the amount of cash generated and used by a company in a given period

(2 marks)

1.8 Which ONE of the following statements correctly describes the contents of the Statement of Profit or Loss?

- A A list of ledger balances shown in debit and credit columns  
 B A list of all the assets owned and all the liabilities owed by a business  
 C A record of income generated and expenditure incurred over a given period  
 D A record of the amount of cash generated and used by a company in a given period

(2 marks)

1.9 Which of the following are TRUE of partnerships?

- 1 The partners' individual exposure to debt is limited.
  - 2 Financial statements for the partnership by law must be produced and made public.
  - 3 A partnership is not a separate legal entity from the partners themselves.
- A 1 and 2 only  
 B 2 only  
 C 3 only  
 D 1 and 3 only

(2 marks)

1.10 Which of the following statements is/are true?

- 1 Directors of companies have a duty of care to show reasonable competence in their management of the affairs of a company.
  - 2 Directors of companies must act honestly in what they consider to be the best interest of the company.
  - 3 A Director's main aim should be to create wealth for the shareholders of the company.
- A 1 and 2 only  
 B 2 only  
 C 1, 2 and 3  
 D 1 and 3 only

(2 marks)

1.11 Which of the following statements is/are true?

- 1 The IFRS Interpretations Committee is a forum for the IASB to consult with the outside world.
  - 2 The IFRS Foundation produces IFRSs. The IFRS Foundation is overseen by the IASB.
  - 3 One of the objectives of the IFRS Foundation is to bring about convergence of national accounting standards and IFRSs.
- A 1 and 3 only
  - B 2 only
  - C 2 and 3 only
  - D 3 only

(2 marks)

1.12 What is the role of the IASB?

- A Oversee the standard setting and regulatory process
- B Formulate international financial reporting standards
- C Review defective accounts
- D Control the accountancy profession

(2 marks)

1.13 Which ONE of the following is NOT an objective of the IFRS Foundation?

- A Through the IASB, develop a single set of globally accepted International Financial Reporting Standards (IFRSs)
- B Promote the use and rigorous application of International Financial Reporting Standards (IFRSs)
- C Ensure International Financial Reporting Standards (IFRSs) focus primarily on the needs of global, multi-national organisations
- D Bring about the convergence of national accounting standards and IFRSs

(2 marks)

1.14 Which ONE of the following statements correctly describes how International Financial Reporting Standards (IFRSs) should be used?

- A To provide examples of best financial reporting practice for national bodies who develop their own requirements
- B To ensure high ethical standards are maintained by financial reporting professionals internationally
- C To facilitate the enforcement of a single set of global financial reporting standards
- D To prevent national bodies from developing their own financial reporting standards

(2 marks)

**(Total = 28 marks)**

## Do you know? – The qualitative characteristics of financial information

Check that you can fill in the blanks in the statements below before you attempt any questions. If in doubt, you should go back to your BPP Interactive Text and revise first.

- In preparing financial statements, accountants follow certain fundamental **a**.....
- The IASB's **C**...../**f**.....**k** provides the basis for its IFRSs.
- The main underlying assumption is .....
- The *Conceptual framework* states that ..... characteristics are the attributes that make the information provided in financial statements useful to users.
- The four enhancing qualitative characteristics are ..... , ..... , ..... and .....
- Other important qualitative characteristics and concepts include fair ..... , **c**..... and the business ..... concept.
- A ..... between qualitative characteristics is often necessary, the aim being to achieve an appropriate balance to meet the objective of financial statements.

## Did you know? – The qualitative characteristics of financial information

Could you fill in the blanks? The answers are in bold. Use this page for revision purposes as you approach the exam.

- In preparing financial statements, accountants follow certain fundamental **assumptions**.
- The IASB's **Conceptual framework** provides the basis for its IFRSs.
- The main underlying assumption is **going concern**.
- The *Conceptual framework* states that **qualitative** characteristics are the attributes that make the information provided in financial statements useful to users.
- The four enhancing qualitative characteristics are **understandability, verifiability, timeliness** and **comparability**.
- Other important qualitative characteristics and concepts include fair **presentation, consistency** and the business **entity** concept.
- A **trade off** between qualitative characteristics is often necessary, the aim being to achieve an appropriate balance to meet the objective of financial statements.

**2 The qualitative characteristics of financial information****31 mins**

- 2.1 Which accounting concept should be considered if the owner of a business takes goods from inventory for his own personal use?

- A The fair presentation concept
- B The accruals concept
- C The going concern concept
- D The business entity concept

**(2 marks)**

- 2.2 Sales revenue should be recognised when goods and services have been supplied; costs are incurred when goods and services have been received.

Which accounting concept governs the above?

- A The business entity concept
- B The materiality concept
- C The accruals concept
- D The duality concept

**(2 marks)**

- 2.3 Which accounting concept states that omitting or misstating this information could influence users of the financial statements?

- A The consistency concept
- B The accruals concept
- C The materiality concept
- D The going concern concept

**(2 marks)**

- 2.4 According to the IASB's *Conceptual Framework for Financial Reporting*, which TWO of the following are part of faithful representation?

- 1 It is neutral
- 2 It is relevant
- 3 It is presented fairly
- 4 It is free from material error

- A 1 and 2
- B 2 and 3
- C 1 and 4
- D 3 and 4

**(2 marks)**

- 2.5 Which of the following accounting concepts means that similar items should receive a similar accounting treatment?

- A Going concern
- B Accruals
- C Matching
- D Consistency

**(2 marks)**

2.6 Listed below are some characteristics of financial information.

- 1 Relevance
- 2 Consistency
- 3 Faithful representation
- 4 Accuracy

Which of these are qualitative characteristics of financial information according to the IASB's *Conceptual Framework for Financial Reporting*?

- A 1 and 2 only
- B 2 and 4 only
- C 3 and 4 only
- D 1 and 3 only

**(2 marks)**

2.7 Which ONE of the following statements describes faithful representation, a qualitative characteristic of faithful representation?

- A Revenue earned must be matched against the expenditure incurred in earning it.
- B Having information available to decision-makers in time to be capable of influencing their decisions.
- C The presentation and classification of items in the financial statements should stay the same from one period to the next.
- D Financial information should be complete, neutral and free from error

**(2 marks)**

2.8 Listed below are some comments on accounting concepts.

- 1 Financial statements always treat the business as a separate entity.
- 2 Materiality means that only items having a physical existence may be recognised as assets.
- 3 Provisions are estimates and therefore can be altered to make the financial results of a business more attractive to investors.

Which, if any, of these comments is correct, according to the IASB's *Conceptual Framework for Financial Reporting*?

- A 1 only
- B 2 only
- C 3 only
- D None of them

**(2 marks)**

2.9 Which of the following statements about accounting concepts and the characteristics of financial information are correct?

- 1 The concept of accruals requires transactions to be reflected in the financial statements once the cash or its equivalent is received or paid.
- 2 Information is material if its omission or misstatement could influence the economic decisions of users taken on the basis of the financial statements.
- 3 Based on faithful representation, it may sometimes be necessary to exclude material information from financial statements due to difficulties establishing an accurate figure.

- A 1 only
- B 1 and 2 only
- C 2 only
- D 2 and 3 only

**(2 marks)**

2.10 The IASB's *Conceptual Framework for Financial Reporting* gives six qualitative characteristics of financial information. What are these six characteristics?

- A Relevance, Faithful representation, Comparability, Verifiability, Timeliness and Understandability
- B Accuracy, Faithful representation, Comparability, Verifiability, Timeliness and Understandability
- C Relevance, Faithful representation, Consistency, Verifiability, Timeliness and Understandability
- D Relevance, Comparability, Consistency, Verifiability, Timeliness and Understandability

(2 marks)

2.11 Which one of the following is *not* a qualitative characteristic of financial information according to the *Conceptual framework for Financial Reporting*?

- A Faithful representation
- B Relevance
- C Timeliness
- D Accruals

(2 marks)

2.12 According to the IASB *Conceptual framework* which of the following is **not** an objective of financial statements?

- A Providing information regarding the financial position of a business
- B Providing information regarding the performance of a business
- C Enabling users to assess the performance of management to aid decision making
- D Providing reliable investment advice

(2 marks)

2.13 Which of the following statements about accounting concepts and policies is/are correct?

- 1 Companies should never change the presentation or classification of items in their financial statements, even if there is a significant change in the nature of operations.
  - 2 Companies should create provisions in times of company growth to be utilised in more difficult times, to smooth profits.
- A 1 only
  - B 2 only
  - C 1 and 2
  - D Both are incorrect

## Did you know? – The use of double entry and accounting systems

Could you fill in the blanks? The answers are in bold. Use this page for revision purposes as you approach the exam.

- Business transactions are recorded on **source documents**. Examples include sales and purchase orders, **invoices** and **credit notes**.
- Books of **prime entry** are books in which we first record transactions.
- The main books of prime entry are:
  - (a) **Sales** day book
  - (b) **Purchase** day book
  - (c) **Sales returns** day book
  - (d) **Purchase returns** day book
  - (e) **Journal**
  - (f) **Cash** book
  - (g) **Petty cash** book
- Entries in the **day books** are totalled and analysed before posting to the **nominal** ledger.
- The **receivables** and **payables** ledgers contain the personal accounts of individual customers and suppliers. They do not normally form part of the double-entry system.
- The **business entity** concept means that a business is always treated separately from its owner(s).
- The accounting equation is: **ASSETS = CAPITAL + LIABILITIES – DRAWINGS + PROFIT**
- Trade accounts payable are **liabilities**. Trade accounts receivable are **assets**.
- In double entry bookkeeping every transaction is recorded **twice** so that every **debit** is balanced by a **credit**.
- A debit entry will:
  - **Increase** an asset
  - **Decrease** a liability
  - **Increase** an expense
- A credit entry will:
  - **Decrease** an asset
  - **Increase** a liability
  - **Increase** income
- A trial balance can be used to test the **accuracy** of the double entry accounting records.
- A **profit** and **loss** ledger account is opened up to gather all items relating to income and expenses. When rearranged, the items make up the **statement of profit or loss**

**3 Double entry bookkeeping I****46 mins**

- 3.1 Which one of the following can the accounting equation be rewritten as?

- A Assets + profit – drawings – liabilities = closing capital
- B Assets – liabilities – drawings = opening capital + profit
- C Assets – liabilities – opening capital + drawings = profit
- D Assets – profit – drawings = closing capital – liabilities

**(2 marks)**

- 3.2 A trader's net profit for the year may be computed by using which of the following formulae?

- A Opening capital + drawings – capital introduced – closing capital
- B Closing capital + drawings – capital introduced – opening capital
- C Opening capital – drawings + capital introduced – closing capital
- D Opening capital – drawings – capital introduced – closing capital

**(2 marks)**

- 3.3 The profit earned by a business in 20X7 was \$72,500. The proprietor injected new capital of \$8,000 during the year and withdrew goods for his private use which had cost \$2,200.

If net assets at the beginning of 20X7 were \$101,700, what were the closing net assets?

- A \$35,000
- B \$39,400
- C \$168,400
- D \$180,000

**(2 marks)**

- 3.4 The profit made by a business in 20X7 was \$35,400. The proprietor injected new capital of \$10,200 during the year and withdrew a monthly salary of \$500.

If net assets at the end of 20X7 were \$95,100, what was the proprietor's capital at the beginning of the year?

- A \$50,000
- B \$55,500
- C \$63,900
- D \$134,700

**(2 marks)**

- 3.5 A sole trader took some goods costing \$800 from inventory for his own use. The normal selling price of the goods is \$1,600.

Which of the following journal entries would correctly record this?

|                     | <i>Dr</i><br>\$ | <i>Cr</i><br>\$ |
|---------------------|-----------------|-----------------|
| A Inventory account | 800             |                 |
| Purchases account   |                 | 800             |
| B Drawings account  | 800             |                 |
| Purchases account   |                 | 800             |
| C Sales account     | 1,600           |                 |
| Drawings account    |                 | 1,600           |
| D Drawings account  | 800             |                 |
| Sales account       |                 | 800             |

**(2 marks)**

- 3.6 A business can make a profit and yet have a reduction in its bank balance. Which ONE of the following might cause this to happen?

- A The sale of non-current assets at a loss
- B The charging of depreciation in the statement of profit or loss
- C The lengthening of the period of credit given to customers
- D The lengthening of the period of credit taken from suppliers

**(2 marks)**

- 3.7 The net assets of Altese, a trader, at 1 January 20X2 amounted to \$128,000. During the year to 31 December 20X2 Altese introduced a further \$50,000 of capital and made drawings of \$48,000. At 31 December 20X2 Altese's net assets totalled \$184,000.

What is Altese's total profit or loss for the year ended 31 December 20X2?

- A \$54,000 profit
- B \$54,000 loss
- C \$42,000 loss
- D \$58,000 profit

How should these amounts be recorded on Jenny's opening trial balance at 1 December 20X5?

- A Debit \$7,822
- B Credit \$7,822
- C Credit \$8,500 and Debit \$678
- D Debit \$8,500 and Credit \$678

(2 marks)

4.15 Bert has extracted the following list of balances from his general ledger at 31 October 20X5:

|                                      | \$      |
|--------------------------------------|---------|
| Sales                                | 258,542 |
| Opening inventory                    | 9,649   |
| Purchases                            | 142,958 |
| Expenses                             | 34,835  |
| Non-current assets (carrying amount) | 63,960  |
| Receivables                          | 31,746  |
| Payables                             | 13,864  |
| Cash at bank                         | 1,783   |
| Capital                              | 12,525  |

What is the total of the debit balances in Bert's trial balance at 31 October 20X5?

- A \$267,049
- B \$275,282
- C \$283,148
- D \$284,931

(2 marks)

4.16 At 31 October 20X6 Roger's trial balance included the following balances:

|                          | \$     |
|--------------------------|--------|
| Machinery at cost        | 12,890 |
| Accumulated depreciation | 8,950  |
| Inventory                | 5,754  |
| Trade receivables        | 11,745 |
| Trade payables           | 7,830  |
| Bank overdraft           | 1,675  |
| Cash at bank             | 150    |

What is the value of Roger's current assets at 31 October 20X6?

- A \$17,649
- B \$17,499
- C \$15,974
- D \$13,734

(2 marks)

4.17 Which ONE of the following statements does NOT describe a way in which an effective accounting system facilitates the provision of useful accounting information?

- A By requiring authorisation in line with organisational policies
- B By processing and recording transactions in accordance with accounting rules
- C By preventing transactions from being processed inaccurately
- D By enabling transactions to be recorded as necessary to permit preparation of financial statements

(2 marks)

4.18 Which of the following statements is/are TRUE or FALSE?

- 1 Cash purchases are recorded in the purchases day book.
- 2 The sales day books is used to keep a list of invoices received from suppliers.
- A Both statements are TRUE
- B Both statements are FALSE
- C Statement 1 is TRUE and statement 2 is FALSE
- D Statement 1 is FALSE and statement 2 is TRUE

## Do you know? – Recording transactions and events

Check that you can fill in the blanks in the statements below before you attempt any questions. If in doubt, you should go back to your BPP Interactive Text and revise first.

- **S**..... **t**..... is an indirect tax levied on the sale of goods and services.
- **R**..... businesses charge ..... sales tax on sales and suffer ..... sales tax on purchases.
- The **c**..... of **g**..... **s**..... is calculated as: Opening inventory + purchases – closing inventory.
- Carriage ..... is included in the cost of purchases. Carriage ..... is a selling expense.
- The value of inventories is calculated at the **l**..... of **c**..... and **n**..... **r**..... **v**.....
- The cost of inventories can be arrived at by using ..... or .....
- **C**..... expenditure is expenditure which forms part of the cost of non-current assets. **R**..... expenditure is expenditure incurred for the purpose of the trade or to maintain non current assets.
- The ..... of a non-current asset, less its estimated residual value, is allocated fairly between accounting periods by means of **d**.....
- **D**..... costs must be capitalised as an **i**..... asset if the criteria in IAS 38 are satisfied.
- **A**..... are expenses which relate to an accounting period but have not yet been paid for. They are shown in the statement of financial position as a **l**.....
- **P**..... are expenses which have already been paid but relate to a future accounting period. They are shown in the statement of financial position as an .....
- **I**..... debts are specific debts owed to a business which it decides are never going to be paid. They are written off as an ..... in the statement of profit or loss.
- An ..... in the allowance for receivables is shown as an expense in the statement of profit or loss.
- A provision should be recognised:
  - When an entity has a **p**..... **o**.....
  - It is **p**..... that a transfer of economic benefits will be required to settle it
  - A **r**..... **e**..... can be made of its amount
- A **c**..... liability must not be recognised as a liability in the financial statements. Instead it should be **d**..... in the notes to the financial statements.

## Did you know? – Recording transactions and events

Could you fill in the blanks? The answers are in bold. Use this page for revision purposes as you approach the exam.

- **Sales tax** is an indirect tax levied on the sale of goods and services.
- **Registered** businesses charge **output sales tax** on sales and suffer **input sales tax** on purchases.
- The **cost of goods sold** is calculated as: Opening inventory + purchases – closing inventory.
- Carriage **inwards** is included in the cost of purchases. Carriage **outwards** is a selling expense.
- The value of inventories is calculated at the **lower of cost** and **net realisable value**.
- The cost of inventories can be arrived at by using **FIFO (first in-first out)** or **AVCO (weighted average costing, both periodic weighted average and continuous weighted average)**.
- **Capital** expenditure is expenditure which forms part of the cost of non-current assets. **Revenue** expenditure is expenditure incurred for the purpose of the trade or to maintain non current assets.
- The **cost** of a non-current asset, less its estimated residual value, is allocated fairly between accounting periods by means of **depreciation**.
- **Development** costs must be capitalised as an **intangible** asset if the criteria in IAS 38 are satisfied.
- **Accruals** are expenses which relate to an accounting period but have not yet been paid for. They are shown in the statement of financial position as a **liability**.
- **Prepayments** are expenses which have already been paid but relate to a future accounting period. They are shown in the statement of financial position as an **asset**.
- **Irrecoverable** debts are specific debts owed to a business which it decides are never going to be paid. They are written off as an **expense** in the statement of profit or loss.
- An **increase** in the allowance for receivables is shown as an expense in the statement of profit or loss.
- A **provision** should be recognised:
  - When an entity has a **present obligation**
  - It is **probable** that a transfer of economic benefits will be required to settle it
  - A **reliable estimate** can be made of its amount
- A **contingent** liability must not be recognised as a liability in the financial statements. Instead it should be **disclosed** in the notes to the financial statements.

**5 Sales tax****19 mins**

- 5.1 W is registered for sales tax. The managing director has asked four staff in the accounts department why the output tax for the last quarter does not equal 20% of sales (20% is the rate of tax). Which one of the following four replies she received was *not* correct?

- A The company had some exports that were not liable to sales tax.
- B The company made some sales of zero-rated products.
- C The company made some sales of exempt products.
- D The company sold some products to businesses not registered for sales tax.

**(2 marks)**

- 5.2 The following information relates to Eva Co's sales tax for the month of March 20X3:

|                              |            |
|------------------------------|------------|
| Sales (including sales tax)  | \$ 109,250 |
| Purchases (net of sales tax) | 64,000     |

Sales tax is charged at a flat rate of 15%. Eva Co's sales tax account showed an opening credit balance of \$4,540 at the beginning of the month and a closing debit balance of \$2,720 at the end of the month.

What was the total sales tax paid to regulatory authorities during the month of March 20X3?

- A \$6,470.00
- B \$11,910.00
- C \$14,047.50
- D \$13,162.17

**(2 marks)**

- 5.3 Alana is not registered for sales tax purposes. She has recently received an invoice for goods for resale which cost \$500 before sales tax, which is levied at 15%. The total value was therefore \$575.

What is the correct entry to be made in Alana's general ledger in respect of the invoice?

- A Dr Purchases \$500, Dr Sales tax \$75, Cr Payables \$575
- B Dr Purchases \$575, Cr Sales tax \$75, Cr Payables \$500
- C Dr Purchases \$500, Cr Payables \$500
- D Dr Purchases \$575, Cr Payables \$575

**(2 marks)**

- 5.4 Information relating to Lauren Co's transactions for the month of May 20X4 is shown below:

|                              |             |
|------------------------------|-------------|
| Sales (including sales tax)  | \$ 140,000* |
| Purchases (net of sales tax) | 65,000      |

Sales tax is charged at a flat rate of 20%. Lauren Co's sales tax account had a zero balance at the beginning of the month and at the end of the month.

\* Lauren Co's sales for the month of \$140,000 included \$20,000 of sales exempt from sales tax.

What was the total sales tax paid to regulatory authorities at the end of May 20X4 (to the nearest \$)?

- A \$7,000
- B \$20,000
- C \$23,333
- D \$13,000

**(2 marks)**

- 5.5 A business commenced with capital in cash of \$1,000. Inventory costing \$800 plus sales tax is purchased on credit, and half is sold for \$1,000 plus sales tax, the customer paying in cash at once. The sales tax rate is 20%.

What would the accounting equation after these transactions show?

- A Assets \$1,800 less Liabilities \$200 equals Capital \$1,600
- B Assets \$2,200 less Liabilities \$1,000 equals Capital \$1,200
- C Assets \$2,600 less Liabilities \$800 equals Capital \$1,800
- D Assets \$2,600 less Liabilities \$1,000 equals Capital \$1,600

**(2 marks)**

5.6 Trade receivables and payables in the financial statements of a sales tax registered trader will appear as described by which of the following?

- A Inclusive of sales tax in the statement of financial position
- B Exclusive of sales tax in the statement of financial position
- C The sales tax is deducted and added to the sales tax account in the statement of financial position
- D Sales tax does not appear in the statement of financial position because the business simply acts as a collector on behalf of the tax authorities

(2 marks)

5.7 Which of the following correctly describe the entry in the sales account for a sale for a sales tax registered trader?

- A Credited with the total of sales made, including sales tax
- B Credited with the total of sales made, excluding sales tax
- C Debited with the total of sales made, including sales tax
- D Debited with the total of sales made, excluding sales tax

(2 marks)

5.8 Sales (including sales tax) amounted to \$27,612.50, and purchases (excluding sales tax) amounted to \$18,000. What is the balance on the sales tax account, assuming all items are subject to sales tax at 17.5%?

- A \$962.50 debit
- B \$962.50 credit
- C \$1,682.10 debit
- D \$1,682.10 credit

(2 marks)

(Total = 16 marks)

## 6 Inventory

46 mins

6.1 The inventory value for the financial statements of Global Co for the year ended 30 June 20X3 was based on a inventory count on 7 July 20X3, which gave a total inventory value of \$950,000.

Between 30 June and 7 July 20X6, the following transactions took place.

|   | \$     |
|---|--------|
| Purchase of goods                       | 11,750 |
| Sale of goods (mark up on cost at 15%)  | 14,950 |
| Goods returned by Global Co to supplier | 1,500  |

What figure should be included in the financial statements for inventories at 30 June 20X3?

- A \$952,750
- B \$949,750
- C \$926,750
- D \$958,950

(2 marks)

- 6.2 Which of the following costs may be included when arriving at the cost of finished goods inventory for inclusion in the financial statements of a manufacturing company?

- 1 Carriage inwards
  - 2 Carriage outwards
  - 3 Depreciation of factory plant
  - 4 Finished goods storage costs
  - 5 Factory supervisors' wages
- A 1 and 5 only  
 B 2, 4 and 5 only  
 C 1, 3 and 5 only  
 D 1, 2, 3 and 4 only

(2 marks)

- 6.3 The closing inventory at cost of a company at 31 January 20X3 amounted to \$284,700.

The following items were included at cost in the total:

- 1 400 coats, which had cost \$80 each and normally sold for \$150 each. Owing to a defect in manufacture, they were all sold after the reporting date at 50% of their normal price. Selling expenses amounted to 5% of the proceeds.
- 2 800 skirts, which had cost \$20 each. These too were found to be defective. Remedial work in February 20X3 cost \$5 per skirt, and selling expenses for the batch totalled \$800. They were sold for \$28 each.

What should the inventory value be according to IAS 2 *Inventories* after considering the above items?

- A \$281,200  
 B \$282,800  
 C \$329,200  
 D None of these

(2 marks)

- 6.4 A company values its inventory using the first in, first out (FIFO) method. At 1 May 20X2 the company had 700 engines in inventory, valued at \$190 each.

During the year ended 30 April 20X3 the following transactions took place:

*20X2*

- |            |                                     |
|------------|-------------------------------------|
| 1 July     | Purchased 500 engines at \$220 each |
| 1 November | Sold 400 engines for \$160,000      |

*20X3*

- |            |                                     |
|------------|-------------------------------------|
| 1 February | Purchased 300 engines at \$230 each |
| 15 April   | Sold 250 engines for \$125,000      |

What is the value of the company's closing inventory of engines at 30 April 20X3?

- A \$188,500  
 B \$195,500  
 C \$166,000  
 D None of these figures

(2 marks)

- 6.5 Which of the following statements about the valuation of inventory are correct, according to IAS 2 *Inventories*?
- 1 Inventory items are normally to be valued at the higher of cost and net realisable value.
  - 2 The cost of goods manufactured by an entity will include materials and labour only. Overhead costs cannot be included.
  - 3 LIFO (last in, first out) cannot be used to value inventory.
  - 4 Selling price less estimated profit margin may be used to arrive at cost if this gives a reasonable approximation to actual cost.
- A 1, 3 and 4 only  
 B 1 and 2 only  
 C 3 and 4 only  
 D None of the statements are correct
- (2 marks)
- 
- 6.6 A company with an accounting date of 31 October carried out a physical check of inventory on 4 November 20X3, leading to an inventory value at cost at this date of \$483,700.
- Between 1 November 20X3 and 4 November 20X3 the following transactions took place:
- 1 Goods costing \$38,400 were received from suppliers.
  - 2 Goods that had cost \$14,800 were sold for \$20,000.
  - 3 A customer returned, in good condition, some goods which had been sold to him in October for \$600 and which had cost \$400.
  - 4 The company returned goods that had cost \$1,800 in October to the supplier, and received a credit note for them.
- What figure should appear in the company's financial statements at 31 October 20X3 for closing inventory, based on this information?
- A \$458,700  
 B \$505,900  
 C \$508,700  
 D \$461,500
- (2 marks)
- 
- 6.7 In preparing its financial statements for the current year, a company's closing inventory was understated by \$300,000.
- What will be the effect of this error if it remains uncorrected?
- A The current year's profit will be overstated and next year's profit will be understated.  
 B The current year's profit will be understated but there will be no effect on next year's profit.  
 C The current year's profit will be understated and next year's profit will be overstated.  
 D The current year's profit will be overstated but there will be no effect on next year's profit.
- (2 marks)
- 
- 6.8 The financial year of Mitex Co ended on 31 December 20X1. An inventory count on January 4 20X2 gave a total inventory value of \$527,300.
- The following transactions occurred between January 1 and January 4.
- |   | \$     |
|---|--------|
| Purchases of goods                                | 7,900  |
| Sales of goods (gross profit margin 40% on sales) | 15,000 |
| Goods returned to a supplier                      | 800    |
- What inventory value should be included in Mitex Co's financial statements at 31 December 20X1?
- A \$525,400  
 B \$527,600  
 C \$529,200  
 D \$535,200
- (2 marks)
-

6.9 Which of the following statements about IAS 2 *Inventories* is correct?

- A Production overheads should be included in cost on the basis of a company's normal level of activity in the period.
- B In arriving at the net realisable value of inventories, trade discounts and settlement discounts must be deducted.
- C In arriving at the cost of inventories, FIFO, LIFO and weighted average cost formulas are acceptable.
- D It is permitted to value finished goods inventories at materials plus labour cost only, without adding production overheads.

(2 marks)

6.10 You are preparing the financial statements for a business. The cost of the items in closing inventory is \$41,875. This includes some items which cost \$1,960 and which were damaged in transit. You have estimated that it will cost \$360 to repair the items, and they can then be sold for \$1,200.

What is the correct inventory valuation for inclusion in the financial statements?

- A \$39,915
- B \$40,755
- C \$41,515
- D \$42,995

(2 marks)

6.11 S sells three products – Basic, Super and Luxury. The following information was available at the year end.

|                                | <i>Basic</i><br>\$ per unit | <i>Super</i><br>\$ per unit | <i>Luxury</i><br>\$ per unit |
|--------------------------------|-----------------------------|-----------------------------|------------------------------|
| Original cost                  | 6                           | 9                           | 18                           |
| Estimated selling price        | 9                           | 12                          | 15                           |
| Selling and distribution costs | 1                           | 4                           | 5                            |
|                                | units                       | units                       | units                        |
| Units of inventory             | 200                         | 250                         | 150                          |

What is the value of inventory at the year end?

- A \$4,200
- B \$4,700
- C \$5,700
- D \$6,150

(2 marks)

6.12 An inventory record card shows the following details.

- |          |    |  |
|----------|----|--|
| February | 1  | 50 units in stock at a cost of \$40 per unit   |
|          | 7  | 100 units purchased at a cost of \$45 per unit |
|          | 14 | 80 units sold                                  |
|          | 21 | 50 units purchased at a cost of \$50 per unit  |
|          | 28 | 60 units sold                                  |

What is the value of inventory at 28 February using the FIFO method?

- A \$2,450
- B \$2,700
- C \$2,950
- D \$3,000

(2 marks)

- 6.13 IAS 2 *Inventories* defines the items that may be included in computing the value of an inventory of finished goods manufactured by a business.

Which one of the following lists consists only of items which may be included in the statement of financial position value of such inventories, according to IAS 2?

- A Supervisor's wages, carriage inwards, carriage outwards, raw materials
  - B Raw materials, carriage inwards, costs of storage of finished goods, plant depreciation
  - C Plant depreciation, carriage inwards, raw materials, Supervisor's wages
  - D Carriage outwards, raw materials, Supervisor's wages, plant depreciation
- (2 marks)**

- 6.14 The closing inventory of X amounted to \$116,400 *excluding* the following two inventory lines:

- 1 400 items which had cost \$4 each. All were sold after the reporting period for \$3 each, with selling expenses of \$200 for the batch.
- 2 200 different items which had cost \$30 each. These items were found to be defective at the end of the reporting period. Rectification work after the statement of financial position amounted to \$1,200, after which they were sold for \$35 each, with selling expenses totalling \$300.

Which of the following total figures should appear in the statement of financial position of X for inventory?

- A \$122,300
  - B \$121,900
  - C \$122,900
  - D \$123,300
- (2 marks)**

- 6.15 The inventory value for the financial statements of Q for the year ended 31 December 20X4 was based on an inventory count on 4 January 20X5, which gave a total inventory value of \$836,200.

Between 31 December and 4 January 20X5, the following transactions took place:

|   | \$     |
|---|--------|
| Purchases of goods                          | 8,600  |
| Sales of goods (profit margin 30% on sales) | 14,000 |
| Goods returned by Q to supplier             | 700    |

What adjusted figure should be included in the financial statements for inventories at 31 December 20X4?

- A \$838,100
  - B \$853,900
  - C \$818,500
  - D \$834,300
- (2 marks)**

- 6.16 A company has decided to switch from using the FIFO method of inventory valuation to using the average cost method (AVCO).

In the first accounting period where the change is made, opening inventory valued by the FIFO method was \$53,200. Closing inventory valued by the AVCO method was \$59,800.

Total purchases and during the period were \$136,500. Using the continuous AVCO method, opening inventory would have been valued at \$56,200.

What is the cost of materials that should be included in the statement of profit or loss for the period?

- A \$129,900
  - B \$132,900
  - C \$135,900
  - D \$140,100
- (2 marks)**

6.17 Which one of the following statements about the use of a continuous inventory system is INCORRECT?

- A In a retail organisation, a continuous inventory system can be used to keep track of the quantity of each stock item available in its distribution centres.
- B Under continuous inventory, the cost of each receipt of inventory and the cost of each issue from inventory is recorded individually.
- C A continuous inventory system removes the need for periodic physical inventory counts.
- D Both the FIFO and average cost (AVCO) methods of pricing inventory may be used within a continuous inventory system.

(2 marks)

6.18 The information below relates to inventory item Z.

|       |    |   |
|-------|----|---|
| March | 1  | 50 units held in opening inventory at a cost of \$40 per unit |
|       | 17 | 50 units purchased at a cost of \$50 per unit                 |
|       | 31 | 60 units sold at a selling price of \$100 per unit            |

Under AVCO, what is the value of inventory held for item Z at the end of March 31?

- A \$4,000
- B \$1,800
- C \$2,000
- D \$2,500

(2 marks)

6.19 A firm has the following transactions with its product R.

|                  |                                  |
|------------------|----------------------------------|
| 1 January 20X1   | Opening inventory: nil           |
| 1 February 20X1  | Buys 10 units at \$300 per unit  |
| 11 February 20X1 | Buys 12 units at \$250 per unit  |
| 1 April 20X1     | Sells 8 units at \$400 per unit  |
| 1 August 20X1    | Buys 6 units at \$200 per unit   |
| 1 December 20X1  | Sells 12 units at \$400 per unit |

The firm uses periodic weighted average cost (AVCO) to value its inventory. What is the inventory value at the end of the year?

- A \$nil
- B \$2,057.12
- C \$2,400.00
- D \$2,007.20

(Total = 38 marks)

**7 Tangible non-current assets I****46 mins**

- 7.1 What is the purpose of charging depreciation in financial statements?
- A To allocate the cost of a non-current asset over the accounting periods expected to benefit from its use  
 B To ensure that funds are available for the eventual replacement of the asset  
 C To reduce the cost of the asset in the statement of financial position to its estimated market value  
 D To account for the ‘wearing-out’ of the asset over its life **(2 marks)**
- 
- 7.2 Which of the statements below correctly states the purpose of the asset register?
- A An internal control to ensure details of all assets are readily available in the event of loss or theft  
 B To ensure the organisation is aware of the age of plant and machinery  
 C An internal control to ensure information relating to non-current assets in the nominal ledger and the financial statements is correct  
 D To enable the organisation to comply with IAS 16 Property, plant and equipment **(2 marks)**
- 
- 7.3 An asset register showed a carrying amount of \$67,460. A non-current asset costing \$15,000 had been sold for \$4,000, making a loss on disposal of \$1,250. No entries had been made in the asset register for this disposal.
- What is the correct balance on the asset register?
- A \$42,710  
 B \$51,210  
 C \$53,710  
 D \$62,210 **(2 marks)**
- 
- 7.4 An organisation's asset register shows a carrying amount of \$145,600. The non-current asset account in the nominal ledger shows a carrying amount of \$135,600. The difference could be due to a disposed asset not having been deducted from the asset register. Which one of the following could represent that asset?
- A Asset with disposal proceeds of \$15,000 and a profit on disposal of \$5,000  
 B Asset with disposal proceeds of \$15,000 and a carrying amount of \$5,000  
 C Asset with disposal proceeds of \$15,000 and a loss on disposal of \$5,000  
 D Asset with disposal proceeds of \$5,000 and a carrying amount of \$5,000 **(2 marks)**
- 
- 7.5 Which one of the following would occur if the purchase of computer stationary was debited to the computer equipment at cost account?
- A An overstatement of profit and an overstatement of non-current assets  
 B An understatement of profit and an overstatement of non-current assets  
 C An overstatement of profit and an understatement of non-current assets  
 D An understatement of profit and an understatement of non-current assets **(2 marks)**

- 7.6 Which one of the following statements correctly defines non-current assets?
- A Assets that are held for use in the production of goods or services and are expected to be used during more than one accounting period
  - B Assets which are intended to be used by the business on a continuing basis, including both tangible and intangible assets that do not meet the IASB definition of a current asset
  - C Non-monetary assets without physical substance that are controlled by the entity and from which future benefits are expected to flow
  - D Assets in the form of materials or supplies to be consumed in the production process

(2 marks)

- 7.7 A company bought a property four years ago on 1 January for \$ 170,000. Since then property prices have risen substantially and the property has been revalued at \$210,000.

The property was estimated as having a useful life of 20 years when it was purchased. What is the balance on the revaluation surplus reported in the statement of financial position?

- A \$210,000
- B \$136,000
- C \$74,000
- D \$34,000

(2 marks)

- 7.8 A business purchased a motor car on 1 July 20X3 for \$20,000. It is to be depreciated at 20 per cent per year on the straight line basis, assuming a residual value at the end of five years of \$4,000, with a proportionate depreciation charge in the years of purchase and disposal.

The \$20,000 cost was correctly entered in the cash book but posted to the debit of the motor vehicles repairs account.

How will the business profit for the year ended 31 December 20X3 be affected by the error?

- A Understated by \$18,400
- B Understated by \$16,800
- C Overstated by \$18,400
- D Overstated by \$16,800

(2 marks)

- 7.9 A company's policy is to charge depreciation on plant and machinery at 20% per year on cost, with proportional depreciation for items purchased or sold during a year.

The company's plant and machinery at cost account for the year ended 30 September 20X3 is shown below.

PLANT AND MACHINERY – COST

|             |                        | \$             |             | \$                        |
|-------------|------------------------|----------------|-------------|---------------------------|
| <i>20X2</i> |                        |                | <i>20X3</i> |                           |
| 1 Oct       | Balance                | 200,000        | 30 Jun      | Transfer disposal account |

|             |                        |                | 30 Sep      | Balance                   |
|             |                        |                |             | 210,000                   |
| <i>20X3</i> |                        |                |             |                           |
| 1 Apr       | Cash-purchase of plant | 50,000         |             |                           |
|             |                        | <u>250,000</u> |             | <u>250,000</u>            |

What should be the depreciation charge for plant and machinery (excluding any profit or loss on the disposal) for the year ended 30 September 20X3?

- A \$43,000
- B \$51,000
- C \$42,000
- D \$45,000

(2 marks)

7.10 The plant and machinery at cost account of a business for the year ended 30 June 20X4 was as follows:

PLANT AND MACHINERY – COST

|                                | \$             |                                  | \$             |
|--------------------------------|----------------|----------------------------------|----------------|
|                                | 20X3           |                                  | 20X3           |
| 1 Jul Balance                  | 240,000        | 30 Sep Transfer disposal account | 60,000         |
| 20X4                           |                | 20X4                             |                |
| 1 Jan Cash – purchase of plant | <u>160,000</u> | 30 Jun Balance                   | <u>340,000</u> |
|                                | <u>400,000</u> |                                  | <u>400,000</u> |

The company's policy is to charge depreciation at 20% per year on the reducing balance basis, with proportionate depreciation in the years of purchase and disposal.

What should be the depreciation charge for the year ended 30 June 20X4?

- A \$68,000
- B \$64,000
- C \$61,000
- D \$55,000

(2 marks)

7.11 A manufacturing company receives an invoice on 29 February 20X2 for work done on one of its machines. \$25,500 of the cost is actually for a machine upgrade, which will improve efficiency. The accounts department do not notice and charge the whole amount to maintenance costs. Machinery is depreciated at 25% per annum on a straight-line basis, with a proportional charge in the years of acquisition and disposal. By what amount will the profit for the year to 30 June 20X2 be understated?

- A \$19,125
- B \$25,500
- C \$23,375
- D \$21,250

(2 marks)

7.12 W bought a new printing machine. The cost of the machine was \$80,000. The installation costs were \$5,000 and the employees received training on how to use the machine, at a cost of \$2,000. Before using the machine to print customers' orders, a test was undertaken and the paper and ink cost \$1,000.

What should be the cost of the machine in the company's statement of financial position?

- A \$80,000
- B \$85,000
- C \$86,000
- D \$88,000

(2 marks)

7.13 What are the correct ledger entries to record an acquisition of a non-current asset on credit?

|   | <i>Debit</i>              | <i>Credit</i>             |
|---|---------------------------|---------------------------|
| A | Non-current assets – cost | Receivables               |

**The following information is relevant for questions 7.16 and 7.17.**

Gusna Co purchased a building on 31 December 20X1 for \$750,000. At the date of acquisition, the useful life of the building was estimated to be 25 years and depreciation is calculated using the straight-line method. At 31 December 20X6, an independent valuer valued the building at \$1,000,000 and the revaluation was recognised in the financial statements. Gusna's accounting policies state that excess depreciation arising on revaluation of non-current assets can be transferred from the revaluation surplus to retained earnings.

7.16 What is the depreciation charge on the building for the year ended 31 December 20X7?

- A \$40,000  
 B \$50,000  
 C \$30,000  
 D \$42,500

(2 marks)

7.17 What is the journal entry to record the transfer of excess depreciation from the revaluation surplus to retained earnings?

(Total = 38 marks)

**8 Tangible non-current assets II****48 mins**

- 8.1 A car was purchased by a newsagent business in May 20X0 for:

|          | \$            |
|----------|---------------|
| Cost     | 10,000        |
| Road tax | 150           |
| Total    | <u>10,150</u> |

The business adopts a date of 31 December as its year end.

The car was traded in for a replacement vehicle in August 20X3 at an agreed value of \$5,000.

It has been depreciated at 25% per annum on the reducing balance method, charging a full year's depreciation in the year of purchase and none in the year of sale.

What was the profit or loss on disposal of the vehicle during the year ended December 20X3?

- A Profit: \$718
- B Profit: \$781
- C Profit: \$1,788
- D Profit: \$1,836

**(2 marks)**

- 8.2 The carrying amount of a company's non-current assets was \$200,000 at 1 August 20X0. During the year ended 31 July 20X1, the company sold non-current assets for \$25,000 on which it made a loss of \$5,000. The depreciation charge for the year was \$20,000. What was the carrying amount of non-current assets at 31 July 20X1?

- A \$150,000
- B \$155,000
- C \$160,000
- D \$180,000

**(2 marks)**

- 8.3 Y purchased some plant on 1 January 20X0 for \$38,000. The payment for the plant was correctly entered in the cash book but was entered on the debit side of the plant repairs account.

Y charges depreciation on the straight line basis at 20% per year, with a proportionate charge in the years of acquisition and disposal, and assuming no scrap value at the end of the life of the asset.

How will Y's profit for the year ended 31 March 20X0 be affected by the error?

- A Understated by \$30,400
- B Understated by \$36,100
- C Understated by \$38,000
- D Overstated by \$1,900

**(2 marks)**

- 8.4 B acquired a lorry on 1 May 20X0 at a cost of \$30,000. The lorry has an estimated useful life of four years, and an estimated resale value at the end of that time of \$6,000. B charges depreciation on the straight line basis, with a proportionate charge in the period of acquisition.

What will the depreciation charge for the lorry be in B's accounting period to 30 September 20X0?

- A \$3,000
- B \$2,500
- C \$2,000
- D \$5,000

**(2 marks)**

- 8.5 At 31 December 20X3 Q, a limited liability company, owned a building that had cost \$800,000 on 1 January 20W4.

It was being depreciated at 2% per year.

On 31 December 20X3 a revaluation to \$1,000,000 was recognised. At this date the building had a remaining useful life of 40 years.

What is the balance on the revaluation surplus at 31 December 20X3 and the depreciation charge in the statement of profit or loss for the year ended 31 December 20X4?

|   | <i>Depreciation charge for<br/>year ended 31 December 20X4<br/>(statement of profit or loss)</i> | <i>Revaluation surplus<br/>as at 31 December 20X3<br/>(statement of financial position)</i> |
|---|--|---|
|   | \$   | \$  |
| A | 25,000   | 200,000   |
| B | 25,000   | 360,000   |
| C | 20,000   | 200,000   |
| D | 20,000   | 360,000   |

(2 marks)

8.14 Banjo Co purchased a building on 30 June 20X8 for \$1,250,000. At acquisition, the useful life of the building was 50 years. Depreciation is calculated on the straight-line basis. 10 years later, on 30 June 20Y8 when the carrying amount of the building was \$1,000,000, the building was revalued to \$1,600,000. Banjo Co has a policy of transferring the excess depreciation on revaluation from the revaluation surplus to retained earnings.

Assuming no further revaluations take place, what is the balance on the revaluation surplus at 30 June 20Y9?

- A \$335,000
- B \$310,000
- C \$560,000
- D \$585,000

(2 marks)

- 8.15 A non-current asset (cost \$15,000, depreciation \$10,000) is given in part exchange for a new asset costing \$20,500. The agreed trade-in value was \$5,500. Which of the following will be included in the statement of profit or loss?

- A A profit on disposal \$5,500
- B A loss on disposal \$4,500
- C A loss on purchase of a new asset \$5,500
- D A profit on disposal \$500

(2 marks)

- 8.16 Baxter Co purchased an asset for \$100,000 on 1.1.X1. It had an estimated useful life of 5 years and it was depreciated using the straight line method. On 1.1.X3 Baxter Co revised the remaining estimated useful life to 8 years.

What is the carrying amount of the asset at 31.12.X3?

- A \$40,000
- B \$52,500
- C \$40,000
- D \$62,500

(2 marks)

- 8.17 Senakuta Co purchased a machine with an estimated useful life of 5 years for \$34,000 on 30 September 20X5. Senakuta Co planned to scrap the machine at the end of its useful life and estimated that the scrap value at the purchase date was \$4,000. On 1 October 20X8, Senakuta revised the scrap value to \$2,000 due to the decreased value of scrap metal.

What is the depreciation charge for the year ended 30 September 20X9?

- A \$7,000
- B \$6,800
- C \$2,800
- D \$6,400

- 8.19 Banter Co purchased an office building on 1 January 20X1. The building cost was \$1,600,000 and this was depreciated by the straight line method at 2% per year, assuming a 50-year life and nil residual value. The building was re-valued to \$2,250,000 on 1 January 20X6. The useful life was not revised. The company's financial year ends on 31 December.

What is the balance on the revaluation surplus at 31 December 20X6?

- A \$650,000
- B \$792,000
- C \$797,000
- D \$810,000

(2 marks)

- 8.20 A company purchased an asset on 1 January 20X3 at a cost of \$1,000,000. It is depreciated over 50 years by the straight line method (nil residual value), with a proportionate charge for depreciation in the year of acquisition and the year of disposal. At 31 December 20X4 the asset was re-valued to \$1,200,000. There was no change in the expected useful life of the asset.

The asset was sold on 30 June 20X5 for \$1,195,000.

What profit or loss on disposal of the asset will be reported in the statement of profit or loss of the company for the year ended 31 December 20X5?

- A Profit of \$7,500
- B Profit of \$235,000
- C Profit of \$247,500
- D Loss of \$5,000

**The following information is relevant for questions 9.9 and 9.10.**

The following balances existed in the accounting records of Koppa Co, at 31 December 20X7.

|   | \$'000 |
|---|--------|
| Development costs capitalised, 1 January 20X7     | 180    |
| Research and development expenditure for the year | 162    |

In preparing the company's statement of profit or loss and other comprehensive income and statement of financial position at 31 December 20X7 the following further information is relevant.

- (a) The \$180,000 total for development costs as at 1 January 20X7 relates to two projects:

|  | \$'000     |
|--|------------|
| Project 836: completed project   | 82         |
| (balance being amortised over the period expected to benefit from it.) |            |
| Amount to be amortised in 20X7: \$20,000)                              |            |
| Project 910: in progress   | 98         |
|  | <u>180</u> |

- (b) The research and development expenditure for the year is made up of:

|   | \$'000     |
|---|------------|
| Research expenditure  | 103        |
| Development costs on Project 910 which continues to satisfy the requirements in IAS 38 for capitalisation | 59         |
|   | <u>162</u> |

9.9 According to IAS 38 *Intangible assets*, what amount should be charged in the statement of profit or loss and other comprehensive income for research and development costs for the year ended 31 December 20X7?

- A \$123,000
- B \$182,000
- C \$162,000
- D \$103,000

(2 marks)

9.10 According to IAS 38 *Intangible assets*, what amount should be disclosed as an intangible asset in the statement of financial position for the year ended 31 December 20X7?

- A \$219,000
- B \$180,000
- C \$160,000
- D \$59,000

(2 marks)

9.11 Theta Co purchased a patent on 31 December 20X3 for \$250,000. Theta Co expects to use the patent for ten years, after which it will be valueless. According to IAS 38 *Intangible assets*, what amount will be amortised in Theta Co's statement of profit or loss and other comprehensive income for the year ended 31 December 20X4?

- A \$250,000
- B \$125,000
- C \$25,000
- D \$50,000

(2 marks)

9.12 PF purchased a quota for carbon dioxide emissions for \$15,000 on 30 April 20X6 and capitalised it as an intangible asset in its statement of financial position. PF estimates that the quota will have a useful life of 3 years. What is the journal entry required to record the amortisation of the quota in the accounts for the year ended 30 April 20X9?

- |   |                             |          |          |
|---|-----------------------------|----------|----------|
| A | Dr Expenses                 | \$15,000 |          |
|   | Cr Accumulated amortisation |          | \$15,000 |
| B | Dr Expenses                 | \$5,000  |          |
|   | Cr Accumulated amortisation |          | \$5,000  |
| C | Dr Intangible assets        | \$5,000  |          |
|   | Cr Accumulated amortisation |          | \$5,000  |
| D | Dr Accumulated amortisation | \$15,000 |          |
|   | Cr Intangible assets        |          | \$15,000 |

(2 marks)

9.13 What is the purpose of amortisation?

- A To allocate the cost of an intangible non-current asset over its useful life
- B To ensure that funds are available for the eventual purchase of a replacement non-current asset
- C To reduce the cost of an intangible non-current asset in the statement of financial position to its estimated market value
- D To account for the risk associated with intangible assets

(2 marks)

9.14 Which of the following items (that all generate future economic benefits, and whose costs can be measured reliably), is an intangible non-current asset?

- 1 Computer hardware owned by a business
  - 2 Operating software that operates the computer hardware in (1)
  - 3 A patent bought by a business
  - 4 An extension to an office building owned by a business
- A All four items
  - B 1, 2 and 4 only
  - C 1 and 2 only
  - D 3 only

## 10 Accruals and prepayments

34 mins

10.1 A company receives rent for subletting part of its office block.

Rent, receivable quarterly in advance, is received as follows:

| <i>Date of receipt</i> | <i>Period covered</i>         | \$    |
|------------------------|-------------------------------|-------|
| 1 October 20X1         | 3 months to 31 December 20X1  | 7,500 |
| 30 December 20X1       | 3 months to 31 March 20X2     | 7,500 |
| 4 April 20X2           | 3 months to 30 June 20X2      | 9,000 |
| 1 July 20X2            | 3 months to 30 September 20X2 | 9,000 |
| 1 October 20X2         | 3 months to 31 December 20X2  | 9,000 |

What figures, based on these receipts, should appear in the company's financial statements for the year ended 30 November 20X2?

|   | <i>Statement of profit or loss</i> | <i>Statement of financial position</i> |
|---|------------------------------------|--|
| A | \$34,000 Debit                     | Rent in arrears (Dr) \$3,000           |
| B | \$34,500 Credit                    | Rent received in advance (Cr) \$6,000  |
| C | \$34,000 Credit                    | Rent received in advance (Cr) \$3,000  |
| D | \$34,000 Credit                    | Rent in arrears (Dr) \$3,000           |

(2 marks)

10.2 A company pays rent quarterly in arrears on 1 January, 1 April, 1 July and 1 October each year. The rent was increased from \$90,000 per year to \$120,000 per year as from 1 October 20X2.

What rent expense and accrual should be included in the company's financial statements for the year ended 31 January 20X3?

|   | <i>Rent expense</i> | <i>Accrual</i> |  |
|---|---------------------|----------------|--|
|   | \$                  | \$             |  |
| A | 100,000             | 20,000         |  |
| B | 100,000             | 10,000         |  |
| C | 97,500              | 10,000         |  |
| D | 97,500              | 20,000         |  |

10.13 Buster's draft financial statements for the year to 31 October 20X5 report a loss of \$1,486. When he prepared the financial statements, Buster did not include an accrual of \$1,625 and a prepayment of \$834.

What is Buster's profit or loss for the year to 31 October 20X5 following the inclusion of the accrual and prepayment?

- A A loss of \$695
- B A loss of \$2,277
- C A loss of \$3,945
- D A profit of \$1,807

(2 marks)

10.14 Bookz Co pays royalties to writers annually, in February, the payment covering the previous calendar year.

As at the end of December 20X2, Bookz Co had accrued \$100,000 in royalties due to writers. However, a check of the royalty calculation performed in January 20X3 established that the actual figure due to be paid by Bookz Co to writers was \$150,000.

Before this under-accrual was discovered, Bookz Co's draft statement of profit or loss for the accounting year ended 31 December 20X2 showed a profit of \$125,000 and their draft statement of financial position showed net assets of \$375,000.

What will Bookz Co's profit and net asset position be after an entry to correct the under-accrual has been processed?

|   | Profit for the year | Net asset position |           |
|---|---------------------|--------------------|-----------|
| A | \$175,000           | \$425,000          |           |
| B | \$125,000           | \$375,000          |           |

**11 Receivables and payables****48 mins**

11.1 Which of the following statements regarding payables and receivables are TRUE?

- 1 Payables represent money the business owes.
  - 2 Payables are an asset.
  - 3 Receivables represent money owed to the business.
- A Statement 1 only  
 B Statements 1 and 2 only  
 C Statements 1 and 3 only  
 D Statement 3 only

(2 marks)

11.2 At 31 December 20X2 a company's receivables totalled \$400,000 and an allowance for receivables of \$50,000 had been brought forward from the year ended 31 December 20X1.

It was decided to write off debts totalling \$38,000. The allowance for receivables was to be adjusted to the equivalent of 10% of the receivables.

What charge for receivables expense should appear in the company's statement of profit or loss for the year ended 31 December 20X2?

- A \$74,200
- B \$51,800
- C \$28,000
- D \$24,200

(2 marks)

11.3 At 1 July 20X2 the receivables allowance of Q was \$18,000.

During the year ended 30 June 20X3 debts totalling \$14,600 were written off. The receivables allowance required was to be \$16,000 as at 30 June 20X3.

What amount should appear in Q's statement of profit or loss for receivables expense for the year ended 30 June 20X3?

- A \$12,600
- B \$16,600
- C \$48,600
- D \$30,600

(2 marks)

11.4 At 30 September 20X2 a company's allowance for receivables amounted to \$38,000, which was equivalent to five per cent of the receivables at that date.

At 30 September 20X3 receivables totalled \$868,500. It was decided to write off \$28,500 of debts as irrecoverable. The allowance for receivables required was to be the equivalent of five per cent of receivables.

What should be the charge in the statement of profit or loss for the year ended 30 September 20X3 for receivables expense?

- A \$42,000
- B \$33,925
- C \$70,500
- D \$32,500

(2 marks)

- 11.5 At 1 July 20X3 a limited liability company had an allowance for receivables of \$83,000. During the year ended 30 June 20X4 debts totalling \$146,000 were written off. At 30 June 20X4 a receivables allowance of \$218,000 was required.

What figure should appear in the company's statement of profit or loss for the year ended 30 June 20X4 for receivables expense?

- A \$155,000
- B \$364,000
- C \$281,000
- D \$11,000

(2 marks)

- 11.6 A company has received cash for a debt that was previously written off. Which of the following is the correct double entry to record the cash received?

|   | <i>Debit</i>                | <i>Credit</i>               |
|---|-----------------------------|-----------------------------|
| A | Irrecoverable debts expense | Accounts receivable         |
| B | Cash                        | Irrecoverable debts expense |
| C | Allowance for receivables   | Accounts receivable         |
| D | Cash                        | Allowance for receivables   |

(2 marks)

- 11.7 At 31 December 20X4 a company's trade receivables totalled \$864,000 and the allowance for receivables was \$48,000.

It was decided that debts totalling \$13,000 were to be written off. The allowance for receivables was to be adjusted to the equivalent of five per cent of the receivables.

What figures should appear in the statement of financial position for trade receivables (after deducting the allowance) and in the statement of profit or loss for receivables expense?

|   | <i>Statement of profit or loss</i> | <i>Statement of financial position</i> |
|---|------------------------------------|--|
|   | \$                                 | \$                                     |
| A | 8,200                              | 807,800                                |
| B | 7,550                              | 808,450                                |
| C | 18,450                             | 808,450                                |
| D | 55,550                             | 808,450                                |

(2 marks)

- 11.8 Which of the following would a decrease in the allowance for receivables result in?

- A An increase in liabilities
- B A decrease in working capital
- C A decrease in net profit
- D An increase in net profit

(2 marks)

- 11.9 A company has been notified that a customer has been declared bankrupt. The company had previously made an allowance for this debt. Which of the following is the correct double entry to account for this new information?

|   | <i>Debit</i>              | <i>Credit</i>             |
|---|---------------------------|---------------------------|
| A | Irrecoverable debts       | Receivables               |
| B | Receivables               | Irrecoverable debts       |
| C | Allowance for receivables | Receivables               |
| D | Receivables               | Allowance for receivables |

(2 marks)

- 11.10 An increase in an allowance for receivables of \$8,000 has been treated as a reduction in the allowance in the financial statements. Which of the following explains the resulting effects?

- A Net profit is overstated by \$16,000, receivables overstated by \$8,000
- B Net profit understated by \$16,000, receivables understated by \$16,000
- C Net profit overstated by \$16,000, receivables overstated by \$16,000
- D Gross profit overstated by \$16,000, receivables overstated by \$16,000

(2 marks)

11.11 At 1 January 20X1, there was an allowance for receivables of \$3,000. During the year, \$1,000 of debts were written off as irrecoverable, and \$800 of debts previously written off were recovered. At 31 December 20X1, it was decided to adjust the allowance for receivables to 5% of receivables which are \$20,000.

What is the total receivables expense for the year?

- A \$200 debit
- B \$1,800 debit
- C \$2,200 debit
- D \$1,800 credit

(2 marks)

11.12 Top Co has total receivables outstanding of \$280,000. The accountant believes that approximately 1% of these balances will not be collected, so wishes to make an allowance of \$28,000. No previous allowance has been made for receivables.

Which of the following is the correct double entry to create this allowance?

|   | <i>Debit</i>              | <i>Credit</i>             |           |
|---|---------------------------|---------------------------|-----------|
| A | Irrecoverable debts       | Allowance for receivables |           |
| B | Allowance for receivables | Receivables               |           |
| C | Irrecoverable debts       | Receivables               |           |
| D | Receivables               | Allowance for receivables | (2 marks) |

11.13 At the beginning of the year, the allowance for receivables was \$850. At the year-end, the allowance required was \$1,000. During the year \$500 of debts were written off, which includes \$100 previously included in the allowance for receivables.

What is the charge to statement of profit or loss for receivables expense for the year?

- A \$1,500
- B \$1,000
- C \$650
- D \$550

(2 marks)

11.14 Which of the following statements are correct?

- 1 An aged receivables analysis shows how long invoices for each customer have been outstanding.
  - 2 A credit limit is a tool applied by the credit control department to make suppliers provide goods on time.
  - 3 Receivables are included in the statement of financial position net of the receivables allowance.
  - 4 Credit limits are applied to customers who purchase goods using cash only.
- A 1 and 2
  - B 2 and 3
  - C 1 and 3
  - D 3 and 4

(2 marks)

11.15 At 31 May 20X7 Roberta's trial balance included the following items.

|                                | \$     |
|--------------------------------|--------|
| Inventory at 1 June 20X6       | 23,856 |
| Trade receivables              | 55,742 |
| Trade payables                 | 32,165 |
| Bank overdraft                 | 5,855  |
| Loan due for repayment in 20X9 | 15,000 |

What is the value of Roberta's current liabilities at 31 May 20X7?

- A \$38,020
- B \$53,020
- C \$61,597
- D \$76,597

(2 marks)

11.16 Which one of the following statements is NOT a benefit of offering credit facilities to customers?

- A Improved convenience for the customer
- B The separation of product and service delivery from payment
- C Provides time for appropriate payment approval procedures
- D Fewer irrecoverable debts

(2 marks)

11.17 What is the correct double entry for discounts received?

|   | <i>Debit</i>                | <i>Credit</i>               |
|---|-----------------------------|-----------------------------|
| A | Payables control account    | Expenses                    |
| B | Expenses                    | Payables control account    |
| C | Discounts received (income) | Payables control account    |
| D | Payables control account    | Discounts received (income) |

(2 marks)

11.18 Which of the following are examples of payables of a business?

- 1 Interest owed from the bank
  - 2 Loans and advances to employees
  - 3 Money owed from customers
  - 4 Tax owed to the tax authority
- 
- A 1, 3, and 4 only
  - B 2, 3 and 4 only
  - C 2 and 4 only
  - D 4 only

(2 marks)

11.19 Which of the following are **not** examples of payables of a business?

- 1 An estimation of tax owed to the tax authority for the year just ended
  - 2 \$500 owed to a supplier for invoiced goods
  - 3 An estimation of probable repair costs under warranty claims
- 
- A 1, 2, and 3
  - B 1 only
  - C 1 and 3 only
  - D 2 only

11.20 A business commenced trading on 01 January 20X1. The following transactions with Supplier A have been recorded in the purchase ledger.

|     |                  |                   |       |
|-----|------------------|-------------------|-------|
|     | 01 January 20X1  | Opening balance   | \$nil |
| (1) | 01 January 20X1  | Purchase of goods | \$50  |
| (2) | 01 February 20X1 | Purchase of goods | \$435 |
| (3) | 30 March 20X1    | Payment           | \$385 |
|     | 31 March 20X1    | Closing balance   | \$100 |

On 31 March 20X1, the business receives the following statement from the supplier.

|     |                 |                 |       |
|-----|-----------------|-----------------|-------|
|     | Opening balance | \$nil           |       |
| (4) | 1 January 20X1  | Invoice #365    | \$50  |
| (5) | 1 February 20X1 | Invoice #490    | \$435 |
| (6) | 31 March 20X1   | Invoice #533    | \$35  |
|     |                 | Closing balance | \$520 |

Which transactions should be noted as reconciling items on the supplier statement reconciliation at 31 March 20X1?

- A 3 only
- B 6 only
- C 3 and 6 only
- D 1 to 6

## 12 Provisions and contingencies

31 mins

12.1 Which of the following statements about provisions and contingencies is/are correct?

- 1 A company should disclose details of the change in carrying amount of a provision from the beginning to the end of the year.
  - 2 Contingent assets must be recognised in the financial statements in accordance with the prudence concept.
  - 3 Contingent liabilities must be treated as actual liabilities and provided for if it is probable that they will arise.
- A 3 only
  - B 2 and 3 only
  - C 1 and 3 only
  - D All three statements are correct

(2 marks)

12.2 Which of the following statements about contingent assets and contingent liabilities are correct?

- 1 A contingent asset should be disclosed by note if an inflow of economic benefits is probable.
  - 2 A contingent liability should be disclosed by note if it is probable that a transfer of economic benefits to settle it will be required, with no provision being made.
  - 3 No disclosure is required for a contingent liability if it is not probable that a transfer of economic benefits to settle it will be required.
  - 4 No disclosure is required for either a contingent liability or a contingent asset if the likelihood of a payment or receipt is remote.
- A 1 and 4 only
  - B 2 and 3 only
  - C 2, 3 and 4
  - D 1, 2 and 4

(2 marks)

- 12.3 An ex-director of X company has commenced an action against the company claiming substantial damages for wrongful dismissal. The company's solicitors have advised that the ex-director is unlikely to succeed with his claim, although the chance of X paying any monies to the ex-director is not remote. The solicitors' estimates of the company's potential liabilities are:

|   | \$             |
|---|----------------|
| Legal costs (to be incurred whether the claim is successful or not) | 50,000         |
| Settlement of claim if successful                                   | 500,000        |
|   | <u>550,000</u> |

According to IAS 37 *Provisions, contingent liabilities and contingent assets*, how should this claim be treated in the financial statements?

- A Provision of \$550,000
  - B Disclose a contingent liability of \$550,000
  - C Disclose a provision of \$50,000 and a contingent liability of \$500,000
  - D Provision for \$500,000 and a contingent liability of \$50,000
- (2 marks)**

- 12.4 The following items have to be considered in finalising the financial statements of Q, a limited liability company:

- 1 The company gives warranties on its products. The company's statistics show that about 5% of sales give rise to a warranty claim.
- 2 The company has guaranteed the overdraft of another company. The likelihood of a liability arising under the guarantee is assessed as possible.

According to IAS 37 *Provisions, contingent liabilities and contingent assets*, what is the correct action to be taken in the financial statements for these items?

|   | <i>Create a provision</i> | <i>Disclose by note only</i> | <i>No action</i> |
|---|---------------------------|------------------------------|------------------|
| A | 1                         | 2                            |                  |
| B |                           | 1                            | 2                |
| C | 1, 2                      |                              |                  |
| D | 2                         | 1                            |                  |

**(2 marks)**

- 12.5 Which of the following statements about the requirements of IAS 37 *Provisions, contingent liabilities and contingent assets* are correct?

- 1 A contingent asset should be disclosed by note if an inflow of economic benefits is probable.
  - 2 No disclosure of a contingent liability is required if the possibility of a transfer of economic benefits arising is remote.
  - 3 Contingent assets must not be recognised in financial statements unless an inflow of economic benefits is virtually certain to arise.
- A All three statements are correct
  - B 1 and 2 only
  - C 1 and 3 only
  - D 2 and 3 only
- (2 marks)**

- 12.6 Wanda Co allows customers to return faulty goods within 14 days of purchase. At 30 November 20X5 a provision of \$6,548 was made for sales returns. At 30 November 20X6, the provision was re-calculated and should now be \$7,634.

What should be reported in Wanda Co's statement of profit or loss for the year to 31 October 20X6 in respect of the provision?

- A A charge of \$7,634
  - B A credit of \$7,634
  - C A charge of \$1,086
  - D A credit of \$1,086
- (2 marks)**

- 12.7 Doggard Co is a business that sells second hand cars. If a car develops a fault within 30 days of the sale, Doggard Co will repair it free of charge.

At 30 April 20X4 Doggard Co had made a provision for repairs of \$2,500. At 30 April 20X5 Doggard Co calculated that the provision should be \$2,000.

What entry should be made for the provision in Doggard Co's statement of profit or loss for the year to 30 April 20X5?

- A A charge of \$500
- B A credit of \$500
- C A charge of \$2,000
- D A credit of \$2,000

(2 marks)

- 12.8 Which of the following best describes a provision according to IAS 37 *Provisions, contingent liabilities and contingent assets*?

- A A provision is a liability of uncertain timing or amount.
- B A provision is a possible obligation of uncertain timing or amount.
- C A provision is a credit balance set up to offset a contingent asset so that the effect on the statement of financial position is nil.
- D A provision is a possible asset that arises from past events.

(2 marks)

- 12.9 Which of the following items does the statement below describe?

"A possible obligation that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the entity's control"

- A A provision
- B A current liability
- C A contingent liability
- D A contingent asset

- 12.10 Montague's paint shop has suffered some bad publicity as a result of a customer claiming to be suffering from skin rashes as a result of using a new brand of paint sold by Montague's shop. The customer launched a court action against Montague in November 20X3, claiming damages of \$5,000. Montague's lawyer has advised him that the most probable outcome is that he will have to pay the customer \$3,000.

What amount should Montague include as a provision in his financial statements for the year ended 31 December 20X3?

- A \$nil
- B \$5,000
- C \$3,000
- D \$8,000

(2 marks)

- 12.11 Mobiles Co sells goods with a one year warranty under which customers are covered for any defect that becomes apparent within a year of purchase. In calendar year 20X4, Mobiles Co sold 100,000 units.

The company expects warranty claims for 5% of units sold. Half of these claims will be for a major defect, with an average claim value of \$50. The other half of these claims will be for a minor defect, with an average claim value of \$10.

What amount should Mobiles Co include as a provision in the statement of financial position for the year ended 31 December 20X4?

- A \$125,000
- B \$ 25,000
- C \$300,000
- D \$150,000

(2 marks)

12.12 When a provision is needed that involves a number of outcomes, the provision is calculated using the expected value of expenditure. The expected value of expenditure is the total expenditure of:

- A Each possible outcome
- B Each possible outcome weighted according to the probability of each outcome happening
- C Each possible outcome divided by the number of outcomes
- D Each possible outcome multiplied by the number of outcomes

12.13 X Co sells goods with a one year warranty and had a provision for warranty claims of \$64,000 at 31 December 20X0. During the year ended 31 December 20X1, \$25,000 in claims were paid to customers. On 31 December 20X1, X Co estimated that the following claims will be paid in the following year:

| <i>Scenario</i> | <i>Probability</i> | <i>Anticipated cost</i> |
|-----------------|--------------------|-------------------------|
| Worst case      | 5%                 | \$150,000               |
| Best case       | 20%                | \$25,000                |
| Most likely     | 75%                | \$60,000                |

What amount should X Co record in the statement of profit or loss for the year ended 31 December 20X1 in respect of the provision?

- A \$57,500
- B \$6,500
- C \$18,500
- D \$39,000

(Total = 26 marks)

## 13 Capital structure and finance costs

31 mins

13.1 The issued share capital of Alpha, a limited liability company, is as follows:

|   | \$        |
|---|-----------|
| Ordinary shares of 10c each                 | 1,000,000 |
| 8% Redeemable preference shares of 50c each | 500,000   |

In the year ended 31 October 20X2, the company has paid the preference dividend for the year and an interim dividend of 2c per share on the ordinary shares. A final ordinary dividend of 3c per share was proposed, before the reporting date.

What would be recognised for dividends in the equity section of the statement of financial position at 31 October 20X2?

- A \$580,000
- B \$90,000
- C \$130,000
- D \$200,000

(2 marks)

13.2 When a company makes a rights issue of equity shares which of the following effects will the issue have?

- 1 Assets are increased
  - 2 Retained earnings are reduced
  - 3 Share premium account is reduced
  - 4 Investments are increased
- A 1 only
  - B 1 and 2
  - C 3 only
  - D 1 and 4

- 13.3 A company made an issue for cash of 1,000,000 50c shares at a premium of 30c per share.

Which one of the following journal entries correctly records the issue?

|                 | Debit     | Credit    |  |
|-----------------|-----------|-----------|--|
|                 | \$        | \$        |  |
| A Share capital | 500,000   |           |  |
| Share premium   | 300,000   |           |  |
| Bank            |           | 800,000   |  |
| B Bank          | 800,000   |           |  |
| Share capital   |           | 500,000   |  |
| Share premium   |           | 300,000   |  |
| C Bank          | 1,300,000 |           |  |
| Share capital   |           | 1,000,000 |  |
| Share premium   |           | 300,000   |  |
| D Share capital | 1,000,000 |           |  |
| Share premium   |           | 300,000   |  |
| Bank            |           | 1,300,000 |  |

**(2 marks)**

- 13.4 At 31 December 20X1 the capital structure of a company was as follows:

|                            | \$      |
|----------------------------|---------|
| Ordinary share capital     |         |
| 100,000 shares of 50c each | 50,000  |
| Share premium account      | 180,000 |

During 20X2 the company made a bonus issue of 1 share for every 2 held, using the share premium account for the purpose, and later issued for cash another 60,000 shares at 80c per share.

What is the company's capital structure at 31 December 20X2?

|           | Ordinary share capital | Share premium account |  |
|-----------|------------------------|-----------------------|--|
|           | \$                     | \$                    |  |
| A 130,000 |                        | 173,000               |  |
| B 105,000 |                        | 173,000               |  |
| C 130,000 |                        | 137,000               |  |
| D 105,000 |                        | 137,000               |  |

13.6 Which of the following statements about company financial statements is/are correct, according to International Financial Reporting Standards?

- 1 Dividends paid on ordinary shares should be included in the statement of profit or loss and other comprehensive income.
  - 2 Dividends paid on redeemable preference shares are treated in the same way as dividends paid on ordinary shares.
  - 3 The statement of profit or loss and other comprehensive income shows the gain on revaluation of non-current assets for the period.
- A 1, 2 and 3  
 B 2 and 3  
 C 3 only  
 D All three statements are correct

(2 marks)

13.7 At 30 June 20X2 a company's capital structure was as follows:

|                            | \$      |
|----------------------------|---------|
| Ordinary share capital     |         |
| 500,000 shares of 25c each | 125,000 |
| Share premium account      | 100,000 |

In the year ended 30 June 20X3 the company made a rights issue of 1 share for every 2 held at \$1 per share and this was taken up in full. Later in the year the company made a bonus issue of 1 share for every 5 held, using the share premium account for the purpose.

What was the company's capital structure at 30 June 20X3?

|   | <i>Ordinary share capital</i> | <i>Share premium account</i> |  |
|---|-------------------------------|------------------------------|--|
|   | \$                            | \$                           |  |
| A | 450,000                       | 25,000                       |  |
| B | 225,000                       | 250,000                      |  |
| C | 225,000                       | 325,000                      |  |
| D | 212,500                       | 262,500                      |  |

## Did you know? – Preparing a trial balance

Could you fill in the blanks? The answers are in bold. Use this page for revision purposes as you approach the exam.

- A **bank** reconciliation is a comparison of a **bank statement** (sent monthly, weekly or even daily by the bank) with the cash book. Differences between the balance on the bank statement and the balance in the cash book will be errors or **timing** differences, and they should be identified and satisfactorily explained.
- Differences between the cash book and the bank statement arise for three reasons:
  - **Errors** – usually in the cash book
  - Omissions – such as **bank charges** not posted in the cash book
  - **Timing** differences – such as unpresented cheques
- There are five main types of error: errors of **transposition**, **omission**, **principle**, **commission** and **compensating** errors.
- A suspense account is an account showing a balance equal to the difference in a **trial balance**.
- Suspense accounts are only **temporary**. None should exist when it comes to drawing up the financial statements at the end of the accounting period.
- The two most important control accounts are those for **receivables** and **payables**. They are part of the double entry system.
- Cash books and day books are totalled periodically and the totals posted to the **control** accounts. The balance totals on the **personal** accounts should agree to the balance on the **control** account.
- Discounts can be defined as follows:
  - A **trade** discount is a reduction in the list price of an article, given by a wholesaler or manufacturer to a retailer.
  - A **cash (settlement)** discount is a reduction in the amount payable for the purchase of goods or services in return for payment in cash, or within an agreed period.
- **Trade** discounts received are **deducted** from the cost of purchases. **Cash** discounts received are included as **other income** of the period in the statement of profit or loss.
- **Trade** discounts allowed are **deducted** from sales and **cash** discounts allowed are shown as **expenses** of the period.

|   | <b>(15 marks)</b> |

**15 Control accounts****48 mins**

- 15.1 You are given the following information:

|  |          |
|--|----------|
| Receivables at 1 January 20X3                                | \$10,000 |
| Receivables at 31 December 20X3                              | \$9,000  |
| Total receipts during 20X3 (including cash sales of \$5,000) | \$85,000 |

What is the figure for sales on credit during 20X3?

- A \$81,000
- B \$86,000
- C \$79,000
- D \$84,000

**(2 marks)**

- 15.2 A supplier sends you a statement showing a balance outstanding of \$14,350. Your own records show a balance outstanding of \$14,500.

Which one of the following could be the reason for this difference?

- A The supplier sent an invoice for \$150 which you have not yet received.
- B The supplier has allowed you \$150 cash discount which you had omitted to enter in your ledgers.
- C You have paid the supplier \$150 which he has not yet accounted for.
- D You have returned goods worth \$150 which the supplier has not yet accounted for.

**(2 marks)**

- 15.3 Your payables control account has a balance at 1 October 20X8 of \$34,500 credit. During October, credit purchases were \$78,400, cash purchases were \$2,400 and payments made to suppliers, excluding cash purchases, and after deducting settlement discounts of \$1,200, were \$68,900. Purchase returns were \$4,700.

What was the closing balance?

- A \$38,100
- B \$40,500
- C \$47,500
- D \$49,900

**(2 marks)**

- 15.4 A receivables ledger control account had a closing balance of \$8,500. It contained a contra to the payables ledger of \$400, but this had been entered on the wrong side of the control account.

What should be the correct balance on the control account?

- A \$7,700 debit
- B \$8,100 debit
- C \$8,400 debit
- D \$8,900 debit

**(2 marks)**

- 15.5 Which of the following items could appear on the credit side of a receivables ledger control account?

- 1 Cash received from customers
  - 2 Irrecoverable debts written off
  - 3 Increase in allowance for receivables
  - 4 Discounts allowed
  - 5 Sales
  - 6 Credits for goods returned by customers
  - 7 Cash refunds to customers
- A 1, 2, 4 and 6
  - B 1, 2, 4 and 7
  - C 3, 4, 5 and 6
  - D 5 and 7

**(2 marks)**

15.6 An inexperienced bookkeeper has drawn up the following receivables ledger control account:

**RECEIVABLES LEDGER CONTROL ACCOUNT**

|                                  | \$             |                                    | \$             |
|----------------------------------|----------------|------------------------------------|----------------|
| Opening balance                  | 180,000        | Credit sales                       | 190,000        |
| Cash from credit customers       | 228,000        | Irrecoverable debts written off    | 1,500          |
| Sales returns                    | 8,000          | Contras against payables           | 2,400          |
| Cash refunds to credit customers | 3,300          | Closing balance (balancing figure) | 229,600        |
| Discount allowed                 | 4,200          |                                    |                |
|                                  | <u>423,500</u> |                                    | <u>423,500</u> |

What should the closing balance be after correcting the errors made in preparing the account?

- A \$130,600
- B \$129,200
- C \$142,400
- D \$214,600

**(2 marks)**

15.7 The payables ledger control account below contains a number of errors:

**PAYABLES LEDGER CONTROL ACCOUNT**

|   | \$                 |  | \$                 |
|---|--------------------|--|--------------------|
| Opening balance (amounts owed to suppliers) | 318,600            | Purchases  | 1,268,600          |
| Cash paid to suppliers                      | 1,364,300          | Contras against debit balances in receivables ledger | 48,000             |
| Purchases returns                           | 41,200             | Discounts received                                   | 8,200              |
| Refunds received from suppliers             | 2,700              | Closing balance                                      | 402,000            |
|   | <u>\$1,726,800</u> |  | <u>\$1,726,800</u> |

All items relate to credit purchases.

What should the closing balance be when all the errors are corrected?

- A \$128,200
- B \$509,000
- C \$224,200
- D \$144,600

**(2 marks)**

15.8 The following control account has been prepared by a trainee accountant:

**RECEIVABLES LEDGER CONTROL ACCOUNT**

|  | \$             |                                       | \$             |
|--|----------------|---------------------------------------|----------------|
| Opening balance                                    | 308,600        | Cash received from credit customers   | 147,200        |
| Credit sales                                       | 154,200        | Discounts allowed to credit customers |                |
| Cash sales   | 88,100         | Interest charged on overdue accounts  | 2,400          |
| Contras against credit balances in payables ledger | 4,600          | Irrecoverable debts written off       | 4,900          |
|  | <u>555,500</u> | Allowance for receivables             | 2,800          |
|  |                | Closing balance                       | 396,800        |
|  |                |                                       | <u>555,500</u> |

What should the closing balance be when all the errors made in preparing the receivables ledger control account have been corrected?

- A \$395,200
- B \$304,300
- C \$307,100
- D \$309,500

**(2 marks)**

- 15.9 The following receivables ledger control account prepared by a trainee accountant contains a number of errors:

RECEIVABLES LEDGER CONTROL ACCOUNT

|   | \$             |   | \$             |
|---|----------------|---|----------------|
| 20X4  |                | 20X4                                    |                |
| 1 Jan Balance   | 614,000        | 31 Dec Credit sales                     | 301,000        |
| 31 Jan Cash from credit customers                                 | 311,000        | Discounts allowed                       | 3,400          |
| Contras against amounts<br>due to suppliers in<br>payables ledger | 8,650          | Irrecoverable debts<br>written off      | 32,000         |
|   |                | Interest charged on overdue<br>accounts | 1,600          |
|   |                | Balance                                 | 595,650        |
|   | <u>933,650</u> |   | <u>933,650</u> |

What should the closing balance on the control account be after the errors in it have been corrected?

- A \$561,550
- B \$578,850
- C \$581,550
- D \$568,350

(2 marks)

- 15.10 Your organisation sold goods to PQ Co for \$800 less trade discount of 20% and cash discount of 5% for payment within 14 days. The invoice was settled by cheque five days later. Which one of the following gives the entries required to record BOTH of these transactions?

|                   | DEBIT | CREDIT |
|-------------------|-------|--------|
|                   | \$    | \$     |
| A PQ Co           | 640   |        |
| Sales             |       | 640    |
| Bank              | 608   |        |
| Discount allowed  | 32    |        |
| PQ Co             |       | 640    |

(2 marks)

- 15.11 Which one of the following is **not** a purpose of a receivables ledger control account?

- A A receivables ledger control account provides a check on the overall accuracy of the personal ledger accounts.
- B A receivables ledger control account ensures the trial balance balances.
- C A receivables ledger control account aims to ensure there are no errors in the personal ledger.
- D Control accounts help deter fraud.

(2 marks)

15.12 Which of the following lists is composed only of items which would appear on the credit side of the receivables control account?

- A Cash received from customers, sales returns, irrecoverable debts written off, contras against amounts due to suppliers in the accounts payable ledger
  - B Sales, cash refunds to customers, irrecoverable debts written off, discounts allowed
  - C Cash received from customers, discounts allowed, interest charged on overdue accounts, irrecoverable debts written off
  - D Sales, cash refunds to customers, interest charged on overdue accounts, contras against amounts due to suppliers in the accounts payable ledger
- (2 marks)**

15.13 The following receivables ledger control account has been prepared by a trainee accountant:

RECEIVABLES LEDGER CONTROL ACCOUNT

|                                       | \$             |                                      | \$             |
|---------------------------------------|----------------|--------------------------------------|----------------|
| 20X5                                  |                | 20X5                                 |                |
| 1 Jan Balance                         | 318,650        | 31 Jan Cash from credit customers    | 181,140        |
| Credit sales                          | 161,770        | Interest charged on overdue accounts | 280            |
| Cash sales                            | 84,260         | Irrecoverable debts written off      | 1,390          |
| Discounts allowed to credit customers | 1,240          | Sales returns from credit customers  | 3,990          |
|                                       | <u>565,920</u> | Balance                              | <u>379,120</u> |
|                                       | <u>565,920</u> |                                      | <u>565,920</u> |

What should the closing balance at 31 January 20X5 be after correcting the errors in the account?

- A \$292,380
- B \$295,420
- C \$292,940
- D \$377,200

**(2 marks)**

15.14 At 1 April 20X9, the payables ledger control account showed a balance of \$142,320.

At the end of April the following totals are extracted from the subsidiary books for April:

|   | \$      |
|---|---------|
| Purchases day book  | 183,800 |
| Returns outwards day book                                   | 27,490  |
| Returns inwards day book                                    | 13,240  |
| Payments to payables, after deducting \$1,430 cash discount | 196,360 |

It is also discovered that:

- (a) The purchase day book figure is net of sales tax at 17.5%; the other figures all include sales tax.
- (b) A customer's balance of \$2,420 has been offset against his balance of \$3,650 in the payables ledger.
- (c) A supplier's account in the payables ledger, with a debit balance of \$800, has been included on the list of payables as a credit balance.

What is the corrected balance on the payables ledger control account?

- A \$130,585
- B \$144,835
- C \$98,429
- D \$128,985

**(2 marks)**

**The following scenario relates to questions 15.15 to 15.17.**

P & Co maintain a receivables ledger control account within the nominal ledger. At 30 November 20X0, the total of the list of individual balances extracted from the receivables ledger was \$15,800, which did not agree with the balance on the receivables ledger control account. An examination of the books revealed the following information, which can be used to reconcile the receivables ledger and the receivables ledger control account.

- 1 The credit balance of \$420 in Ahmed's payables ledger account had been set off against his account in the receivables ledger, but no entries had been made in the receivables and payables ledger control accounts.
- 2 The personal account of Mahmood was undercast by \$90.
- 3 Yasmin's balance of (debit) \$780 had been omitted from the list of balances.
- 4 Thomas' personal account balance of \$240 had been removed from the receivables ledger as a bad debt, but no entry had been made in the receivables ledger control account.
- 5 The January total of \$8,900 in the sales daybook had been posted as \$9,800.
- 6 A credit note to Charles for \$1,000, plus sales tax of \$300, had been posted to the receivables ledger control account as \$1,300 and to Charles' personal account as \$1,000.
- 7 The total on the credit side of Edward's personal account had been overcast by \$125.

**15.15 Which of these items need to be corrected by journal entries in the nominal ledger?**

- A 1, 3, 4 and 5 only
- B 1, 4 and 5 only
- C 1, 2, 5 and 6 only
- D 2, 3, 6 and 7 only

**(2 marks)**

**15.16 What is the revised total of the balances in the receivables ledger after the errors have been corrected?**

- A \$15,105
- B \$16,195
- C \$16,495
- D \$16,915

**(2 marks)**

**15.17 Assuming that the closing balance on the receivables ledger control account should be \$16,000, what is the opening balance on the receivables ledger control account before the errors were corrected?**

- A \$14,440
- B \$15,760
- C \$17,560
- D \$17,860

**(2 marks)**

**15.18 The balance on Jude Co's payables ledger control account is \$31,554. The accountant at Jude Co has discovered that she has not recorded:**

A settlement discount of \$53 received from a supplier; and  
A supplier's invoice for \$622.

**What amount should be reported for payables on Jude Co's statement of financial position?**

- A \$30,879
- B \$30,985
- C \$32,123
- D \$32,229

**(2 marks)**

15.19 The accountant at Borris Co has prepared the following reconciliation between the balance on the trade payables ledger control account in the general ledger and the list of balances from the suppliers ledger:

|   | \$            |
|---|---------------|
| Balance on general ledger control account                         | 68,566        |
| Credit balance omitted from list of balances from payables ledger | <u>(127)</u>  |
|   | 68,439        |
| Undercasting of purchases day book                                | 99            |
| Total of list of balances   | <u>68,538</u> |

What balance should be reported on Borris Co's statement of financial position for trade payables?

- A \$68,439
- B \$68,538
- C \$68,566
- D \$68,665

(2 marks)

15.20 How should the balance on the payables ledger control account be reported in the final financial statements?

- A As an expense account
- B As a non-current liability
- C As a current asset
- D As a current liability

(2 marks)

(Total = 40 marks)

## 16 Bank reconciliations

36 mins

16.1 Your cash book at 31 December 20X3 shows a bank balance of \$565 overdrawn. On comparing this with your bank statement at the same date, you discover the following.

- 1 A cheque for \$57 drawn by you on 29 December 20X3 has not yet been presented for payment.
- 2 A cheque for \$92 from a customer, which was paid into the bank on 24 December 20X3, has been dishonoured on 31 December 20X3.

What is the correct bank balance to be shown in the statement of financial position at 31 December 20X3?

- A \$714 overdrawn
- B \$657 overdrawn
- C \$473 overdrawn
- D \$53 overdrawn

(2 marks)

16.2 The cash book shows a bank balance of \$5,675 overdrawn at 31 August 20X5. It is subsequently discovered that a standing order for \$125 has been entered twice, and that a dishonoured cheque for \$450 has been debited in the cash book instead of credited.

What is the correct bank balance?

- A \$5,100 overdrawn
- B \$6,000 overdrawn
- C \$6,250 overdrawn
- D \$6,450 overdrawn

(2 marks)

- 16.3 A business had a balance at the bank of \$2,500 at the start of the month. During the following month, it paid for materials invoiced at \$1,000 less trade discount of 20% and cash discount of 10%. It received a cheque from a customer in respect of an invoice for \$200, subject to cash discount of 5%.

What was the balance at the bank at the end of the month?

- A \$1,970
- B \$1,980
- C \$1,990
- D \$2,000

(2 marks)

- 
- 16.4 The bank statement on 31 October 20X7 showed an overdraft of \$800. On reconciling the bank statement, it was discovered that a cheque drawn by your company for \$80 had not been presented for payment, and that a cheque for \$130 from a customer had been dishonoured on 30 October 20X7, but that this had not yet been notified to you by the bank.

What is the correct bank balance to be shown in the statement of financial position at 31 October 20X7?

- A \$1,010 overdrawn
- B \$880 overdrawn
- C \$750 overdrawn
- D \$720 overdrawn

(2 marks)

- 
- 16.5 The following information relates to a bank reconciliation.

- (i) The bank balance in the cashbook before taking the items below into account was \$8,970 overdrawn.
- (ii) Bank charges of \$550 on the bank statement have not been entered in the cashbook.
- (iii) The bank has credited the account in error with \$425 which belongs to another customer.
- (iv) Cheque payments totalling \$3,275 have been entered in the cashbook but have not been presented for payment.
- (v) Cheques totalling \$5,380 have been correctly entered on the debit side of the cashbook but have not been paid in at the bank.

What was the balance as shown by the bank statement *before* taking the above items into account?

- A \$9,520 overdrawn
- B \$11,200 overdrawn
- C \$9,520 in credit
- D \$11,200 in credit

(2 marks)

- 
- 16.6 The following bank reconciliation statement has been prepared by a trainee accountant:

BANK RECONCILIATION 30 SEPTEMBER 20X2

|  | \$            |
|--|---------------|
| Balance per bank statement (overdrawn) | 36,840        |
| Add: lodgements credited after date    | <u>51,240</u> |
|  | 88,080        |
| Less: unpresented cheques              | 43,620        |
| Balance per cash book (credit)         | <u>44,460</u> |

Assuming the amounts stated for items other than the cash book balance are correct, what should the cash book balance be?

- A \$44,460 credit as stated
- B \$60,020 credit
- C \$29,220 debit
- D \$29,220 credit

(2 marks)

- 16.7 Listed below are some possible causes of difference between the cash book balance and the bank statement balance when preparing a bank reconciliation:

- 1 Cheque paid in, subsequently dishonoured
- 2 Error by bank
- 3 Bank charges
- 4 Lodgements credited after date
- 5 Unpresented cheques not yet presented

Which of these items require an entry in the cash book?

- A 1 and 3 only
- B 1, 2, 3, 4 and 5
- C 2, 4, and 5 only
- D 4 and 5 only

**(2 marks)**

- 16.8 In preparing a company's bank reconciliation statement at March 20X3, the following items are causing the difference between the cash book balance and the bank statement balance:

- 1 Bank charges \$380
- 2 Error by bank \$1,000 (cheque incorrectly debited to the account)
- 3 Lodgements not credited \$4,580
- 4 Unpresented cheques \$1,475
- 5 Direct debit \$350
- 6 Cheque paid in by the company and dishonoured \$400

Which of these items will require an entry in the cash book?

- A 2, 4 and 6
- B 1, 5 and 6
- C 3 and 4
- D 3 and 5

**(2 marks)**

- 16.9 The following bank reconciliation statement has been prepared by a trainee accountant:

|                                   | \$            |
|-----------------------------------|---------------|
| Overdraft per bank statement      | 3,860         |
| Less: unpresented cheques         | 9,160         |
|                                   | <u>5,300</u>  |
| Add: deposits credited after date | 16,690        |
| Cash at bank as calculated above  | <u>21,990</u> |

What should be the correct balance per the cash book?

- A \$21,990 balance at bank as stated
- B \$3,670 balance at bank
- C \$11,390 balance at bank
- D \$3,670 overdrawn

**(2 marks)**

- 16.10 Which of the following statements about bank reconciliations are correct?

- 1 A difference between the cash book and the bank statement must be corrected by means of a journal entry.
  - 2 In preparing a bank reconciliation, lodgements recorded before date in the cash book but credited by the bank after date should reduce an overdrawn balance in the bank statement.
  - 3 Bank charges not yet entered in the cash book should be dealt with by an adjustment in the bank reconciliation statement.
  - 4 If a cheque received from a customer is dishonoured after date, a credit entry in the cash book is required.
- A 2 and 4
  - B 1 and 4
  - C 2 and 3
  - D 1 and 3

**(2 marks)**

16.11 The following information relates to a bank reconciliation.

- (i) The bank balance in the cashbook before taking the items below into account was \$8,970 overdrawn.
- (ii) Bank charges of \$550 on the bank statement have not been entered in the cashbook.
- (iii) The bank has credited the account in error with \$425 which belongs to another customer.
- (iv) Cheque payments totalling \$3,275 have been entered in the cashbook but have not been presented for payment.
- (v) Cheques totalling \$5,380 have been correctly entered on the debit side of the cashbook but have not been paid in at the bank.

What was the balance as shown by the bank statement *before* taking the items above into account?

- A \$8,970 overdrawn
- B \$11,200 overdrawn
- C \$12,050 overdrawn
- D \$17,750 overdrawn

(2 marks)

16.12 The following attempt at a bank reconciliation statement has been prepared by Q Co:

|                              | \$            |
|------------------------------|---------------|
| Overdraft per bank statement | 38,600        |
| Add: deposits not credited   | <u>41,200</u> |
|                              | 79,800        |
| Less: unpresented cheques    | 3,300         |
| Overdraft per cash book      | <u>76,500</u> |

Assuming the bank statement balance of \$38,600 to be correct, what *should* the cash book balance be?

- A \$76,500 overdrawn, as stated
- B \$5,900 overdrawn
- C \$700 overdrawn
- D \$5,900 cash at bank

(2 marks)

16.13 After checking a business cash book against the bank statement, which of the following items could require an entry in the cash book?

- 1 Bank charges
  - 2 A cheque from a customer which was dishonoured
  - 3 Cheque not presented
  - 4 Deposits not credited
  - 5 Credit transfer entered in bank statement
  - 6 Standing order entered in bank statement.
- A 1, 2, 5 and 6
  - B 3 and 4
  - C 1, 3, 4 and 6
  - D 3, 4, 5 and 6

(2 marks)

16.14 The following bank reconciliation statement has been prepared for a company:

|  |               |
|--|---------------|
|  | \$            |
| Overdraft per bank statement                   | 39,800        |
| Add: Deposits credited after date              | <u>64,100</u> |
|  | 103,900       |
| Less: Unpresented cheques presented after date | 44,200        |
| Overdraft per cash book                        | <u>59,700</u> |

Assuming the amount of the overdraft per the bank statement of \$39,800 is correct, what should be the balance in the cash book?

- A \$158,100 overdrawn
- B \$19,900 overdrawn
- C \$68,500 overdrawn
- D \$59,700 overdrawn

(2 marks)

16.15 Listed below are five potential causes of difference between a company's cash book balance and its bank statement balance as at 30 November 20X3:

- 1 Cheques recorded and sent to suppliers before 30 November 20X3 but not yet presented for payment
- 2 An error by the bank in crediting to another customer's account a lodgement made by the company
- 3 Bank charges
- 4 Cheques paid in before 30 November 20X3 but not credited by the bank until 3 December 20X3
- 5 A cheque recorded and paid in before 30 November 20X3 but dishonoured by the bank

Which one of the following alternatives correctly analyses these items into those requiring an entry in the cash book and those that would feature in the bank reconciliation?

|   | <i>Cash book entry</i> | <i>Bank reconciliation</i> |           |
|---|------------------------|----------------------------|-----------|
| A | 1, 2, 4                | 3, 5                       |           |
| B | 3, 5                   | 1, 2, 4                    |           |
| C | 3, 4                   | 1, 2, 5                    |           |

(Total = 30 marks)

## 17 Correction of errors

41 mins

17.1 The debit side of a trial balance totals \$800 more than the credit side.

Which one of the following errors would fully account for the difference?

- A \$400 paid for plant maintenance has been correctly entered in the cash book and credited to the plant asset account.
- B Discount received \$400 has been debited to discount allowed account.
- C A receipt of \$800 for commission receivable has been omitted from the records.
- D The petty cash balance of \$800 has been omitted from the trial balance.

(2 marks)

- 17.2 The bookkeeper of Peri made the following mistakes:

Discount allowed \$3,840 was credited to discounts received account.

Discount received \$2,960 was debited to discounts allowed account.

Discounts were otherwise correctly recorded.

Which one of the following journal entries will correct the errors?

|                         | Dr<br>\$ | Cr<br>\$ |
|-------------------------|----------|----------|
| A      Discount allowed | 7,680    |          |
| Discount received       |          | 5,920    |
| Suspense account        |          | 1,760    |
| B      Discount allowed | 880      |          |
| Discount received       | 880      |          |
| Suspense account        |          | 1,760    |
| C      Discount allowed | 6,800    |          |
| Discount received       |          | 6,800    |
| D      Suspense account | 1,760    |          |
| Discount allowed        |          | 880      |
| Discount received       |          | 880      |

(2 marks)

- 17.3 A company's trial balance failed to agree, the totals being:

|        |           |
|--------|-----------|
| Debit  | \$815,602 |
| Credit | \$808,420 |

Which one of the following errors could fully account for the difference?

- A      The omission from the trial balance of the balance on the insurance expense account \$7,182 debit
- B      Discount allowed \$3,591 debited in error to the discount received account
- C      No entries made in the records for cash sales totalling \$7,182
- D      The returns outwards total of \$3,591 was included in the trial balance as a debit balance

(2 marks)

- 17.4 The debit side of a trial balance totals \$50 more than the credit side. Which one of the following could this be due to?

- A      A purchase of goods for \$50 being omitted from the payables control account
- B      A sale of goods for \$50 being omitted from the receivables control account
- C      An invoice of \$25 for electricity being credited to the electricity account
- D      A receipt for \$50 from a customer being omitted from the cash book

(2 marks)

- 17.5 Which one of the following would be an error of principle?

- A      Plant and machinery purchased was credited to a non-current assets account.
- B      Plant and machinery purchased was debited to the purchases account.
- C      Plant and machinery purchased was debited to the equipment account.
- D      Plant and machinery purchased was credited to the equipment account.

(2 marks)

## 17.6 What is an error of commission?

- A An error where a transaction has not been recorded
  - B An error where one side of a transaction has been recorded in the wrong account, and that account is of a different class to the correct account
  - C An error where one side of a transaction has been recorded in the wrong account, and that account is of the same class as the correct account
  - D An error where the numbers in the posting have been transposed
- (2 marks)**
- 

## 17.7 Where a transaction is entered into the correct ledger accounts, but the wrong amount is used, what is the error known as?

- A An error of omission
  - B An error of original entry
  - C An error of commission
  - D An error of principle
- (2 marks)**
- 

## 17.8 A business statement of profit or loss and other comprehensive income for the year ended 31 December 20X4 showed a net profit of \$83,600. It was later found that \$18,000 paid for the purchase of a motor van had been debited to motor expenses account. It is the company's policy to depreciate motor vans at 25 per cent per year, with a full year's charge in the year of acquisition.

What would the net profit be after adjusting for this error?

- A \$106,100
  - B \$70,100
  - C \$97,100
  - D \$101,600
- (2 marks)**
- 

## 17.9 An organisation restores its petty cash balance to \$250 at the end of each month. During October, the total expenditure column in the petty cash book was calculated as being \$210, and the imprest was restored by this amount. The analysis columns posted to the nominal ledger totalled only \$200.

Which one of the following would this error cause?

- A The trial balance being \$10 higher on the debit side
  - B The trial balance being \$10 higher on the credit side
  - C No imbalance in the trial balance
  - D The petty cash balance being \$10 lower than it should be
- (2 marks)**
- 

## 17.10 Net profit was calculated as being \$10,200. It was later discovered that capital expenditure of \$3,000 had been treated as revenue expenditure, and revenue receipts of \$1,400 had been treated as capital receipts.

What is the net profit after correcting this error?

- A \$5,800
  - B \$8,600
  - C \$11,800
  - D \$14,600
- (2 marks)**
-

17.11 The accountant at Investotech discovered the following errors after calculating the company's profit for 20X3:

- (a) A non-current asset costing \$50,000 has been included in the purchases account
- (b) Stationery costing \$10,000 has been included as closing inventory of raw materials, instead of stationery expenses

What is the effect of these errors on gross profit and net profit?

- A Understatement of gross profit by \$40,000 and understatement of net profit by \$30,000
  - B Understatement of both gross profit and net profit by \$40,000
  - C Understatement of gross profit by \$60,000 and understatement of net profit by \$50,000
  - D Overstatement of both gross profit and net profit by \$60,000
- (2 marks)**

17.12 A purchase return of \$48 has been wrongly posted to the debit of the sales returns account, but has been correctly entered in the supplier's account.

Which of the following statements about the trial balance would be correct?

- A The credit side to be \$48 more than the debit side
  - B The debit side to be \$48 more than the credit side
  - C The credit side to be \$96 more than the debit side
  - D The debit side to be \$96 more than the credit side
- (2 marks)**

17.13 Two types of common errors in bookkeeping are errors of *principle* and errors of *transposition*.

Which of the following correctly states whether or not these errors will be revealed by extracting a trial balance?

|   | <i>Errors of principle</i> | <i>Errors of transposition</i> |
|---|----------------------------|--------------------------------|
| A | Will be revealed           | Will not be revealed           |
| B | Will be revealed           | Will be revealed               |
| C | Will not be revealed       | Will not be revealed           |
| D | Will not be revealed       | Will be revealed               |

**(2 marks)**

17.14 The following are balances on the accounts of Luigi, a sole trader, as at the end of the current financial year and after all entries have been processed and the profit for the year has been calculated.

|  | \$     |
|--|--------|
| Non-current assets                             | 85,000 |
| Receivables                                    | 7,000  |
| Trade payables                                 | 3,000  |
| Bank loan                                      | 15,000 |
| Allowance for depreciation, non-current assets | 15,000 |
| Inventory                                      | 4,000  |
| Accruals                                       | 1,000  |
| Prepayments                                    | 2,000  |
| Bank overdraft                                 | 2,000  |

What is the balance on Luigi's capital account?

- A \$59,000
  - B \$66,000
  - C \$62,000
  - D \$64,000
- (2 marks)**

17.15 The following balances have been extracted from the nominal ledger accounts of Tanya, but the figure for bank loan is unknown. There are no other accounts in the main ledger.

|                    | \$      |
|--------------------|---------|
| Payables           | 27,000  |
| Capital            | 66,000  |
| Purchases          | 160,000 |
| Sales              | 300,000 |
| Other expenses     | 110,000 |
| Receivables        | 33,000  |
| Purchase returns   | 2,000   |
| Non-current assets | 120,000 |
| Cash in bank       | 18,000  |
| Bank loan          | Unknown |

What is the credit balance on the bank loan account?

- A \$46,000
- B \$102,000
- C \$78,000
- D \$34,000

(2 marks)

17.16 Beta Co has total assets of \$650,000 and profit for the year of \$150,000 recorded in the financial statements for the year ended 31 December 20X3. Inventory costing \$50,000, with a resale value of \$75,000, was received into the warehouse on 2 January 20X4 and included in the inventory value that was recorded in the financial statements at 31 December 20X3.

What would the total assets figure in the Statement of Financial Position, and the adjusted profit for the year figure, be after adjusting for this error?

|   | <i>Total assets (SOPF)</i> | <i>Profit for year</i> |
|---|----------------------------|------------------------|
| A | \$700,000                  | \$200,000              |
| B | \$600,000                  | \$100,000              |
| C | \$725,000                  | \$225,000              |
| D | \$600,000                  | \$75,000               |

(2 marks)

17.17 The electricity account for Jingles Co for the year ended 30 June 20X1 was as follows.

|  | \$  |
|--|-----|
| Opening balance for electricity accrued at 1 July 20X0 | 300 |
| <i>Payments made during the year</i>                   |     |
| 1 August 20X0 for three months to 31 July 20X0         | 600 |
| 1 November 20X0 for three months to 31 October 20X0    | 720 |
| 1 February 20X1 for three months to 31 January 20X1    | 900 |
| 30 June 20X1 for three months to 30 April 20X1         | 840 |

Jingles Co expects the next bill due in September to be for the same amount as the bill received in June.

What are the appropriate amounts for electricity to be included in the financial statements of Jingles Co for the year ended 30 June 20X1?

|   | <i>Statement of financial position</i> | <i>Statement of profit or loss</i> |
|---|--|------------------------------------|
| A | \$560                                  | \$3,320                            |
| B | \$560                                  | \$3,060                            |
| C | \$860                                  | \$3,320                            |
| D | \$860                                  | \$3,060                            |

**18 Suspense accounts****24 mins**

**The following information is relevant for question 18.1 and 18.2.**

When Q's trial balance failed to agree, a suspense account was opened for the difference. The trial balance totals were:

|        |           |
|--------|-----------|
| Debit  | \$864,390 |
| Credit | \$860,930 |

The company does not have control accounts for its receivables and payables ledgers.

The following errors were found:

- 1 In recording an issue of shares at par, cash received of \$333,000 was credited to the ordinary share capital account as \$330,000.
- 2 Cash \$2,800 paid for plant repairs was correctly accounted for in the cash book but was credited to the plant asset account.
- 3 The petty cash book balance \$500 had been omitted from the trial balance.
- 4 A cheque for \$78,400 paid for the purchase of a motor car was debited to the motor vehicles account as \$87,400.
- 5 A contra between the receivables ledger and the payables ledger for \$1,200 which should have been credited in the receivables ledger and debited in the payables ledger was actually debited in the receivables ledger and credited in the payables ledger.

**18.1 Which of these errors will require an entry to the suspense account to correct them?**

- A All five items
- B 3 and 5 only
- C 2, 4 and 5 only
- D 1, 2, 3 and 4 only

**(2 marks)**

**18.2 What will the balance on the suspense account be after making the necessary entries to correct the errors affecting the suspense account?**

- A \$2,440 Debit
- B \$15,560 Credit
- C \$13,640 Debit
- D \$3,440 Debit

**(2 marks)**

**18.3 A company's trial balance totals were:**

|        |           |
|--------|-----------|
| Debit  | \$387,642 |
| Credit | \$379,511 |

A suspense account was opened for the difference.

Which one of the following errors would have the effect of reducing the difference when corrected?

- A The petty cash balance of \$500 has been omitted from the trial balance.
- B \$4,000 received for rent of part of the office has been correctly recorded in the cash book and debited to rent account.
- C \$3,000 paid for repairs to plant has been debited to the plant asset account.
- D An invoice for Mr A Smith for \$400 has been posted to the account of Mrs B Smith in error.

**(2 marks)**

- 18.4 A trial balance extracted from a sole trader's records failed to agree, and a suspense account was opened for the difference.

Which of the following errors would require an entry in the suspense account in correcting them?

- 1 Discount allowed was mistakenly debited to discount received account.
  - 2 Cash received from the sale of a non-current asset was correctly entered in the cash book but was debited to the disposal account.
  - 3 The balance on the rent account was omitted from the trial balance.
  - 4 Goods taken from inventory by the proprietor had been recorded by crediting drawings account and debiting purchases account.
- A All four items  
 B 2 and 3 only  
 C 2 and 4 only  
 D 1 and 3 only

(2 marks)

- 18.5 A suspense account was opened when a trial balance failed to agree. The following errors were later discovered.

- A gas bill of \$420 had been recorded in the gas account as \$240.
- A discount of \$50 given to a customer had been credited to discounts received.
- Interest received of \$70 had been entered in the bank account only.

What was the original balance on the suspense account?

- A Debit \$210  
 B Credit \$210  
 C Debit \$160  
 D Credit \$160

(2 marks)

- 18.6 A company's trial balance failed to agree, the out of balance difference of \$25,000 being posted to a suspense account.

Subsequent investigation revealed the difference was due to one side of an entry to record the purchase of machinery for \$25,000, by cheque, failing to post to the plant and machinery account.

Which of the following journal entries would correct the error?

|   |   | <i>Debit</i><br>\$ | <i>Credit</i><br>\$ |
|---|---|--------------------|---------------------|
| A | Plant and machinery<br>Bank current account | 25,000             | 25,000              |
| B | Suspense account<br>Plant and machinery     | 25,000             | 25,000              |
| C | Plant and machinery<br>Suspense account     | 25,000             | 25,000              |
| D | Bank current account<br>Suspense account    | 25,000             | 25,000              |

(2 marks)

- 18.7 The trial balance of Z failed to agree, the totals being: debit \$836,200 credit \$819,700

A suspense account was opened for the amount of the difference and the following errors were found and corrected:

- 1 The totals of the cash discount columns in the cash book had not been posted to the discount accounts. The figures were discount allowed \$3,900 and discount received \$5,100.
- 2 A cheque for \$19,000 received from a customer was correctly entered in the cash book but was posted to the control account as \$9,100.

What will be the remaining balance on the suspense be **after** the correction of these errors?

- A \$25,300 credit
- B \$7,700 credit
- C \$27,700 debit
- D \$5,400 credit

**(2 marks)**

- 
- 18.8 The trial balance of C, a limited liability company, did not agree, and a suspense account was opened for the difference. Checking in the bookkeeping system revealed a number of errors.

- 1 \$4,600 paid for motor van repairs was correctly treated in the cash book but was credited to motor vehicles asset account.
- 2 \$360 received from B, a customer, was credited in error to the account of BB.
- 3 \$9,500 paid for rent was debited to the rent account as \$5,900.
- 4 The total of the discount allowed column in the cash book had been debited in error to the discounts received account.
- 5 No entries have been made to record a cash sale of \$100.

Which of the errors above would require an entry to the suspense account as part of the process of correcting them?

- A 3 and 4
- B 1 and 3
- C 2 and 5
- D 2 and 3

**(2 marks)**

- 
- 18.9 The suspense account shows a debit balance of \$100. What could this balance be due to?

- A Entering \$50 received from A Turner on the debit side of A Turner's account
- B Entering \$50 received from A Turner on the credit side of A Turner's account
- C Undercasting the sales day book by \$100
- D Undercasting the purchases account by \$100

**(2 marks)**

- 
- 18.10 A suspense account shows a credit balance of \$130. Which of the following could be due to?

- A Omitting a sale of \$130 from the sales ledger
- B Recording a purchase of \$130 twice in the purchases account
- C Failing to write off a bad debt of \$130
- D Recording an electricity bill paid of \$65 by debiting the bank account and crediting the electricity account

- ..... activities are activities that result in changes in the size and composition of the equity capital and borrowings of the entity.

## Did you know? – Preparing basic financial statements

**Could you fill in the blanks? The answers are in bold. Use this page for revision purposes as you approach the exam.**

- There are some important differences between the accounts of a **limited liability company** and those of sole traders or partnerships.
- **Limited** liability means that the maximum amount that an owner stands to lose, in the event that the company becomes insolvent and cannot pay off its debts, is his share of the capital in the business.
- **Share** capital and **reserves** are 'owned' by the shareholders. They are known collectively as 'shareholders' equity'.
- A company can increase its share capital by means of a **bonus** issue or a **rights** issue.
- **Notes** are included in a set of financial statements to give users extra information.
- IAS 18 is concerned with the recognition of **revenue**.
- Events after the reporting date but before the date the financial statements are approved that provide further **evidence** of conditions that existed at the reporting date should be **adjusted** for in the financial statements.
- Events which do not affect the situation at the reporting date should not be **adjusted** for, but should be **disclosed** in the financial statements.
- The approach to incomplete records questions is to build up the information given so as to complete the necessary **double** entry.
- **Mark-up** is the profit as a percentage of cost.
- **Gross profit margin** is the profit as a percentage of sales.
- Where no trading records have been kept, profit can be derived from opening and closing net assets by use of the **business equation**.
- The business equation is Profit = increase in **net assets** – capital introduced + **drawings**
- Statements of **cash flows** are a useful addition to the financial statements of companies because it is recognised that accounting profit is not the only indicator of a company's performance.
- **Operating** activities are the principal revenue-producing activities of the enterprise and other activities that are not investing or financing activities.
- **Investing** activities are the acquisition and disposal of non-current assets and other investments not included in cash equivalents.
- **Financing** activities are activities that result in changes in the size and composition of the equity capital and borrowings of the entity.

**19****15 mark questions: preparing basic financial statements****126 mins****19.1 Shuswap**

**Exam focus point.** This question provides excellent practise of the knowledge and skills required to tackle long questions that may appear in Section B of the paper-based exam. However, the question is slightly longer, and the mark allocations lower, than a typical 15 mark exam question. Use this question to practise the techniques required to score well in longer Section B financial statement questions.

The draft statement of financial position shown below has been prepared for Shuswap, a limited liability company, as at 31 December 20X4:

|  | Cost<br>\$'000 | Accumulated<br>depreciation<br>\$'000 | Carrying<br>value<br>\$'000 |
|--|----------------|---------------------------------------|-----------------------------|
| <b>Assets</b>                                      |                |                                       |                             |
| <i>Non-current assets</i>                          |                |                                       |                             |

The following further information is available:

- 1 It has been decided to revalue the land and buildings to \$12,000,000 at 31 December 20X4.
- 2 Trade receivables totalling \$200,000 are to be written off.
- 3 During the year there was a contra settlement of \$106,000 in which an amount due to a supplier was set off against the amount due from the same company for goods sold to it. No entry has yet been made to record the set-off.
- 4 Some inventory items included in the draft statement of financial position at cost \$500,000 were sold after the reporting date for \$400,000, with selling expenses of \$40,000.
- 5 The suspense account is made up of two items:
  - (a) The proceeds of issue of 4,000,000 50c shares at \$1.10 per share, credited to the suspense account from the cash book.
  - (b) The balance of the account is the proceeds of sale of some plant on 1 January 20X4 with a carrying amount at the date of sale of \$700,000 and which had originally cost \$1,400,000. No other accounting entries have yet been made for the disposal apart from the cash book entry for the receipt of the proceeds. Depreciation on plant has been charged at 25% (straight line basis) in preparing the draft statement of financial position without allowing for the sale. The depreciation for the year relating to the plant sold should be adjusted for in full.

**Required**

- (a) Prepare the journal entries to clear the suspense account. **(4 marks)**
- (b) Prepare the company's statement of financial position as at 31 December 20X4, complying as far as possible with IAS 1 *Presentation of financial statements*. Details of non-current assets, adjusted appropriately, should appear as they are presented in the question. **(11 marks)**
- (15 marks)**

**19.2 Malright**

**Exam focus point.** This question provides excellent practise of the knowledge and skills required to tackle long questions that may appear in Section B of the paper-based exam. However, the question is slightly longer, and the mark allocations lower, than a typical 15 mark exam question. Use this question to practise the techniques required to score well in longer Section B financial statement questions.

You are presented with the following trial balance of Malright, a limited liability company, at 31 October 20X7.

Additional information as at 31 October 20X7:

- (a) Closing inventory has been counted and is valued at \$75,000.
- (b) The items listed below should be apportioned as indicated.

|                         | <i>Cost of sales</i> | <i>Distribution costs</i> | <i>Administrative expenses</i> |
|-------------------------|----------------------|---------------------------|--------------------------------|
|                         | <i>%</i>             | <i>%</i>                  | <i>%</i>                       |
| Discounts received      | —                    | —                         | 100                            |
| Energy expenses         | 40                   | 20                        | 40                             |
| Wages                   | 40                   | 25                        | 35                             |
| Directors' remuneration | —                    | —                         | 100                            |

(c) An invoice of \$15,000 for energy expenses for October 20X7 has not been received.

(d) Loan note interest has not been paid for the year.

(e) The allowance for receivables is to be increased to the equivalent of 5% of trade receivables. Any expenses connected with receivables should be charged to administrative expenses.

- (f) Plant is depreciated at 20% per annum using the reducing balance method. The entire charge is to be allocated to cost of sales.
- (g) Buildings are depreciated at 5% per annum on their original cost, allocated 30% to cost of sales, 30% to distribution costs and 40% to administrative expenses.
- (h) Income tax has been calculated as \$45,000 for the year.

*Required*

Prepare the following financial statements for Malright in accordance with IAS 1 *Presentation of financial statements*:

- |   |                   |
|---|-------------------|
| (a) The statement of profit or loss for the year ended 31 October 20X7    | (6 marks)         |
| (b) The statement of changes in equity for the year ended 31 October 20X7 | (3 marks)         |
| (c) The statement of financial position as at 31 October 20X7             | (6 marks)         |
|   | <b>(15 marks)</b> |

| Furniture and equipment at cost              | 1,200               |                     |
|  | <u>9,899</u>        | <u>9,899</u>        |

You have also been provided with the following information:

- (a) Inventory at 31 October 20X6 was valued at \$275,000 based on its original cost. However, \$45,000 of this inventory has been in the warehouse for over two years and the directors have agreed to sell it in November 20X6 for a cash price of \$20,000.
- (b) The marketing expenses include \$5,000 which relates to November 20X6.
- (c) The allowance for receivables is to be increased to the equivalent of 5% of trade receivables.
- (d) There are wages and salaries outstanding of \$40,000 for the year ended 31 October 20X6.
- (e) Buildings are depreciated at 5% of cost. At 31 October 20X6 the buildings were professionally valued at \$1,800,000 and the directors wish this valuation to be incorporated into the financial statements.
- (f) Depreciation is to be charged as follows:
  - (i) Motor vehicles at 20% of carrying amount
  - (ii) Furniture and equipment at 20% of cost
- (g) No dividends have been paid or declared.
- (h) Tax of \$150,000 is to be provided for the year.
- (i) During October 20X6 a bonus issue of one for ten shares was made to ordinary shareholders. This has not been entered into the books. The share premium account was used for this purpose.

**20 Incomplete records****38 mins**

- 20.1 A business has compiled the following information for the year ended 31 October 20X2:

| \$                |
|-------------------|
| Opening inventory |
| Purchases         |
| Closing inventory |

The gross profit as a percentage of sales is always 40%

Based on these figures, what is the sales revenue for the year?

- A \$1,333,500
- B \$1,587,500
- C \$2,381,250
- D The sales revenue figure cannot be calculated from this information

**(2 marks)**

- 20.2 Which of the following calculations could produce an acceptable figure for a trader's net profit for a period if no accounting records had been kept?

- A Closing net assets plus drawings minus capital introduced minus opening net assets
- B Closing net assets minus drawings plus capital introduced minus opening net assets
- C Closing net assets minus drawings minus capital introduced minus opening net assets
- D Closing net assets plus drawings plus capital introduced minus opening net assets

**(2 marks)**

- 20.3 A sole trader fixes his prices to achieve a gross profit percentage on sales revenue of 40%. All his sales are for cash. He suspects that one of his sales assistants is stealing cash from sales revenue.

His trading account for the month of June 20X3 is as follows:

| \$                     |
|------------------------|
| Recorded sales revenue |
| Cost of sales          |
| Gross profit           |

Assuming that the cost of sales figure is correct, how much cash could the sales assistant have taken?

- A \$5,040
- B \$8,400
- C \$22,000
- D It is not possible to calculate a figure from this information

**(2 marks)**

**The following information is relevant for questions 20.4 and 20.5.**

A is a sole trader who does not keep full accounting records. The following details relate to her transactions with credit customers and suppliers for the year ended 30 November 20X3.

| \$   |
|--|
| Trade receivables, 1 December 20X2   |
| Trade payables, 1 December 20X2  |
| Cash received from customers   |
| Cash paid to suppliers   |
| Discounts allowed  |
| Discounts received   |
| Irrecoverable debts  |
| Amount due from a customer who is also a supplier offset against an amount due for goods supplied by him |
| Trade receivables, 30 November 20X3  |
| Trade payables, 30 November 20X3   |

- 20.4 Based on the above information, what figure should appear in A's statement of profit or loss for the year ended 30 November 20X3 for sales revenue?

- A \$748,960
- B \$748,800
- C \$744,960
- D \$743,560

(2 marks)

- 20.5 Based on the above information, what figure should appear in A's statement of profit or loss for the year ended 30 November 20X3 for purchases?

- A \$283,760
- B \$325,840
- C \$329,760
- D \$331,760

(2 marks)

- 20.6 A sole trader fixes her prices by adding 50 per cent to the cost of all goods purchased. On 31 October 20X3 a fire destroyed a considerable part of the inventory and all inventory records.

Her trading account for the year ended 31 October 20X3 included the following figures:

|                           | \$             |         |
|---------------------------|----------------|---------|
| Sales                     |                | 281,250 |
| Opening inventory at cost | 183,600        |         |
| Purchases                 | 249,200        |         |
|                           | <u>432,800</u> |         |
| Closing inventory at cost | 204,600        |         |
|                           | <u>228,200</u> |         |
| Gross profit              | <u>53,050</u>  |         |

Using this information, what inventory loss has occurred?

- A \$61,050
- B \$87,575
- C \$40,700
- D \$110,850

(2 marks)

- 20.7 A fire on 30 September 20X2 destroyed some of a company's inventory and its inventory records.

The following information is available:

|  | \$      |
|--|---------|
| Inventory 1 September 20X2                       | 318,000 |
| Sales for September 20X2                         | 612,000 |
| Purchases for September 20X2                     | 412,000 |
| Inventory in good condition at 30 September 20X2 | 214,000 |

Standard gross profit percentage on sales is 25%

Based on this information, what is the value of the inventory lost?

- A \$96,000
- B \$271,000
- C \$26,400
- D \$57,000

(2 marks)

- 20.8 A business's bank balance increased by \$750,000 during its last financial year. During the same period it issued shares of \$1 million and repaid a loan note of \$750,000. It purchased non-current assets for \$200,000 and charged depreciation of \$100,000. Working capital (other than the bank balance) increased by \$575,000.

What was its profit for the year?

- A \$1,175,000
- B \$1,275,000
- C \$1,325,000
- D \$1,375,000

(2 marks)

- 20.9 A sole trader's business made a profit of \$32,500 during the year ended 31 March 20X8. This figure was after deducting \$100 per week wages for himself. In addition, he put his home telephone bill through the business books, amounting to \$400 plus sales tax at 17.5%. He is registered for sales tax and therefore has charged only the net amount to his statement of profit or loss and other comprehensive income.

His capital at 1 April 20X7 was \$6,500. What was his capital at 31 March 20X8?

- A \$33,730
- B \$33,800
- C \$38,930
- D \$39,000

(2 marks)

- 20.10 Senji does not keep proper accounting records, and it is necessary to calculate her total purchases for the year ended 31 January 20X3 from the following information:

|  | \$      |
|--|---------|
| Trade payables: 31 January 20X2                                  | 130,400 |
| 31 January 20X3  | 171,250 |
| Payment to suppliers   | 888,400 |
| Cost of goods taken from inventory by Senji for her personal use | 1,000   |
| Refunds received from suppliers                                  | 2,400   |
| Discounts received   | 11,200  |

What is the figure for purchases that should be included in Senji's financial statements?

- A \$914,650
- B \$937,050
- C \$939,050
- D \$941,850

(2 marks)

- 20.11 Aluki fixes prices to make a standard gross profit percentage on sales of 20%.

The following information for the year ended 31 January 20X3 is available to compute her sales total for the year.

|                            | \$      |
|----------------------------|---------|
| Inventory: 1 February 20X2 | 243,000 |
| 31 January 20X3            | 261,700 |
| Purchases                  | 595,400 |
| Purchases returns          | 41,200  |

What is the sales figure for the year ended 31 January 20X3?

- A \$669,375
- B \$702,600
- C \$772,375
- D \$741,480

20.12 Alpha is a sole trader who does not keep proper accounting records.

Alpha's first year of trading was 20X4. From reviewing Alpha's bank statements and the incomplete records relating to cash maintained, the following summary has been compiled.

Bank and cash summary, Alpha, 20X4

|   | \$      |
|---|---------|
| Cash received from credit customers and paid into the bank              | 381,600 |
| Expenses paid out of cash received from credit customers before banking | 6,800   |
| Cash sales  | 112,900 |

Other information, Alpha, 20X4

|                                       |       |
|---------------------------------------|-------|
| Irrecoverable debts written off       | 7,200 |
| Discounts allowed to credit customers | 9,400 |
| Closing balance of Trade receivables  | 0     |

Which of the following correctly represents Alpha's sales figure for 20X4?

- A \$517,900
- B \$112,900
- C \$381,600
- D \$510,900

(2 marks)

20.13 A sole trader who does not keep full accounting records wishes to calculate her sales revenue for the year.

The information available is:

|   |   |          |
|---|---|----------|
| 1 | Opening inventory                                 | \$17,000 |
| 2 | Closing inventory                                 | \$24,000 |
| 3 | Purchases   | \$91,000 |
| 4 | Standard gross profit percentage on sales revenue | 40%      |

Which of the following is the sales figure for the year calculated from these figures?

- A \$117,600
- B \$108,000
- C \$210,000
- D \$140,000

(2 marks)

20.14 On 31 December 20X0 the inventory of V was completely destroyed by fire. The following information is available:

- 1 Inventory at 1 December 20X0 at cost \$28,400
- 2 Purchases for December 20X0 \$49,600
- 3 Sales for December 20X0 \$64,800
- 4 Standard gross profit percentage on sales revenue 30%

Based on this information, which of the following is the amount of inventory destroyed?

- A \$45,360
- B \$32,640
- C \$40,971
- D \$19,440

(2 marks)

20.15 The following information is available for the year ended 31 December 20X4 for a trader who does not keep proper accounting records:

|                                 | \$      |
|---------------------------------|---------|
| Inventories at 1 January 20X4   | 38,000  |
| Inventories at 31 December 20X4 | 45,000  |
| Purchases                       | 637,000 |

Gross profit percentage on sales = 30%

Based on this information, what was the trader's sales figure for the year?

- A \$900,000
- B \$819,000
- C \$920,000
- D \$837,200

(2 marks)

20.16 Wanda keeps no accounting records. The following information is available about her position and transactions for the year ended 31 December 20X4:

|                                | \$      |
|--------------------------------|---------|
| Net assets at 1 January 20X4   | 210,000 |
| Drawings during 20X4           | 48,000  |
| Capital introduced during 20X4 | 100,000 |
| Net assets at 31 December 20X4 | 400,000 |

Based on this information, what was Wanda's profit for 20X4?

- A \$42,000
- B \$242,000
- C \$138,000
- D \$338,000

## 21 Company financial statements

24 mins

21.1 Which of the following items may appear as current liabilities in a company's statement of financial position?

- 1 Revaluation surplus
  - 2 Loan due for repayment within one year
  - 3 Taxation
  - 4 Preference dividend payable on redeemable preference shares
- A 1, 2 and 3
  - B 1, 2 and 4
  - C 1, 3 and 4
  - D 2, 3 and 4

(2 marks)

21.2 Which of the following might appear as an item in a company's statement of changes in equity?

- 1 Profit on disposal of properties
  - 2 Surplus on revaluation of properties
  - 3 Equity dividends proposed after the reporting date
  - 4 Issue of share capital
- A 1, 3 and 4 only
  - B 2 and 4 only
  - C 1 and 2 only
  - D 3 and 4 only

(2 marks)

21.3 At 31 December 20X2 the following matters require inclusion in a company's financial statements:

- 1 On 1 January 20X2 the company made a loan of \$12,000 to an employee, repayable on 30 April 20X3, charging interest at 2 per cent per year. On the due date she repaid the loan and paid the whole of the interest due on the loan to that date.
- 2 The company has paid insurance \$9,000 in 20X2, covering the year ending 31 August 20X3.
- 3 In January 20X3 the company received rent from a tenant \$4,000 covering the six months to 31 December 20X2.

For these items, what total figures should be included in the company's statement of financial position at 31 December 20X2?

|   | <i>Receivables and prepayments</i> | <i>Payables and accruals</i> |           |
|---|------------------------------------|------------------------------|-----------|
|   | \$                                 | \$                           |           |
| A | 22,000                             | 240                          |           |
| B | 22,240                             | NIL                          |           |
| C | 10,240                             | NIL                          |           |
| D | 16,240                             | 6,000                        | (2 marks) |

21.4 Which of the following items are required to be disclosed by a limited liability company, either on the face of their main financial statements or in the notes, according to International Financial Reporting Standards?

- 1 Share capital
  - 2 Finance costs
  - 3 Dividends proposed
  - 4 Depreciation and amortisation
- A 1, 2 and 3 only
  - B 2, 3 and 4 only
  - C 1, 2 and 4 only
  - D All four items

(2 marks)

21.5 Which of the following statements about the financial statements of limited liability companies are correct according to International Financial Reporting Standards?

- 1 In preparing a statement of cash flows, either the direct or the indirect method may be used. Both lead to the same figure for net cash from operating activities.
  - 2 Loan notes can be classified as current or non-current liabilities.
  - 3 Financial statements must disclose a company's total expense for depreciation, if material.
  - 4 A company must disclose by note details of all adjusting events allowed for in the financial statements.
- A 1, 2 and 3 only
  - B 2 and 4 only
  - C 3 and 4 only
  - D All four items

(2 marks)

21.6 Which of the following could appear as separate items in the statement of changes in equity required by IAS 1 *Presentation of Financial Statements* as part of a company's financial statements?

- 1 Dividends on equity shares paid during the period
  - 2 Loss on sale of investments
  - 3 Proceeds of an issue of ordinary shares
  - 4 Dividends proposed after the year end
- A 1, 3 and 4 only
  - B 1, 2 and 4 only
  - C 1 and 3 only
  - D All four items

(2 marks)

21.7 Which one of the following items does not appear under the heading 'equity and reserves' on a company statement of financial position?

- A Share premium account
- B Retained earnings
- C Revaluation surplus
- D Loan stock

(2 marks)

21.8 The correct ledger entries needed to record the issue of 200,000 \$1 shares at a premium of 30c, and paid for in full, would be

|   |                           |           |
|---|---------------------------|-----------|
| A | Dr Ordinary share capital | \$200,000 |
|   | Cr Share premium account  | \$60,000  |
|   | Cr Cash                   | \$140,000 |
| B | Dr Cash                   | \$260,000 |
|   | Cr Ordinary share capital | \$200,000 |
|   | Cr Share premium account  | \$60,000  |
| C | Dr Ordinary share capital | \$200,000 |
|   | Cr Share premium account  | \$60,000  |
|   | Cr Cash                   | \$260,000 |
| D | Dr Cash                   | \$200,000 |
|   | Dr Share premium account  | \$60,000  |
|   | Cr Ordinary share capital | \$260,000 |

(2 marks)

21.9 Which of the following statements about limited liability companies' accounting is/are correct?

- 1 A revaluation surplus arises when a non-current asset is sold at a profit.
  - 2 The authorised share capital of a company is the maximum nominal value of shares and loan notes the company may issue.
  - 3 IAS 10 *Events after the reporting period* requires all non-adjusting events to be disclosed in the notes to the financial statements.
- A 1 and 2 only
  - B 2 only
  - C 3 only
  - D None of the statements are correct

(2 marks)

21.10 Fruitz Co has a tax liability relating to 20X1 brought forward in 20X2 of \$16,000. This liability is finally agreed at \$18,500, which is paid in 20X2.

Fruitz's accountant estimates their tax liability for profits earned in 20X2 will be \$20,000.

What should the charge for taxation be in Fruitz's statement of profit or loss (SPL) for the year ended 31 December 20X2?

- A \$22,500
- B \$15,000
- C \$17,500
- D \$20,000

**22 Disclosure notes****22 mins**

22.1 Which of the following best describes the purpose of disclosure notes in the financial statements?

- A To provide more detail for the users of financial statements about the information in the statement of financial position and statement of profit or loss and other comprehensive income.
- B To allow companies to present their financial results in a more favourable way by only disclosing some things in the notes and not on the main financial statements.
- C To give all the detail of all the transactions that occurred during the period because the main financial statements only present a summary.
- D To explain the accounting treatment adopted where management have chosen not to apply accounting standards.

**(2 marks)**

22.2 For which class or classes of assets should a company disclose in the notes to the financial statements a reconciliation of the opening carrying amount to the closing carrying amount, showing the movements in the period?

- 1 Cash
  - 2 Intangible assets
  - 3 Tangible non-current assets
  - 4 Trade receivables
- A 3 only
  - B 2 and 3 only
  - C 1 and 4 only
  - D 1 only

**(2 marks)**

22.3 Which of the following should be disclosed in the note to the financial statements for inventories?

- 1 The date the inventories were purchased or manufactured and/or how long they have been held as inventories
  - 2 The amount of inventories carried at net realisable value
  - 3 The accounting policies adopted in measuring inventories
  - 4 The useful life of the inventories
- A 3 only
  - B 2 and 3 only
  - C 1 and 4 only
  - D 1 only

**(2 marks)**

22.4 Which of the following should be disclosed in the note to the financial statements for intangible assets?

- 1 The method of amortisation used
  - 2 A reconciliation of the carrying amount at the beginning and end of the period
  - 3 The useful life of the assets
  - 4 The net realisable value of any deferred development costs capitalised
- A 1, 2 and 3 only
  - B 2 and 3 only
  - C 2, 3 and 4 only
  - D 2 only

**(2 marks)**

22.5 Which of the following statements is/are correct?

- 1 IAS 37 requires disclosure in the notes to the financial statements of the uncertainties affecting the outcome of a provision
  - 2 IAS 10 requires disclosure of the nature and financial effect of a non-adjusting event after the reporting period in the notes to the financial statements
- A 1 only  
 B 2 only  
 C Both 1 and 2  
 D Neither 1 or 2

(2 marks)

22.6 A certain IFRS requires that the following disclosure is made in a note to the financial statements:

- (i) A brief description of its nature
- (ii) Where practicable an estimate of the financial effect
- (iii) An indication of the uncertainties relating to the amount or timing of any outflow
- (iv) The possibility of any reimbursement

Which of the following does the above disclosure apply to?

- A Provisions  
 B Contingent liabilities  
 C Contingent assets  
 D Events after the reporting period

(2 marks)

22.7 Which of the following should be disclosed in the note to the financial statements for tangible non-current assets?

- 1 The market value of all assets classified as tangible non-current assets, whether they have been revalued or not
  - 2 A reconciliation of the carrying amount of non-current assets at the beginning and end of the period
  - 3 For revalued assets, the methods and significant assumptions applied in estimating the value
  - 4 For revalued assets, the carrying amount of each class of assets that would have been included in the financial statements had the assets been carried at cost less depreciation
- A 1, 2 and 3 only  
 B 2 and 3 only  
 C 2, 3 and 4 only  
 D 2 only

(2 marks)

22.8 Which of the following are required as disclosures by IAS 2 *Inventories*?

- 1 The amount of write-downs of inventories in the period that have been recognised as an expense
  - 2 The original cost of inventories that are carried at net realisable value
  - 3 The carrying amount of inventories classified by type (for example, raw materials, work in progress)
- A 1 and 2 only  
 B 1 and 3 only  
 C 2 and 3 only  
 D 1, 2 and 3

(2 marks)

22.9 Which one of the following is a disclosure about non-adjusting events required by IAS 10 *Events after the reporting period*?

- A Dividends declared before the end of the reporting period and paid after the end of the reporting period
- B The nature of both material and non-material non-adjusting events
- C The date that the non-adjusting event occurred
- D An estimate of the financial effect of the event, unless a reasonable estimate cannot be made

(2 marks)

(Total = 18 marks)

## 23 Events after the reporting period

22 mins

23.1 Which of the following material events after the reporting period and before the financial statements are approved by the directors should be adjusted for in those financial statements?

- 1 A valuation of property providing evidence of impairment in value at the reporting period
  - 2 Sale of inventory held at the end of the reporting period for less than cost
  - 3 Discovery of fraud or error affecting the financial statements
  - 4 The insolvency of a customer with a debt owing at the end of the reporting period which is still outstanding
- A All of them
  - B 1, 2 and 4 only
  - C 3 and 4 only
  - D 1, 2 and 3 only

(2 marks)

23.2 The draft financial statements of a limited liability company are under consideration. The accounting treatment of the following material events after the reporting period needs to be determined.

- 1 The bankruptcy of a major customer, with a substantial debt outstanding at the end of the reporting period
- 2 A fire destroying some of the company's inventory (the company's going concern status is not affected)
- 3 An issue of shares to finance expansion
- 4 Sale for less than cost of some inventory held at the end of the reporting period

According to IAS 10 *Events after the reporting period*, which of the above events require an adjustment to the figures in the draft financial statements?

- A 1 and 4 only
- B 1, 2 and 3 only
- C 2 and 3 only
- D 2 and 4 only

(2 marks)

23.3 In finalising the financial statements of a company for the year ended 30 June 20X4, which of the following material matters should be adjusted for?

- 1 A customer who owed \$180,000 at the end of the reporting period went bankrupt in July 20X4.
  - 2 The sale in August 20X4 for \$400,000 of some inventory items valued in the statement of financial position at \$500,000.
  - 3 A factory with a value of \$3,000,000 was seriously damaged by a fire in July 20X4. The factory was back in production by August 20X4 but its value was reduced to \$2,000,000.
  - 4 The company issued 1,000,000 ordinary shares in August 20X4.
- A All four items  
 B 1 and 2 only  
 C 1 and 4 only  
 D 2 and 3 only

(2 marks)

23.4 IAS 10 *Events after the reporting period* regulates the extent to which events after the reporting period should be reflected in financial statements.

Which one of the following lists of such events consists only of items that, according to IAS 10, should normally be classified as non-adjusting?

- A Insolvency of an account receivable which was outstanding at the end of the reporting period, issue of shares or loan notes, an acquisition of another company
- B Issue of shares or loan notes, changes in foreign exchange rates, major purchases of non-current assets
- C An acquisition of another company, destruction of a major non-current asset by fire, discovery of fraud or error which shows that the financial statements were incorrect
- D Sale of inventory which gives evidence about its value at the end of the reporting period, issue of shares or loan notes, destruction of a major non-current asset by fire

(2 marks)

23.5 Which of the following events occurring after the reporting period are classified as adjusting, if material?

- 1 The sale of inventories valued at cost at the end of the reporting period for a figure in excess of cost
  - 2 A valuation of land and buildings providing evidence of an impairment in value at the year end
  - 3 The issue of shares and loan notes
  - 4 The insolvency of a customer with a balance outstanding at the year end
- A 1 and 3  
 B 2 and 4  
 C 2 and 3  
 D 1 and 4

(2 marks)

23.6 The financial statements of Overexposure Co for the year ended 31 December 20X1 are to be approved on 31 March 20X2. Before they are approved, the following events take place.

- 1 On 14 February 20X2 the directors took the strategic decision to sell their investment in Quebec Co despite the fact that this investment generated material revenues.
- 2 On 15 March 20X2, a fire occurred in the eastern branch factory which destroyed a material amount of inventory. It is estimated that it will cost \$505,000 to repair the significant damage done to the factory.
- 3 On 17 March 20X2, a customer of Overexposure Co went into liquidation. Overexposure has been advised that it is unlikely to receive payment for any of the outstanding balances owed by the customer at the year end.

How should these events reflected in the financial statements at 31 December 20X1?

|   | <i>Adjust</i> | <i>Disclose</i> | <i>Do nothing</i> |           |
|---|---------------|-----------------|-------------------|-----------|
| A | 3             | 2, 3            | 1                 |           |
| B | 2, 3          | 1               | —                 |           |
| C | 3             | 1, 2            | —                 |           |
| D | 2             | 3, 1            |                   | (2 marks) |

- 23.7 Which of the following events between the reporting date and the date the financial statements are authorised for issue must be adjusted in the financial statements?

- 1 Declaration of equity dividends
  - 2 Decline in market value of investments
  - 3 The announcement of changes in tax rates
  - 4 The announcement of a major restructuring
- A 1 only
  - B 2 and 4
  - C 3 only
  - D None of them

(2 marks)

- 23.8 Which of the following is the correct definition of an adjusting event after the reporting period?

- A An event that occurs between the reporting date and the date on which the financial statements are authorised for issue that provides further evidence of conditions that existed at the reporting date
- B An event that occurs between the reporting date and the date on which the financial statements are authorised for issue that provides evidence of conditions that arose subsequent to the reporting date
- C An event that occurs after the date the financial statements are authorised for issue that provides further evidence of conditions that existed at the reporting date
- D An event that occurs after the date the financial statements are authorised for issue that provides evidence of conditions that arose subsequent to the reporting date

(2 marks)

- 23.9 If a material event occurs after the reporting date but before the financial statements are authorised for issue outside the organisation, and this event does NOT require adjustment, what information should be disclosed in the financial statements?

- A The nature of the event and an estimate of the financial effect (or a statement that such an estimate cannot be made)
- B The nature of the event only
- C An estimate of the financial effect (or a statement that such an estimate cannot be made) only
- D No disclosure required

(2 marks)

**(Total = 18 marks)**

**24 Statements of cash flows****48 mins**

24.1 Which of the following items could appear in a company's statement of cash flows?

- 1 Surplus on revaluation of non-current assets
  - 2 Proceeds of issue of shares
  - 3 Proposed dividend
  - 4 Irrecoverable debts written off
  - 5 Dividends received
- A 1, 2 and 5 only  
 B 2, 3, 4, 5 only  
 C 2 and 5 only  
 D 3 and 4 only

**(2 marks)**

24.2 Part of the process of preparing a company's statement of cash flows is the calculation of cash inflow from operating activities.

Which of the following statements about that calculation (using the indirect method) are correct?

- 1 Loss on sale of operating non-current assets should be deducted from net profit before taxation.
  - 2 Increase in inventory should be deducted from operating profits.
  - 3 Increase in payables should be added to operating profits.
  - 4 Depreciation charges should be added to net profit before taxation.
- A 1, 2 and 3  
 B 1, 2 and 4  
 C 1, 3 and 4  
 D 2, 3 and 4

**(2 marks)**

24.3 In the course of preparing a company's statement of cash flows, the following figures are to be included in the calculation of net cash from operating activities.

|                                      | \$      |
|--------------------------------------|---------|
| Depreciation charges                 | 980,000 |
| Profit on sale of non-current assets | 40,000  |
| Increase in inventories              | 130,000 |
| Decrease in receivables              | 100,000 |
| Increase in payables                 | 80,000  |

What will the net effect of these items be in the statement of cash flows?

|                                     | \$        |
|-------------------------------------|-----------|
| A Addition to operating profit      | 890,000   |
| B Subtraction from operating profit | 890,000   |
| C Addition to operating profit      | 1,070,000 |
| D Addition to operating profit      | 990,000   |

**(2 marks)**

24.4 Part of a company's draft statement of cash flows is shown below:

|  | \$'000  |
|--|---------|
| Net profit before tax                  | 8,640   |
| Depreciation charges                   | (2,160) |
| Proceeds of sale of non-current assets | 360     |
| Increase in inventory                  | (330)   |
| Increase in accounts payable           | 440     |

The following criticisms of the above extract have been made:

- 1 Depreciation charges should have been added, not deducted.
- 2 Increase in inventory should have been added, not deducted.
- 3 Increase in accounts payable should have been deducted, not added.
- 4 Proceeds of sale of non-current assets should not appear in this part of the statement of cash flows.

Which of these criticisms are valid?

- A 2 and 3 only
- B 1 and 4 only
- C 1 and 3 only
- D 2 and 4 only

(2 marks)

24.5 In preparing a company's statement of cash flows complying with IAS 7 *Statements of Cash Flows*, which, if any, of the following items could form part of the calculation of cash flow from financing activities?

- 1 Proceeds of sale of premises
- 2 Dividends received
- 3 Bonus issue of shares

- A 1 only
- B 2 only
- C 3 only
- D None of them

(2 marks)

24.6 Which of the following assertions about statement of cash flows is/are correct?

- 1 A statement of cash flows prepared using the direct method produces a different figure for operating cash flow from that produced if the indirect method is used.
  - 2 Rights issues of shares do not feature in statements of cash flows.
  - 3 A surplus on revaluation of a non-current asset will not appear as an item in a statement of cash flows.
  - 4 A profit on the sale of a non-current asset will appear as an item under Cash Flows from Investing Activities in a statement of cash flows.
- A 1 and 4
  - B 2 and 3
  - C 3 only
  - D 2 and 4

(2 marks)

24.7 An extract from a statement of cash flows prepared by a trainee accountant is shown below.

Cash flows from operating activities

|   | \$m              |
|---|------------------|
| Net profit before taxation                      | 28               |
| Adjustments for: Depreciation                   | (9)              |
| Operating profit before working capital changes | <u>19</u>        |
| Decrease in inventories                         | 13               |
| Increase in receivables                         | (4)              |
| Increase in payables                            | (8)              |
| Cash generated from operations                  | <u><u>10</u></u> |

Which of the following criticisms of this extract are correct?

- 1 Depreciation charges should have been added, not deducted.
  - 2 Decrease in inventories should have been deducted, not added.
  - 3 Increase in receivables should have been added, not deducted.
  - 4 Increase in payables should have been added, not deducted.
- A 2 and 4
  - B 2 and 3
  - C 1 and 3
  - D 1 and 4

(2 marks)

24.8 Which of the following items could appear in a company's statement of cash flows?

- 1 Proposed dividends
  - 2 Rights issue of shares
  - 3 Bonus issue of shares
  - 4 Repayment of loan
- A 1 and 3
  - B 2 and 4
  - C 1 and 4
  - D 2 and 3

(2 marks)

24.9 IAS 7 requires the statement of cash flows to open with the calculation of net cash from operating activities, arrived at by adjusting net profit before taxation.

Which one of the following lists consists only of items which could appear in such a calculation?

- A Depreciation, increase in receivables, decrease in payables, proceeds from sale of equipment, increase in inventories
- B Increase in payables, decrease in inventories, profit on sale of plant, depreciation, decrease in receivables
- C Increase in payables, proceeds from sale of equipment, depreciation, decrease in receivables, increase in inventories
- D Depreciation, interest paid, proceeds from sale of equipment, decrease in inventories

(2 marks)

24.10 The following extract is from the financial statements of Pompeii, a limited liability company at 31 October:

|                                | 20X9<br>\$'000 | 20X8<br>\$'000 |
|--------------------------------|----------------|----------------|
| <i>Equity and liabilities</i>  |                |                |
| Share capital                  | 120            | 80             |
| Share premium                  | 60             | 40             |
| Retained earnings              | 85             | 68             |
|                                | <u>265</u>     | <u>188</u>     |
| <i>Non-current liabilities</i> |                |                |
| Bank loan                      | 100            | 150            |
|                                | <u>365</u>     | <u>338</u>     |

What is the cash flow from financing activities to be disclosed in the statement of cash flows for the year ended 31 October 20X9?

- A \$60,000 inflow
- B \$10,000 inflow
- C \$110,000 inflow
- D \$27,000 inflow

(2 marks)

24.11 A draft statement of cash flows contains the following calculation of cash flows from operating activities:

|   | \$m       |
|---|-----------|
| Profit before tax                         | 13        |
| Depreciation                              | 2         |
| Decrease in inventories                   | (3)       |
| Decrease in trade and other receivables   | 5         |
| Decrease in trade payables                | 4         |
| Net cash inflow from operating activities | <u>21</u> |

Which of the following corrections need to be made to the calculation?

- 1 Depreciation should be deducted, not added.
  - 2 Decrease in inventories should be added, not deducted.
  - 3 Decrease in receivables should be deducted, not added.
  - 4 Decrease in payables should be deducted, not added.
- A 1 and 3  
B 2 and 3  
C 1 and 4  
D 2 and 4

(2 marks)

24.12 The following extract is taken from a draft version of company's statement of cash flows, prepared by a trainee accountant.

|   | \$'000     |
|---|------------|
| <i>Net cash flow from operating activities</i>  |            |
| Profit before tax                               | 484        |
| Depreciation charges                            | 327        |
| Profit on sale of property, plant and equipment | 35         |
| Increase in inventories                         | (74)       |
| Decrease in trade and other receivables         | (41)       |
| Increase in trade payables                      | 29         |
| Cash generated from operations                  | <u>760</u> |

Four possible mistakes that may have been made by the trainee accountant are listed below.

- 1 The profit on sale of property, plant and equipment should be subtracted, not added.
- 2 The increase in inventories should be added, not subtracted.
- 3 The decrease in trade and other receivables should be added, not subtracted.
- 4 The increase in trade payables should be subtracted, not added.

Which of the four mistakes did the trainee accountant make when preparing the draft statement?

- A 1 and 2 only  
B 1 and 3 only  
C 2 and 4 only  
D 3 and 4 only

(2 marks)

24.13 Which, if any, of the following items could be included in 'cash flows from financing activities' in a statement of cash flows that complies with IAS 7 *Statement of Cash Flows*?

- 1 Interest received
  - 2 Taxation paid
  - 3 Proceeds from sale of property
- A 1 only  
B 2 only  
C 3 only  
D None of them

(2 marks)

24.14 Which one of the following statements is correct, with regard to the preparation of a statement of cash flows that complies with IAS 7 *Statement of Cash Flows*?

- A A statement of cash flows prepared using the direct method produces the same figure for net cash from operating activities as a statement produced by the indirect method.
- B An increase in a bank overdraft during the accounting period is included within cash flows from financing activities.
- C A profit on the sale of equipment is included within cash flows from investing activities.
- D A surplus on the revaluation of property will appear within cash flows from investing activities.

(2 marks)

24.15 The following information is available about the plant, property and equipment of Lok Co, for the year to 31 December 20X3.

|  | \$'000 |
|--|--------|
| Carrying amount of assets at beginning of the year | 462    |
| Carrying amount of assets at end of the year       | 633    |
| Increase in revaluation surplus during the year    | 50     |
| Disposals during the year, at cost                 | 110    |
| Accumulated depreciation on the assets disposed of | 65     |
| Depreciation charge for the year                   | 38     |

What will be included in cash flows from investing activities for the year, in a statement of cash flows that complies with IAS 7 *Statement of Cash Flows*?

- A \$104,000
- B \$159,000
- C \$166,000
- D \$204,000

(2 marks)

24.16 A company sold warehouse premises at a loss during a financial period. How would this transaction be included in a statement of cash flows for the period that complies with IAS 7 *Statement of Cash Flows* and that uses the indirect method to present cash flows from operating activities?

|   | <i>Loss on disposal</i>  | <i>Proceeds from sale</i>                       |
|---|--|---|
| A | Deduct as an adjustment in the calculation of cash flows from operating activities | Include in cash flows from investing activities |
| B | Deduct as an adjustment in the calculation of cash flows from operating activities | Include in cash flows from operating activities |
| C | Add as an adjustment in the calculation of cash flows from operating activities    | Include in cash flows from investing activities |
| D | Add as an adjustment in the calculation of cash flows from operating activities    | Include in cash flows from operating activities |

(2 marks)

24.17 Big Time Co had the following transactions during the year.

- Purchases from suppliers were \$18,500, of which \$2,550 was unpaid at the year end. Brought forward payables were \$1,000.
- Wages and salaries amounted to \$9,500, of which \$750 was unpaid at the year end. The financial statements for the previous year showed an accrual for wages and salaries of \$1,500.
- Interest of \$2,100 on a long term loan was paid in the year.
- Sales revenue was \$33,400, including \$900 receivables at the year end. Brought forward receivables were \$400.
- Interest on cash deposits at the bank amounted to \$175.

Using the direct method, what is Big Time Co's cash flow from operating activities?

- A \$3,425
- B \$3,775
- C \$1,425
- D \$6,775

(2 marks)

24.18 Which one of the following statements is correct?

- A If a business makes a profit, it has positive cash flow.
- B If a business makes a loss, it has negative cash flow.
- C A business may make a profit but have negative cash flow.
- D A business that breaks even has cash inflows equal to cash used.

(2 marks)

24.19 Toots Co has made healthy profits for the past year, although at times the company has been close to running out of cash. Because Toots Co is profitable, Adam, their accountant is unconcerned by the cash shortage. Jo, the financial controller at Toots Co, is concerned. Jo tells Adam, 'profits are fine on paper, but in the real world cash is king'. Jo believes Toots Co needs to take a more proactive approach to cash flow management.

Adam and Jo have two different views. Who is correct, and why?

- A Adam is correct. A profitable business should not waste management time on cash flow issues.
- B Adam is correct. A profitable business will always survive and prosper.
- C Jo is correct. Proactive cash flow management is required under IAS 7 *Statements of Cash Flows*.
- D Jo is correct. A business that does not have cash available to fund operations is likely to fail.

**(2 marks)**

24.20 Which one of the following statements correctly identifies a valid disadvantage to users of financial statements of the statement of cash flows?

- A Under IAS 7 *Statement of cash flows*, an entity may use any format for their statement.
- B There is an opportunity to reclassify some cash outflows that might have been reported in the operating section as investing cash outflows.
- C Under IAS 7 *Statement of cash flows* the statement of cash flows may cover a different period of time to the other financial statements.
- D Cash flow figures are more open to manipulation than the profit figure.

## Do you know? – Preparing simple consolidated financial statements

**Check that you can fill in the blanks in the statements below before you attempt any questions. If in doubt, you should go back to your BPP Interactive Text and revise first.**

- ..... means presenting the results, assets and liabilities of a group of companies as if they were one company.
- A ..... is an entity controlled by another entity.
- An ..... is an entity over which another entity exerts significant influence.
- ..... are accounted for in the consolidated statements of a group using the e..... method.
- A t..... i..... is a simple investment in the shares of another entity that is not an associate or a subsidiary.
- ..... financial statements present the results of the g....., they do not replace the separate financial statements of the individual group companies.
- Basic consolidation consists of two procedures:
  - ..... which appear as an asset in one company and a liability in another
  - Then adding together all the ..... assets and liabilities on a line by line basis
- ..... arising on consolidation is recognised as an ..... asset in the consolidated statement of financial position.
- The n....-c..... i..... shows the extent to which net assets controlled by the group are owned by other parties.
- A consolidation adjustment is required to remove ..... profit on intra-group trading and transfer of non-current assets.
- When a parent company acquires a subsidiary part way through the year, the profits for the period need to be apportioned between p..... and p..... acquisition. Only p..... acquisition profits are included in the group's consolidated statement of financial position.
- The ..... statement of profit or loss is prepared by combining the statements of profit or loss of each group company on a line-by-line basis.
- Intra-group ..... and ..... are eliminated from the consolidated statement of profit or loss.
- If a ..... is acquired during the year, only the post-acquisition element of statement of profit or loss balances are included on consolidation.

## Did you know? – Preparing simple consolidated financial statements

Could you fill in the blanks? The answers are in bold. Use this page for revision purposes as you approach the exam.

- **Consolidation** means presenting the results, assets and liabilities of a group of companies as if they were one company.
- A **subsidiary** is an entity controlled by another entity.
- An **associate** is an entity over which another entity exerts significant influence.
- **Associates** are accounted for in the consolidated statements of a group using the **equity** method.
- A **trade investment** is a simple investment in the shares of another entity that is not an associate or a subsidiary.
- **Consolidated** financial statements present the results of the **group**, they do not replace the separate financial statements of the individual group companies.
- Basic consolidation consists of two procedures:
  - **Cancelling out items** which appear as an asset in one company and a liability in another
  - Then adding together all the **uncancelled** assets and liabilities on a line by line basis
- **Goodwill** arising on consolidation is recognised as an **intangible** asset in the consolidated statement of financial position.
- The **non-controlling interest (NCI)** shows the extent to which net assets controlled by the group are owned by other parties.
- A consolidation adjustment is required to remove **unrealised** profit on intra-group trading and transfer of non-current assets.
- When a parent company acquires a subsidiary part way through the year, the profits for the period need to be apportioned between **pre** and **post** acquisition. Only **post** acquisition profits are included in the group's consolidated statement of financial position.
- The **consolidated** statement of profit or loss is prepared by combining the statements of profit or loss of each group company on a line-by-line basis.
- Intra-group **sales** and **purchases** are eliminated from the consolidated statement of profit or loss.
- If a **subsidiary** is acquired during the year, only the post-acquisition element of statement of profit or loss balances are included on consolidation.

## 25 15 mark questions: preparing simple consolidated financial statements

72 mins

**Exam focus point.** This question provides excellent practice of the knowledge and skills required to tackle long questions that may appear in Section B of the paper-based exam. As well as full questions such as those in this section, questions in the exam may also be based on extracts from financial statements and include a number of separate requirements (see Question 2 of the ACCA Specimen Exam for an example).

### 25.1 Swing and Cat

Swing purchased 80% of Cat's equity on 1 January 20X8 for \$120,000 when Cat's retained earnings were \$50,000. The fair value of the non-controlling interest on that date was \$40,000. During the year, Swing sold goods which cost \$80,000 to Cat, at an invoiced cost of \$100,000. Cat had 50% of the goods still in inventories at the year end. The two companies' draft financial statements as at 31 December 20X8 are shown below.

#### STATEMENTS OF PROFIT OR LOSS FOR THE YEAR ENDED 31 DECEMBER 20X8

|                     | Swing<br>\$'000   | Cat<br>\$'000    |
|---------------------|-------------------|------------------|

| <i>Non-current assets</i>              |                           |                          |
| Property, plant and equipment          | 4,200                     | 3,300                    |
| Investments: shares in Northon at cost | 3,345                     | —                        |
| <i>Current assets</i>                  |                           |                          |
| Inventory                              | 1,500                     | 800                      |
| Receivables                            | 1,800                     | 750                      |
| Bank                                   | 600                       | 350                      |
|  | <u>3,900</u>              | <u>1,900</u>             |
| <i>Total assets</i>                    | <u>11,445</u>             | <u>5,200</u>             |
| <i>Equity and liabilities</i>          |                           |                          |
| <i>Equity</i>                          |                           |                          |
| \$1 ordinary shares                    | 9,000                     | 4,000                    |
| Retained earnings                      | 525                       | 200                      |
|  | <u>9,525</u>              | <u>4,200</u>             |
| <i>Current liabilities</i>             |                           |                          |
| Payables                               | 1,220                     | 200                      |
| Tax                                    | 700                       | 800                      |
| <i>Total equity and liabilities</i>    | <u>11,445</u>             | <u>5,200</u>             |

The following information is also available.

- (a) Prestend purchased 2,800,000 shares in Northon a year ago when Northon had retained earnings of \$60,000. The fair value of the non-controlling interest at the date of acquisition was \$1,415,000.
- (b) During the year Prestend sold goods with an invoice value of \$240,000 to Northon. These goods were invoiced at cost plus 20%. Half of the goods are still in Northon's inventory at the year end.
- (c) Northon owes Prestend \$30,000 at 31 October 20X7 for goods it purchased during the year.

#### Required

- (a) Calculate the goodwill on acquisition. **(5 marks)**
- (b) Prepare the consolidated statement of financial position for the Prestend group as at 31 October 20X7.

*Note.* A working should be included for group retained earnings. Disclosure notes are not required.

**(10 marks)**

**(15 marks)**

## 25.4 Liverton and Everpool

The summarised statements of profit or loss of two companies, Liverton and Everpool, for the year ended 31 May 20X6 are provided below. Liverton acquired 3,000,000 ordinary shares in Everpool for \$3,500,000 on 1 June 20X4. At that time, the retained earnings of Everpool were \$200,000 and the fair value of the non-controlling interest in Everpool was \$1,000,000.

### STATEMENTS OF PROFIT OR LOSS FOR THE YEAR ENDED 31 MAY 20X6

|                                  | <i>Liverton</i>   | <i>Everpool</i>   |

| Profit before tax                | <u>1,050</u>      | <u>340</u>        |
| Tax                              | (400)             | (80)              |
| Profit for the year              | <u><u>650</u></u> | <u><u>260</u></u> |

The following information is also available.

- (a) Everpool's total share capital consists of 4,000,000 ordinary shares of \$1 each.
- (b) During the year ended 31 May 20X6 Liverton sold goods costing \$110,000 to Everpool for \$200,000. At 31 May 20X6, 60% of these goods remained in Everpool's inventory.

*Required*

- (a) Calculate the total goodwill arising on the acquisition of Everpool. **(5 marks)**
- (b) Prepare the consolidated statement of profit or loss for Liverton for the year ended 31 May 20X6. **(10 marks)**  
**(15 marks)**

**(Total = 60 marks)**

## 26 Consolidated financial statements

65 mins

**The following information is relevant for questions 26.1 to 26.3.**

On 1 January 20X0 Alpha Co purchased 90,000 ordinary \$1 shares in Beta Co for \$270,000. At that date Beta Co's retained earnings amounted to \$90,000 and the fair values of Beta Co's assets at acquisition were equal to their book values.

Three years later, on 31 December 20X2, the statements of financial position of the two companies were:

|                             | <i>Alpha Co</i>       | <i>Beta Co</i>        |
|-----------------------------|-----------------------|-----------------------|
|                             | \$                    | \$                    |
| Sundry net assets           | 230,000               | 260,000               |
| Shares in Beta              | <u>180,000</u>        | <u>—</u>              |
|                             | <u><u>410,000</u></u> | <u><u>260,000</u></u> |
| Share capital               |                       |                       |
| Ordinary shares of \$1 each | 200,000               | 100,000               |
| Retained earnings           | <u>210,000</u>        | <u>160,000</u>        |
|                             | <u><u>410,000</u></u> | <u><u>260,000</u></u> |

The share capital of Beta Co has remained unchanged since 1 January 20X0. The fair value of the non-controlling interest at acquisition was \$42,000.

- 26.1 What amount should appear in the group's consolidated statement of financial position at 31 December 20X2 for goodwill?

- A \$52,000
- B \$80,000
- C \$122,000
- D \$212,000

(2 marks)

- 26.2 What amount should appear in the group's consolidated statement of financial position at 31 December 20X2 for non-controlling interest?

- A \$49,000
- B \$58,000
- C \$51,000
- D \$42,000

(2 marks)

- 26.3 What amount should appear in the group's consolidated statement of financial position at 31 December 20X2 for retained earnings?

- A \$280,000
- B \$291,000
- C \$354,000
- D \$273,000

(2 marks)

- 26.4 Which of the following companies are subsidiaries of Gamma Co?

Zeta Co: Gamma Co owns 51% of the non-voting preference shares of Zeta Co  
Iota Co: Gamma Co has 3 representatives on the board of directors of Iota Co. Each director can cast 10 votes each out of the total of 40 votes at board meetings.

Kappa Co: Gamma Co owns 75% of the ordinary share capital of Kappa Co, however Kappa Co is located overseas and is subject to tax in that country.

- A Zeta Co, Iota Co and Kappa Co
- B Zeta Co and Kappa Co
- C Iota Co and Kappa Co
- D Zeta Co and Iota Co

(2 marks)

**The following information is relevant for questions 26.5 and 26.6.**

Hilton Co acquired 80% of the share capital of Shrew Co on 1 January 20X3 for \$280,000.

The statements of financial position of the two companies at 31 December 20X3 were as follows:

**STATEMENTS OF FINANCIAL POSITION**

|                          | <i>Hilton Co</i> | <i>Shrew Co</i> |
|--------------------------|------------------|-----------------|
|                          | \$               | \$              |
| Sundry assets            | 660,000          | 290,000         |
| Investment in Shrew      | <u>280,000</u>   | <u>–</u>        |
|                          | <u>940,000</u>   | <u>290,000</u>  |
| Issued share capital     | 400,000          | 140,000         |
| Share premium account    | 320,000          | 50,000          |
| <i>Retained earnings</i> |                  |                 |
| As at 1 Jan 20X3         | 140,000          | 60,000          |
| Profit for 20X3          | 80,000           | 40,000          |
|                          | <u>940,000</u>   | <u>290,000</u>  |

There have been no changes in the share capital or share premium account of either company since 1 January 20X3. The fair value of the non-controlling interest on acquisition was \$65,000.

- 26.5 What figure for goodwill on consolidation should appear in the consolidated statement of financial position of the Hilton group at 31 December 20X3?

- A \$30,000
- B \$55,000
- C \$95,000
- D \$(10,000)

(2 marks)

- 26.6 What figure for non-controlling interest should appear in the consolidated statement of financial position of the Hilton group at 31 December 20X3?

- A \$77,000
- B \$85,000
- C \$73,000
- D \$105,000

(2 marks)

- 26.7 Fanta Co acquired 100% of the ordinary share capital of Tizer Co on 1 October 20X7.

On 31 December 20X7 the share capital and retained earnings of Tizer Co were as follows:

|   | \$'000     |
|---|------------|
| Ordinary shares of \$1 each                         | 400        |
| Retained earnings at 1 January 20X7                 | 100        |
| Retained profit for the year ended 31 December 20X7 | 80         |
|   | <u>580</u> |

The profits of Tizer Co have accrued evenly throughout 20X7. Goodwill arising on the acquisition of Tizer Co was \$30,000.

What was the cost of the investment in Tizer Co?

- A \$400,000
- B \$580,000
- C \$610,000
- D \$590,000

(2 marks)

- 26.8 Evergreen Co owns 35% of the ordinary shares of Deciduous. What is the correct accounting treatment of the revenues and costs of Deciduous for reporting period in the consolidated statement of profit or loss of the Evergreen group?

- A The revenues and costs of Deciduous are added to the revenues and costs of Evergreen on a line by line basis.
- B 35% of the profit after tax of Deciduous should be added to Evergreen's consolidated profit before tax.
- C 35% of the revenues and costs of Deciduous are added to the revenues and costs of Evergreen on a line by line basis.
- D The revenues and costs of Deciduous are added to the revenues and costs of Evergreen Co on a line by line basis, then 65% of the profit after tax is deducted so that only Evergreen Co's share remains in the consolidated financial statements.

(2 marks)

- 26.9 Mercedes Co has owned 100% of Benz Co since incorporation. At 31 March 20X9 extracts from their individual statements of financial position were as follows.

|                   | <i>Mercedes Co</i> | <i>Benz Co</i> |
|-------------------|--------------------|----------------|
|                   | \$                 | \$             |
| Share capital     | 100,000            | 50,000         |
| Retained earnings | 450,000            | 120,000        |
|                   | <u>550,000</u>     | <u>170,000</u> |

During the year ended 31 March 20X9, Benz Co had sold goods to Mercedes Co for \$50,000. Mercedes Co still had these goods in inventory at the year end. Benz Co uses a 25% mark up on all goods.

What were the consolidated retained earnings of Mercedes Group at 31 March 20X9?

- A \$560,000
- B \$580,000
- C \$570,000
- D \$557,500

(2 marks)

- 26.10 Micro Co acquired 90% of the \$100,000 ordinary share capital of Minnie Co for \$300,000 on 1 January 20X9 when the retained earnings of Minnie Co were \$156,000. At the date of acquisition the fair value of plant held by Minnie Co was \$20,000 higher than its carrying amount. The fair value of the non-controlling interest at the date of acquisition was \$75,000.

What is the goodwill arising on the acquisition of Minnie Co?

- A \$119,000
- B \$99,000
- C \$139,000
- D \$24,000

(2 marks)

- 26.11 On 1 April 20X7 Possum Co acquired 60% of the share capital of Koala Co for \$120,000. During the year Possum Co sold goods to Koala Co for \$30,000, including a profit margin of 25%. 40% of these goods were still in inventory at the year end.

The following extract was taken from the financial statements of Possum Co and Koala Co at 31 March 20X8.

|               | <i>Possum Co</i> | <i>Koala Co</i> |
|---------------|------------------|-----------------|
|               | \$'000           | \$'000          |
| Revenue       | 750              | 400             |
| Cost of sales | (420)            | (100)           |
| Gross profit  | <u>330</u>       | <u>300</u>      |

What is the consolidated gross profit of the Possum group at 31 March 20X8?

- A \$627,600
- B \$633,000
- C \$622,500
- D \$627,000

(2 marks)

26.12 Which of the following statements is/are incorrect?

- 1 A Co owns 25% of the ordinary share capital of B Co, which means that B Co is an associate of A Co.
  - 2 C Co can appoint 4 out of 6 directors to the board of D Co, which means that C Co has control over D Co.
  - 3 E Co has the power to govern the financial and operating policies of F Co, which means that F Co is an associate of E Co.
  - 4 G Co owns 19% of the share capital of H Co, but by agreement with the majority shareholder, has control over the financial and operating policies of H Co, so H Co is an associate of G Co.
- A 1 and 2 only  
 B 1, 2 and 3 only  
 C 3 and 4 only  
 D 4 only

(2 marks)

26.13 Clementine Co has owned 21% of the ordinary shares of Tangerine Co for several years. Clementine Co does not have any investments in any other companies. How should the investment in Tangerine Co be reflected in the financial statements of Clementine Co?

- A The revenues and costs and assets and liabilities of Tangerine Co are added to the revenues and costs and assets and liabilities of Clementine Co on a line by line basis.
- B An amount is shown in the statement of financial position for 'investment in associate' being the original cost paid for the investment plus Clementine Co's share of the profit after tax of Tangerine Co. 21% of the profit after tax of Tangerine Co should be added to Clementine Co's profit before tax in the statement of profit or loss each year.
- C An amount is shown in the statement of financial position under 'investments' being the original cost paid for the investment, this amount does not change. Dividends received from Tangerine are recognised in the statement of profit or loss of Clementine Co.
- D An amount is shown in the statement of financial position under 'investments' being the original cost paid for the investment, this amount does not change. 21% of the profit after tax of Tangerine Co should be added to Clementine Co's profit after tax in the statement of profit or loss each year.

26.15 P Co, the parent company of a group, owns shares in three other companies. P Co's holdings are:

- Q Shares giving control of 60% of the voting rights in Q Co
- R Shares giving control of 20% of the voting rights in R Co. P Co also has the right to appoint or remove all the directors of R Co
- S Shares giving control of 10% of the voting rights in S Co, plus 90% of the non-voting preference shares

Which of these companies are subsidiaries of P Co?

- A Q Co, R Co and S Co
- B Q Co and S Co only
- C R Co and S Co only
- D Q Co and R Co only

(2 marks)

26.16 Which of the following should be accounted for in the consolidated financial statements of Company A using equity accounting?

- 1 An investment in 51% of the ordinary shares of W Co
  - 2 An investment in 20% of the preference (non-voting) shares of X Co
  - 3 An investment in 33% of the ordinary shares of Y Co
  - 4 An investment in 20% of the ordinary shares of Z Co, and an agreement with other shareholders to appoint the majority of the directors to the board of Z Co
- A 1 and 4 only
  - B 2 only
  - C 3 only
  - D 3 and 4 only

(2 marks)

26.17 Breakspear Co purchased 600,000 of the voting equity shares of Fleet Co when the value of the non-controlling interest in Fleet Co is \$150,000.

The following information relates to Fleet at the acquisition date.

|                                      | <i>At acquisition</i> |
|--------------------------------------|-----------------------|
|                                      | \$'000                |
| Share capital, \$0.5 ordinary shares | 500                   |
| Retained earnings                    | 150                   |
| Revaluation surplus                  | 50                    |
|                                      | <u>700</u>            |

The goodwill arising on acquisition is \$70,000. What was the consideration paid by Breakspear Co for the investment in Fleet Co?

- A \$420,000
- B \$770,000
- C \$620,000
- D \$570,000

(2 marks)

26.18 Date Co owns 100% of the ordinary share capital of Prune Co. The following balances relate to Prune Co.

|                                    | At acquisition<br>\$'000 | At 31.12.X8<br>\$'000 |
|------------------------------------|--------------------------|-----------------------|
| <i>Tangible non-current assets</i> |                          |                       |
| Freehold land                      | 500                      | 500                   |
| Plant and equipment                | 350                      | 450                   |
|                                    | <u>850</u>               | <u>950</u>            |

At acquisition, the fair value of Prune Co's land was \$50,000 more than shown in the financial statements of Prune Co. At 31 December 20X8, Date Co's financial statements show a total tangible non-current asset balance of \$1,250,000.

What amount should be included in the consolidated financial statements of the Date group at 31 December 20X8 for tangible non-current assets?

- A \$2,250,000
- B \$1,000,000
- C \$1,850,000
- D \$2,200,000

(2 marks)

26.19 Six Co owns 80% of the equity share capital of Seven Co. At 31 December 20X4, the trade receivables and trade payables of the two companies were as follows:

|                   | Six Co   | Seven Co |
|-------------------|----------|----------|
| Trade receivables | \$64,000 | \$39,000 |
| Trade payables    | \$37,000 | \$48,000 |

These figures include \$30,000 that is owed by Seven Co to Six Co for the purchase of goods, for which Six Co has not yet paid. These goods were sold by Six Co for a profit of \$15,000 and 50% of them were still held as inventory by Seven Co at 31 December 20X4.

What should be the amounts for trade receivables and trade payables in the consolidated statement of financial position as at 31 December 20X4?

- A Trade receivables \$73,000, Trade payables \$55,000
- B Trade receivables \$88,000, Trade payables \$70,000
- C Trade receivables \$95,000, Trade payables \$77,000
- D Trade receivables \$103,000, Trade payables \$85,000

(2 marks)

26.20 Donna Co acquired 80% of the equity share capital of Blitsen Co on 1 January 20X4 when the retained earnings of Blitsen Co were \$40,000. The fair value of the non-controlling interest at this date was \$25,000. At 31 December 20X4, the equity capital of Blitsen Co was as follows:

|                   | \$'000     |
|-------------------|------------|
| Share capital     | 40         |
| Share premium     | 10         |
| Retained earnings | 60         |
|                   | <u>110</u> |

During the year Blitsen Co sold goods to Donna Co for \$20,000. This price included a mark-up of \$12,000 for profit. At 31 December 20X4, 50% of these goods remained unsold in the inventory of Donna Co.

What is the value of the non-controlling interest in the Donna Group at 31 December 20X4, for the purpose of preparing the consolidated statement of financial position?

- A \$20,800
- B \$27,800
- C \$26,600
- D \$29,000

(2 marks)

26.21 Volcano Co acquired 75% of the equity share capital of Lava Co on 1 September 20X3. The retained profits of the two individual companies at the beginning and end of their financial year were as follows.

|                                       | <i>Volcano Co</i><br>\$'000 | <i>Lava Co</i><br>\$'000 |
|---------------------------------------|-----------------------------|--------------------------|
| Retained earnings at 1 January 20X3   | 596                         | 264                      |
| Retained earnings at 31 December 20X3 | 650                         | 336                      |

What is the parent company's share of consolidated retained earnings that should be reported in the consolidated statement of financial position of the Volcano Group at 31 December 20X3?

- A \$668,000
- B \$674,000
- C \$704,000
- D \$722,000

(2 marks)

26.22 Tin Co acquired 90% of the equity share capital of Drum Co on 1 April 20X3. The following information relates to the financial year to 31 December 20X3 for each company.

|                                       | <i>Tin Co</i><br>\$'000 | <i>Drum Co</i><br>\$'000 |
|---------------------------------------|-------------------------|--------------------------|
| Retained earnings at 1 January 20X3   | 840                     | 170                      |
| Profit for the year                   | 70                      | 60                       |
| Retained earnings at 31 December 20X3 | <u>910</u>              | <u>230</u>               |

Neither company paid any dividends during the year.

What profit is attributable to the parent company in the consolidated statement of profit or loss of the Tin Group for the year to 31 December 20X3?

- A \$83,500
- B \$110,500
- C \$115,000
- D \$124,000

(2 marks)

26.23 Sand Co acquired 80% of the equity share capital of Sun Co several years ago. In the year to 31 December 20X4, Sand Co made a profit after taxation of \$120,000 and Sun Co made a profit after taxation of \$35,000. During the year Sun Co sold goods to Sand Co at a price of \$40,000. The profit mark-up was 40% on the sales price. At 31 December 20X4, 25% of these goods were still held in the inventory of Sand Co.

What profit is attributable to the parent company in the consolidated statement of profit or loss of the Sand Group for the year to 31 December 20X4?

- A \$144,000
- B \$148,000
- C \$144,800
- D \$151,000

(2 marks)

26.24 On 1 August 20X7 Patronic purchased 18 million of the 24 million \$1 equity shares of Sardonic. The acquisition was through a share exchange of two shares in Patronic for every three shares in Sardonic. The market price of a share in Patronic at 1 August 20X7 was \$5.75.

What is the fair value of the consideration transferred for the acquisition of Sardonic?

- A \$103.5 million
- B \$69 million
- C \$155.25 million
- D \$92 million

(2 marks)

26.25 X Co acquired 80% of the equity share capital in Y Co on 31 July 20X6. Extracts from the two companies' statements of profit or loss for the year ended 30 September 20X6 were as follows:

|               | <i>X Co</i><br>\$'000 | <i>Y Co</i><br>\$'000 |
|---------------|-----------------------|-----------------------|
| Revenue       | 3 400                 | 2 400                 |
| Cost of sales | 1 500                 | 1 800                 |

During the year ended 30 September 20X6, Y Co sold goods for \$5 000 each month to X Co, at a mark up of 25%. At the end of the year X Co had 50% of these goods left in inventory.

What is the group gross profit for the year ended 30 September 20X6?

- A      \$1,901,000
- B      \$2,001,000
- C      \$2,004,000
- D      \$1,904,000

**(2 marks)**

## Do you know? – Interpretation of financial statements

Check that you can fill in the blanks in the statements below before you attempt any questions. If in doubt, you should go back to your BPP Interactive Text and revise first.

- Users of financial statements can gain a better understanding of the **s**..... of the information in financial statements by comparing it with other **r**..... information.
- Ratios provide information through .....
- **P**..... ratios include:
  - Return on capital employed
  - Net ..... as a percentage of sales
  - ..... turnover ratio
  - **G**..... profit as a percentage of sales
- Liquidity and working capital ratios include:
  - ..... ratio
  - ..... ratio
  - Accounts ..... collection period
  - Accounts ..... payment period
  - ..... inventory ..... period
- Debt and **g**..... /leverage ratios include:
  - Debt ratios
  - **G**..... ratio/leverage
  - **I**..... cover

## Did you know? – Interpretation of financial statements

Could you fill in the blanks? The answers are in bold. Use this page for revision purposes as you approach the exam.

- Users of financial statements can gain a better understanding of the **significance** of the information in financial statements by comparing it with other **relevant** information.
- Ratios provide information through **comparison**.
- **Profitability** ratios include:
  - Return on capital employed
  - Net **profit** as a percentage of sales
  - **Asset** turnover ratio
  - **Gross** profit as a percentage of sales
- Liquidity and working capital ratios include:
  - **Current** ratio
  - **Quick** ratio
  - Accounts **receivable** collection period
  - Accounts **payable** payment period
  - **Average** inventory **turnover** period
- Debt and **gearing**/leverage ratios include:
  - Debt ratios
  - **Gearing** ratio/leverage
  - **Interest** cover

**27****15 mark question: interpretation of financial statements****18 mins**

**Exam focus point.** It is unlikely that there would be a 15 mark question solely on interpretation in the exam. However, interpretation could easily form part of a 15 mark question and test the skills covered in this question. Interpretation could also be tested in a multiple-choice question, such as those included in Section 26 of this Kit.

**27.1 Binky and Smokey**

Two companies Binky and Smokey trade in the same market. Their financial statements for the year ended 31 October 20X6 are summarised below:

**STATEMENTS OF PROFIT OR LOSS FOR THE YEAR ENDED 31 OCTOBER 20X6**

|                          | <i>Binky</i><br>\$'000 | <i>Smokey</i><br>\$'000 |
|--------------------------|------------------------|-------------------------|
| Sales revenue            | 284                    | 305                     |
| Cost of sales            | (155)                  | (151)                   |

*Required*

- (a) Calculate the following ratios for Binky and Smokey:

(State the formulae used for calculating the ratios.)

## Profitability ratios

Gross profit percentage

Net profit percentage

Asset turnover ratio

## Liquidity ratios

Current ratio

Quick ratio (acid test ratio)

Receivables collection period

(6 marks)

- (b) Compare and comment on the performance of the companies as indicated by the ratios you have calculated in part (a). (9 marks)  
(15 marks)
- 

**28 Interpretation of financial statements**

26 mins

- 28.1 Which one of the following would help a company with high gearing to reduce its gearing ratio?

- A Making a rights issue of equity shares
- B Issuing further long-term loan notes
- C Making a bonus issue of shares
- D Paying dividends on its equity shares

(2 marks)

- 28.2 A company's gross profit as a percentage of sales increased from 24% in the year ended 31 December 20X1 to 27% in the year ended 31 December 20X2.

Which of the following events is most likely to have caused the increase?

- A An increase in sales volume
- B A purchase in December 20X1 mistakenly being recorded as happening in January 20X2
- C Overstatement of the closing inventory at 31 December 20X1
- D Understatement of the closing inventory at 31 December 20X1

(2 marks)

- 28.3 Which of the following transactions would result in an increase in capital employed?

- A Selling inventory at a profit
- B Writing off a bad debt
- C Paying a payable in cash
- D Increasing the bank overdraft to purchase a non-current asset

(2 marks)

- 28.4 From the following information regarding the year to 31 August 20X6, what is the accounts payable payment period? You should calculate the ratio using purchases as the denominator.

|  | \$     |
|--|--------|
| Sales                                    | 43,000 |
| Cost of sales                            | 32,500 |
| Opening inventory                        | 6,000  |
| Closing inventory                        | 3,800  |
| Trade accounts payable at 31 August 20X6 | 4,750  |

- A 40 days
- B 50 days
- C 53 days
- D 57 days

(2 marks)

**The following information is relevant for questions 28.5 to 28.7.**

Quality Co are drafting their financial statements. An extract from their draft statement of financial position at 31 March 20X8 is set out below.

|                               | \$         | \$          |
|-------------------------------|------------|-------------|
| Non-current assets            |            | 450         |
| Current assets: Inventory     | 65         |             |
| Receivables                   | 110        |             |
| Prepayments                   | 30         |             |
|                               | <u>205</u> |             |
| Current liabilities: Payables | 30         |             |
| Bank overdraft (Note)         | 50         |             |
|                               | <u>80</u>  |             |
|                               |            | 125         |
| Non-current liability: Loan   |            | 575         |
|                               |            | <u>(75)</u> |
| Ordinary share capital        |            | 500         |
| Statement of profit or loss   |            | <u>400</u>  |
|                               |            | 100         |
|                               |            | <u>500</u>  |

Note: The bank overdraft first occurred on 30 September 20X7.

- 28.5 What is the gearing of the company? You should calculate gearing using capital employed as the denominator.

- A 13%
- B 16%
- C 20%
- D 24%

**(2 marks)**

- 
- 28.6 What is the quick ratio of the company?

- A 1.75
- B 2.56
- C 2.88
- D 3.20

**(2 marks)**

- 
- 28.7 What is the current ratio of the company?

- A 1.75
- B 2.56
- C 2.88
- D 3.20

**(2 marks)**

- 
- 28.8 Which of the following is a ratio which is used to measure how much a business owes in relation to its size?

- A Asset turnover
- B Profit margin
- C Gearing
- D Return on capital employed

**(2 marks)**

- 
- 28.9 A business operates on a gross profit margin of  $33\frac{1}{3}\%$ . Gross profit on a sale was \$800, and expenses were \$680.

What is the net profit margin?

- A 3.75%
- B 5%
- C 11.25%
- D 22.67%

**(2 marks)**

28.10 A company has the following details extracted from its statement of financial position:

|                | \$'000 |
|----------------|--------|
| Inventories    | 1,900  |
| Receivables    | 1,000  |
| Bank overdraft | 100    |
| Payables       | 1,000  |

The industry the company operates in has a current ratio norm of 1.8. Companies who manage liquidity well in this industry have a current ratio lower than the norm.

Which of the following statements accurately describes the company's liquidity position?

- A Liquidity appears to be well managed as the bank overdraft is relatively low
- B Liquidity appears to be poorly-controlled as shown by the large payables balance
- C Liquidity appears to be poorly-controlled as shown by the company's relatively high current ratio
- D Liquidity appears to be poorly-controlled as shown by the existence of a bank overdraft

(2 marks)

28.11 Why is analysis of financial statements carried out?

- A So that the analyst can determine a company's accounting policies
- B So that the significance of financial statements can be better understood through comparisons with historical performance and with other companies
- C To get back to the 'real' underlying figures, without the numbers being skewed by the requirements of International Financial Reporting Standards
- D To produce a report that can replace the financial statements, so that the financial statements no longer need to be looked at

## 29 Mixed bank 1

46 mins

29.1 The following information is available for a sole trader who keeps no accounting records:

|                                     | \$      |
|-------------------------------------|---------|
| Net business assets at 1 July 20X4  | 186,000 |
| Net business assets at 30 June 20X5 | 274,000 |

During the year ended 30 June 20X5:

|  |        |
|--|--------|
| Cash drawings by proprietor  | 68,000 |
| Additional capital introduced by proprietor  | 50,000 |
| Business cash used to buy a car for the proprietor's wife, who takes no part in the business | 20,000 |

Using this information, what is the trader's profit for the year ended 30 June 20X5?

- A \$126,000
- B \$50,000
- C \$86,000
- D \$90,000

(2 marks)

- 29.2 Evon, a limited liability company, issued 1,000,000 ordinary shares of 25 cents each at a price of \$1.10 per share, all received in cash.

What should be the accounting entries to record this issue?

|   |         |                   |             |
|---|---------|-------------------|-------------|
| A | Debit:  | Cash              | \$1,100,000 |
|   | Credit: | Share capital     | \$250,000   |
|   | Credit: | Share premium     | \$850,000   |
| B | Debit:  | Share capital     | \$250,000   |
|   | Debit:  | Share premium     | \$850,000   |
|   | Credit: | Cash              | \$1,100,000 |
| C | Debit:  | Cash              | \$1,100,000 |
|   | Credit: | Share capital     | \$1,100,000 |
| D | Debit:  | Cash              | \$1,100,000 |
|   | Credit: | Share capital     | \$250,000   |
|   | Credit: | Retained earnings | \$850,000   |

(2 marks)

- 29.3 Which of the following statements apply when producing a consolidated statement of financial position?

- (i) All intra-group balances should be eliminated.
- (ii) Intra-group profit in year-end inventory should be eliminated.
- (iii) Closing inventory held by subsidiaries needs to be included at fair value.

- A (i) only
- B (i), (ii) and (iii)
- C (i) and (ii) only
- D (iii) only

(2 marks)

- 29.4 At 1 July 20X4 a limited liability company's capital structure was as follows:

|  | \$      |
|--|---------|
| Share capital 1,000,000 shares of 50c each | 500,000 |
| Share premium account                      | 400,000 |

In the year ended 30 June 20X5 the company made the following share issues:

1 January 20X5:

A bonus issue of one share for every four in issue at that date, using the share premium account.

1 April 20X5

A rights issue of one share for every ten in issue at that date, at \$1.50 per share.

What will be the balances on the company's share capital and share premium accounts at 30 June 20X5 as a result of these issues?

|   | <i>Share capital</i> | <i>Share premium account</i> |
|---|----------------------|------------------------------|
|   | \$                   | \$                           |
| A | 687,500              | 650,000                      |
| B | 675,000              | 375,000                      |
| C | 687,500              | 150,000                      |
| D | 687,500              | 400,000                      |

29.6 A limited liability company's trial balance does not balance. The totals are:

Debit      \$384,030  
Credit      \$398,580

A suspense account is opened for the difference.

Which of the following pairs of errors could clear the balance on the suspense account when corrected?

- A Debit side of cash book undercast by \$10,000; \$6,160 paid for rent correctly entered in the cash book but entered in the rent account as \$1,610.
- B Debit side of cash book overcast by \$10,000; \$1,610 paid for rent correctly entered in the cash book but entered in the rent account as \$6,160.
- C Debit side of cash book undercast by \$10,000; \$1,610 paid for rent correctly entered in the cash book but entered in the rent account as \$6,160.
- D Debit side of cash book overcast by \$10,000; \$6,160 paid for rent correctly entered in the cash book but entered in the rent account as \$1,610.

29.7 Which of the following items could appear in a company's statement of cash flows?

- (i) Surplus on revaluation of non-current assets
- (ii) Repayment of long-term borrowing
- (iii) Bonus issue of shares
- (iv) Interest received

- A (i) and (ii)
- B (iii) and (iv)
- C (i) and (iii)
- D (ii) and (iv)

**(2 marks)**

29.8 The following information is available for Orset, a sole trader who does not keep full accounting records:

|  | \$      |
|--|---------|
| Inventory 1 July 20X4                      | 138,600 |
| 30 June 20X5                               | 149,100 |
| Purchases made for year ended 30 June 20X5 | 716,100 |

Orset makes a standard gross profit of 30 percent on sales.

Based on these figures, what is Orset's sales figure for the year ended 30 June 20X5?

- A \$2,352,000
- B \$1,038,000
- C \$917,280
- D \$1,008,000

(2 marks)

29.9 At 1 July 20X4 a company had prepaid insurance of \$8,200. On 1 January 20X5 the company paid \$38,000 for insurance for the year to 30 September 20X5.

What figures should appear for insurance in the company's financial statements for the year ended 30 June 20X5?

|   | <i>SPLOCI</i> | <i>SOPF</i>         |
|---|---------------|---------------------|
| A | \$27,200      | Prepayment \$19,000 |
| B | \$39,300      | Prepayment \$9,500  |
| C | \$36,700      | Prepayment \$9,500  |
| D | \$55,700      | Prepayment \$9,500  |

29.11 Alpha buys goods from Beta. At 30 June 20X5 Beta's account in Alpha's records showed \$5,700 owing to Beta. Beta submitted a statement to Alpha as at the same date showing a balance due of \$5,200.

Which one of the following could account fully for the difference?

- A Alpha has sent a cheque to Beta for \$500 which has not yet been received by Beta.
- B The credit side of Beta's account in Alpha's records has been undercast by \$500.
- C An invoice for \$250 from Beta has been treated in Alpha's records as if it had been a credit note.
- D Beta has issued a credit note for \$500 to Alpha which Alpha has not yet received.

(2 marks)

29.12 Which of the following statements about intangible assets are correct?

- 1 If certain criteria are met, research expenditure must be recognised as an intangible asset.
  - 2 The notes to the financial statements should disclose the gross carrying amount and the accumulated amortisation at the beginning and the end of the period for each class of intangible asset.
  - 3 Intangible assets must be amortised over their useful life.
- A 2 and 3 only  
 B 1 and 3 only  
 C 1 and 2 only  
 D All three statements are correct.

(2 marks)

29.13 Which of the following material events that took place after the reporting date, but before the financial statements were approved, are non-adjusting when applying IAS 10 *Events after the reporting period*?

- (i) Inventory held at the reporting date was sold for less than cost.
  - (ii) Capital raised by issuing shares at a premium.
  - (iii) A company reorganisation which results in discontinuing a line of activity producing 25% of its profit.
  - (iv) The settlement of a claim for compensation from a former employee wrongly dismissed just before the reporting date.
- A (i) and (ii)  
 B (i), (iii) and (iv)  
 C (i) and (iii) only  
 D (ii) and (iii)

29.14 A company sublets part of its office accommodation. In the year ended 30 June 20X5 cash received from tenants was \$83,700.

Details of rent in arrears and in advance at the beginning and end of the year were:

|              | <i>In arrears</i> | <i>In advance</i> |
|--------------|-------------------|-------------------|
| 30 June 20X4 | \$ 3,800          | 2,400             |
| 30 June 20X5 | 4,700             | 3,000             |

All arrears of rent were subsequently received.

What figure for rental income should be included in the company's statement of profit or loss for the year ended 30 June 20X5?

- A \$84,000  
 B \$83,400  
 C \$80,600  
 D \$85,800

(2 marks)

29.15 At 30 June 20X4 a company's allowance for receivables was \$39,000. At 30 June 20X5 trade receivables totalled \$517,000. It was decided to write off debts totalling \$37,000. The allowance for receivables was to be adjusted to the equivalent of 5 per cent of the trade receivables.

What figure should appear in the statement of profit or loss for these items?

- A \$61,000  
 B \$22,000  
 C \$24,000  
 D \$23,850

(2 marks)

29.16 IAS 2 *Inventories* defines the extent to which overheads are included in the cost of inventories of finished goods.

Which of the following statements about the IAS 2 requirements in this area are correct?

- 1 Finished goods inventories may be valued on the basis of labour and materials cost only, without including overheads.
  - 2 Carriage inwards, but not carriage outwards, should be included in overheads when valuing inventories of finished goods.
  - 3 Factory management costs should be included in fixed overheads allocated to inventories of finished goods.
- A All three statements are correct  
 B 1 and 2 only  
 C 1 and 3 only  
 D 2 and 3 only

**The following information is relevant for questions 30.8 and 30.9.**

A company's draft financial statements for 20X5 showed a profit of \$630,000. However, the trial balance did not agree, and a suspense account appeared in the company's draft statement of financial position. Subsequent checking revealed the following errors:

- (1) The cost of an item of plant \$48,000 had been entered in the cash book and in the plant register as \$4,800. Depreciation at the rate of 10% per year (\$480) had been charged.
- (2) Bank charges of \$440 appeared in the bank statement in December 20X5 but had not been entered in the company's records.
- (3) One of the directors of the company paid \$800 due to a supplier in the company's payables ledger by a personal cheque. The bookkeeper recorded a debit in the supplier's ledger account but did not complete the double entry for the transaction. (The company does not maintain a payables ledger control account).
- (4) The payments side of the cash book had been understated by \$10,000.

- 30.8 Which of the above items would require an entry to the suspense account in correcting them?

- A All four items
  - B 3 and 4 only
  - C 2 and 3 only
  - D 1, 2 and 4 only
- (2 marks)

- 30.9 What would the company's profit become after the correction of the above errors?

- A \$634,760
  - B \$624,760
  - C \$624,440
  - D \$625,240
- (2 marks)

30.10 Which of the following statements are correct?

- 1 A company might make a rights issue if it wished to raise more equity capital.
  - 2 A rights issue might increase the share premium account whereas a bonus issue is likely to reduce it.
  - 3 A bonus issue will generate cash for a company.
  - 4 A rights issue will always increase the number of shareholders in a company whereas a bonus issue will not.
- A 1 and 2  
B 1 and 3  
C 2 and 3  
D 2 and 4

(2 marks)

30.11 Which of the following statements are correct?

- 1 Contingent assets are included as assets in financial statements if it is probable that they will arise.
  - 2 Contingent liabilities must be provided for in financial statements if it is probable that they will arise.
  - 3 Material non-adjusting events are disclosed by note in the financial statements.
- A 1 only  
B 1 and 3  
C 2 and 3  
D 3 only

32.6 A company has occupied rented premises for some years, paying an annual rent of \$120,000. From 1 April 20X6 the rent was increased to \$144,000 per year. Rent is paid quarterly in advance on 1 January, 1 April, 1 July and 1 October each year.

What figures should appear for rent in the company's financial statements for the year ended 30 November 20X6?

|   | <i>SPLOCI</i> | <i>SOFP</i> |        |
|---|---------------|-------------|--------|
|   | \$            | \$          |        |
| A | 136,000       | Prepayment  | 12,000 |
| B | 136,000       | Prepayment  | 24,000 |
| C | 138,000       |             | Nil    |
| D | 136,000       | Accrual     | 12,000 |

(2 marks)

- 32.7 At 1 January 20X6 a company had an allowance for receivables of \$49,000.

At 31 December 20X6 the company's trade receivables were \$863,000 and it was decided to write off balances totalling \$23,000. The allowance for receivables was to be adjusted to the equivalent of 5% of the remaining receivables.

What total figure should appear in the company's statement of profit or loss for receivables expense?

- A \$16,000
- B \$65,000
- C \$30,000
- D \$16,150

(2 marks)

- 32.8 At 1 January 20X6, a company's capital structure was as follows:

|                              | \$        |
|------------------------------|-----------|
| Ordinary share capital       |           |
| 2,000,000 shares of 50c each | 1,000,000 |
| Share premium account        | 1,400,000 |

In January 20X6 the company issued 1,000,000 shares at \$1.40 each.

In September 20X6 the company made a bonus issue of 1 share for every 3 held using the share premium account.

What were the balances on the company's share capital and share premium accounts after these transactions?

|   | <i>Share capital</i> | <i>Share premium</i> |
|---|----------------------|----------------------|
|   | \$                   | \$                   |
| A | 4,000,000            | 800,000              |
| B | 3,200,000            | 600,000              |
| C | 2,000,000            | 1,800,000            |
| D | 2,000,000            | 1,300,000            |

- 32.9 Which of the following statements about the treatment of inventory and work in progress in financial statements are correct?

- 1 Inventory should be valued at the lowest of cost, net realisable value and replacement cost.
  - 2 In valuing work in progress, materials costs, labour costs and variable and fixed production overheads must be included.
  - 3 Inventory items can be valued using either first in, first out (FIFO) or weighted average cost.
  - 4 A company's financial statements must disclose the accounting policies used in measuring inventories.
- A All four statements are correct.
  - B 1, 2 and 3 only
  - C 2, 3 and 4 only
  - D 1 and 4 only

32.10 The plant and equipment account in the records of a company for the year ended 31 December 20X6 is shown below.

PLANT AND EQUIPMENT – COST

| 20X6          | \$               | 20X6                              | \$               |
|---------------|------------------|-----------------------------------|------------------|
| 1 Jan Balance | 960,000          |                                   |                  |
| 1 July Cash   | 48,000           | 30 Sept Transfer disposal account | 84,000           |
|               |                  | 31 Dec Balance                    | 924,000          |
|               | <u>1,008,000</u> |                                   | <u>1,008,000</u> |

The company's policy is to charge depreciation on the straight line basis at 20% per year, with proportionate depreciation in the years of purchase and sale.

What should be the charge for depreciation in the company's statement of profit or loss for the year ended 31 December 20X6?

- A \$184,800
- B \$192,600
- C \$191,400
- D \$184,200

**(2 marks)**

32.11 The trial balance of a company did not balance, and a suspense account was opened for the difference.

Which of the following errors would require an entry to the suspense account in correcting them?

- (1) A cash payment to purchase a motor van had been correctly entered in the cash book but had been debited to the motor expenses account.
- (2) The debit side of the wages account had been undercast.
- (3) The total of the discounts allowed column in the cash book had been credited to the discounts received account.
- (4) A cash refund to a customer had been recorded by debiting the cash book and crediting the customer's account.

- A 1 and 2
- B 2 and 3
- C 3 and 4
- D 2 and 4

**(2 marks)**

32.12 A trader took goods that had cost \$2,000 from inventory for personal use.

Which one of the following journal entries would correctly record this?

|             | Debit | Credit |
|-------------|-------|--------|
|             | \$    | \$     |
| A Drawings  | 2,000 |        |
| Inventory   |       | 2,000  |
| B Purchases | 2,000 |        |
| Drawings    |       | 2,000  |
| C Sales     | 2,000 |        |
| Drawings    |       | 2,000  |
| D Drawings  | 2,000 |        |
| Purchases   |       | 2,000  |

**(2 marks)**

32.13 Nasty is a wholly owned subsidiary of Ugly. Inventories in their individual statements of financial position at the year end are shown as:

|       |          |
|-------|----------|
| Ugly  | \$40,000 |
| Nasty | \$20,000 |

Sales by Ugly to Nasty during the year were invoiced at \$15,000 which included a profit by Ugly of 25% on cost. Two thirds of these goods were included in inventories at the year end.

At what value should inventories appear in the consolidated statement of financial position?

- A \$50,000
- B \$57,000
- C \$57,500
- D \$58,000

(2 marks)

32.14 Where in the financial statements should tax on profit for the current period, and profit for the period, be separately disclosed?

|   | <i>Statement of profit or loss<br/>and other comprehensive income</i> | <i>Statement of changes in equity</i>   |           |
|---|---|---|-----------|
| A | Tax on profit and profit for the period                               | Tax on profit                           |           |
| B | Profit for the period   | Tax on profit and profit for the period |           |
| C | Tax on profit   | Profit for the period                   |           |
| D | Tax on profit and profit for the period                               | Profit for the period                   | (2 marks) |

32.15 When is the reducing balance method of depreciating non-current assets more appropriate than the straight-line method?

- A When the expected life of the asset is short
- B When the asset is expected to decrease in value by a fixed percentage of cost each year
- C When the expected life of the asset is not capable of being estimated accurately
- D When the asset is expected to decrease in value less in later years than in the early years of its life

(2 marks)

32.16 A draft statement of cash flows contains the following:

|   | \$m       |
|---|-----------|
| Profit before tax                         | 22        |
| Depreciation                              | 8         |
| Increase in inventories                   | (4)       |
| Decrease in receivables                   | (3)       |
| Increase in payables                      | (2)       |
| Net cash inflow from operating activities | <u>21</u> |

Which of the following corrections need to be made to the calculation?

- 1 Depreciation should be deducted, not added
- 2 Increase in inventories should be added, not deducted
- 3 Decrease in receivables should be added, not deducted
- 4 Increase in payables should be added, not deducted

- A 1 and 2
- B 1 and 3
- C 2 and 4
- D 3 and 4

32.17 Your inexperienced colleague, Paul Jones, has attempted to extract and total the individual balances in the receivables ledger. He provides you with the following listing which he has prepared.

|                          | \$            |
|--------------------------|---------------|
| Bury Inc                 | 7,500         |
| P Fox & Son (Swindon) Co | 2,000         |
| Frank Wrendlebury & Co   | 4,297         |
| D Richardson & Co        | 6,847         |
| Ultra Co                 | 783           |
| Lawrenson Co             | 3,765         |
| Walkers Inc              | 4,091         |
| P Fox & Son (Swindon) Co | 2,000         |
| Whitchurch Co            | 8,112         |
| Ron Bradbury & Co        | 5,910         |
| Anderson Co              | 1,442         |
|                          | <u>46,747</u> |

Subsequent to the drawing up of the list, the following errors have so far been found.

- (a) A sales invoice for \$267 sent to Whitchurch Co had been correctly entered in the day book but had not then been posted to the account for Whitchurch Co in the receivables ledger.
- (b) One of the errors made by Paul Jones was to omit the \$2,435 balance of Rectofon Co from the list.
- (c) A credit note for \$95 sent to Bury Co had been correctly entered in the day book but was entered in the account in the receivables ledger as \$75.

What is the revised balance of the receivables ledger after correcting these errors?

- A \$45,665
- B \$47,449
- C \$47,429
- D \$45,645

**(2 marks)**

32.18 A payables ledger control account showed a credit balance of \$768,420. The payables ledger balances totalled \$781,200.

Which one of the following possible errors could account in full for the difference?

- A A contra against a receivables ledger debit balance of \$6,390 has been entered on the credit side of the payables ledger control account.
- B The total of discount allowed \$28,400 was entered to the debit of the payables ledger control account instead of the correct figure for discount received of \$15,620.
- C \$12,780 cash paid to a supplier was entered on the credit side of the supplier's account in the payables ledger.
- D The total of discount received \$6,390 has been entered on the credit side of the payables ledger control account.

- 33.1 A firm has the following transactions with its product R.

|                  |                                  |
|------------------|----------------------------------|
| 1 January 20X1   | Opening inventory: nil           |
| 1 February 20X1  | Buys 10 units at \$300 per unit  |
| 11 February 20X1 | Buys 12 units at \$250 per unit  |
| 1 April 20X1     | Sells 8 units at \$400 per unit  |
| 1 August 20X1    | Buys 6 units at \$200 per unit   |
| 1 December 20X1  | Sells 12 units at \$400 per unit |

The firm uses FIFO to value its inventory. What is the inventory value at the end of the year?

- A \$nil
- B \$1,700
- C \$2,400
- D \$2,007.20

**(2 marks)**

- 33.2 Which of the following provides advice to the International Accounting Standards Board (IASB) as well as informing the IASB of the implications of proposed standards for users and preparers of financial statements?

- A The IFRS Advisory Council
- B The IFRS Interpretations Committee
- C The IFRS Foundation
- D The Trustees

**(2 marks)**

- 33.3 Samantha has extracted a trial balance and created a suspense account with a credit balance of \$759 to make it balance.

Samantha found the following:

- 1 A sales invoice for \$4,569 has not been entered in the accounting records.
- 2 A payment of \$1,512 has been posted correctly to the payables control account but no other entry has been made.
- 3 A credit sale of \$131 has only been credited to the sales account.

What is the remaining balance on the suspense account after these errors have been corrected?

- A \$3,810 debit
- B \$2,140 credit
- C \$890 credit
- D \$622 debit

**(2 marks)**

- 33.4 Which of the following errors should be identified by performing a receivables control account reconciliation?

- A A sales invoice of \$500 has been omitted from the sales daybook.
- B A sales return of \$45 was entered as \$54 in the sales returns daybook.
- C Purchases of \$72 were entered as sales returns in the sales returns daybook and the individual account.
- D The total of the sales daybook was miscast by \$200.

**(2 marks)**

- 33.5 Carol had receivables of \$598,600 at 30 November 20X8. Her allowance for receivables at 1 December 20X7 was \$12,460. She wished to change it to the equivalent of 2% of receivables at 30 November 20X8. On 29 November 2008 she received \$635 in full settlement of a debt that she had written off in the year ended 30 November 20X7.

What total amount should be recognised for receivables in the statement of profit or loss for the year ended 30 November 20X8?

- A \$488 credit
- B \$11,972 debit
- C \$1,123 credit
- D \$147 debit

(2 marks)

- 33.6 Joanna has prepared her draft financial statements for the year ended 30 April 20X8, and needs to adjust them for the following items:

- 1 Rent of \$10,500 was paid and recorded on 2 January 20X7 for the period 1 January to 31 December 20X7. The landlord has advised that the annual rent for 20X8 will be \$12,000 although it has not been invoiced or paid yet.
- 2 Property and contents insurance is paid annually on 1 March. Joanna paid and recorded \$6,000 on 1 March 20X8 for the year from 1 March 20X8 to 28 February 20X9.

What should the net effect on profit be in the draft financial statements for the year ended 30 April 20X8 of adjusting for the above items?

- A \$1,000 decrease
- B \$1,500 increase
- C \$1,000 increase
- D \$1,500 decrease

(2 marks)

- 33.7 Carter, a limited liability company, has non-current assets with a carrying amount of \$2,500,000 on 1 December 20X7.

During the year ended 30 November 20X8, the following occurred:

- Depreciation of \$75,000 was charged to the statement of profit or loss.
- Land and buildings with a carrying amount of \$1,200,000 were revalued to \$1,700,000.
- An asset with a carrying amount of \$120,000 was disposed of for \$150,000.
- The carrying amount of non-current assets at 30 November 20X8 was \$4,200,000.

In accordance with IAS7 *Statement of Cash Flows*, what net cash flows from the above transactions would be included within 'net cash flows from investing activities' for the year ended 30 November 20X8?

- A \$(1,395,000)
- B \$(1,365,000)
- C \$150,000
- D \$(1,245,000)

(2 marks)

- 33.8 Steven's receivables ledger control account does not agree with the total of the receivables ledger. He discovered the following errors:

- 1 A sales invoice has been entered into the sales day book as \$895 rather than \$859.
- 2 The receivables column of the cash received day book has been undercast by \$600.
- 3 A contra of \$400 against the purchase ledger has only been entered in the control account.

Which of the above errors would cause a difference between the receivables control account and the total of the receivables ledger?

- A 2 and 3 only
- B 1 and 3 only
- C 1 and 2 only
- D 1, 2 and 3

(2 marks)

- 33.9 Luis sold goods to Pedro in May 20X9 with a list price of \$98,000. Luis allowed a trade discount of 10%. Pedro returned goods with a list price of \$3,000 on 31 May and returned a further \$5,000 of goods at list price on 6 June as they were found to be unsuitable.

How much should Luis record in the sales returns account at 31 May?

- A \$2,700
- B \$3,000
- C \$8,000
- D \$7,200

(2 marks)

- 33.10 A newly-registered company is considering the accounting policies it should adopt.

Policies under consideration are:

- 1 Research and development expenditure should be capitalised and amortised over the years in which the resultant product is sold or used.
- 2 Inventory should be valued at the lower of cost and net realisable value.
- 3 Goodwill arising in a business combination should be written off immediately to the statement of profit or loss.

Which of these possible accounting policies would, if adopted, contravene International Financial Reporting Standards?

- A 1 and 2 only
- B 2 and 3 only
- C 1 and 3 only
- D 1, 2 and 3

(2 marks)

- 33.11 You have recently been appointed as assistant accountant of PQR Co. You have assisted in preparing a forecast set of financial statements for the company whose year end is 31 December 20X7. The forecast shows that the company is expected to make a loss during the year to 31 December 20X7.

The managing director is concerned that the company's shareholders would be unhappy to hear that the company had made a loss. He is determined to avoid making a loss if at all possible. He has made the following suggestions in order to remedy the situation.

- 1 Value inventory using the LIFO basis as prices are rising so this will reduce inventory costs in the statement of profit or loss.
- 2 Create a provision against future losses in case this happens again in the future.
- 3 Stop amortising all capitalised development expenditure.

Which of these suggestions do you agree with?

- A 1 and 2 only
- B 3 only
- C 2 only
- D None of the statements

(2 marks)

33.12 Which of the following journal entries may be accepted as being correct according to their narratives?

|   |  | DR     | CR        |
|---|--|--------|-----------|
|   |  | \$     | \$        |
| 1 | Wages account  | 38,000 |           |
|   | Purchases account  | 49,000 |           |
|   | Buildings account  |        | 87,000    |
|   | Labour and materials used in construction of extension to factory                            |        |           |
| 2 | Directors' personal accounts: A  | 30,000 |           |
|   | B  | 40,000 |           |
|   | Directors' remuneration  |        | 70,000    |
|   | Directors' bonuses transferred to their accounts   |        |           |
| 3 | Suspense account   | 10,000 |           |
|   | Sales account  |        | 10,000    |
|   | Correction of error in addition – total of credit side of sales account \$10,000 understated |        |           |
| A | 1 and 3  |        |           |
| B | 1 and 2  |        |           |
| C | 3 only   |        |           |
| D | 2 and 3  |        | (2 marks) |

33.13 Which of the following costs should be included in valuing inventories of finished goods held by a manufacturing company, according to IAS 2 *Inventories*?

|   |  |  |           |
|---|--|--|-----------|
| 1 | Carriage inwards   |  |           |
| 2 | Carriage outwards  |  |           |
| 3 | Depreciation of factory plant  |  |           |
| 4 | Accounts department costs relating to wages for production employees |  |           |
| A | All four items   |  |           |
| B | 2 and 3 only   |  |           |
| C | 1, 3 and 4 only  |  |           |
| D | 1 and 4 only   |  | (2 marks) |

33.14 Frog acquired 100% of the ordinary share capital of Toad on 1 October 20X7.

On 31 December 20X7 retained earnings of Toad and Frog were as follows:

|   | Frog       | Toad       |
|---|------------|------------|
|   | \$'000     | \$'000     |
| Retained earnings at 1 January 20X7                 | 500        | 100        |
| Retained profit for the year ended 31 December 20X7 | 150        | 60         |
|   | <u>650</u> | <u>160</u> |

The profits of Toad have accrued evenly throughout 20X7.

What figure for retained earnings should be included in the consolidated financial statements of the Frog group at 31 December 20X7?

|   |           |  |           |
|---|-----------|--|-----------|
| A | \$150,000 |  |           |
| B | \$175,000 |  |           |
| C | \$665,000 |  |           |
| D | \$810,000 |  | (2 marks) |

33.15 The following extract is from the statement of profit or loss of Gearing Co for the year ended 30 April 20X8.

|                     |                      |
|---------------------|----------------------|
| Profit before tax   | \$                   |
| Tax                 | 68,000               |
| Profit for the year | <u>(32,000)</u>      |
|                     | <u><u>36,000</u></u> |

In addition to the profit above:

- 1 Gearing Co paid a dividend of \$21,000 during the year.
- 2 A gain on revaluation of land resulted in a surplus of \$18,000.

What total amount will be added to retained earnings at the end of the financial year?

- A \$36,000
- B \$33,000
- C \$47,000
- D \$15,000

(2 marks)

33.16 What does an increase in the allowance for receivables result in?

- A A decrease in current liabilities
- B An increase in net profit
- C An increase in working capital
- D A decrease in working capital

(2 marks)

33.17 A company's telephone bill consists of two elements. One is a quarterly rental charge, payable in advance; the other is a quarterly charge for calls made, payable in arrears. At 1 April 20X9, the previous bill dated 1 March 20X9 had included line rental of \$90. Estimated call charges during March 20X9 were \$80.

During the following 12 months, bills totalling \$2,145 were received on 1 June, 1 September, 1 December 20X9 and 1 March 20Y0, each containing rental of \$90 as well as call charges. Estimated call charges for March 20Y0 were \$120.

What is the amount to be charged to the statement of profit or loss for the year ended 31 March 20Y0?

- A \$2,185
- B \$2,205
- C \$2,155
- D \$2,215

(2 marks)

33.18 Which *three* of the following sets of items all appear on the same side of the trial balance?

- 1 Sales, interest received and accruals
  - 2 Receivables, drawings and discount received
  - 3 Non current assets, cost of sales and carriage outwards
  - 4 Capital, trade payables and other operating expenses
  - 5 Sundry expenses, prepayments and purchases
- A 1, 4 and 5
  - B 1, 3 and 5
  - C 1, 2 and 3
  - D 3, 4 and 5

(2 marks)

33.19 The increase in net assets is \$173, drawings are \$77 and capital introduced is \$45.

What is the net profit for the year?

- A \$295
- B \$205
- C \$51
- D \$141

(2 marks)

33.20 Capital introduced is \$50. Profits brought forward at the beginning of the year amount to \$100 and liabilities are \$70. Assets are \$90.

What is the retained profit for the year?

- A \$130 profit
- B \$130 loss
- C \$10 profit
- D \$10 loss

34.1 If there is a debit balance of \$1,250 on X's account in the books of Y, what does this mean?

- A X owes \$1,250 to Y
- B Y owes \$1,250 to X
- C X has returned goods worth \$1,250 to Y
- D X is owed \$1,250 by Y

(2 marks)

34.2 You are an employee of Exelan Co and have been asked to help prepare the end of year statements for the period ended 30 November 20X9 by agreeing the figure for the total receivables.

The following figures, relating to the financial year, have been obtained from the books of original entry.

|                                 | \$      |
|---------------------------------|---------|
| Purchases for the year          | 361,947 |
| Sales                           | 472,185 |
| Returns inwards                 | 41,226  |
| Returns outwards                | 16,979  |
| Irrecoverable debts written off | 1,914   |
| Discounts allowed               | 2,672   |
| Discounts received              | 1,864   |
| Cheques paid to suppliers       | 342,791 |
| Cheques received from customers | 429,811 |
| Customer cheques dishonoured    | 626     |

You discover that at the close of business on 30 November 20X8 the total of the receivables amounted to \$50,241. What is the balance on the receivables ledger control account at 30 November 20X9?

- A \$47,429
- B \$52,773
- C \$51,257
- D \$48,237

(2 marks)

- 34.3 Sandilands Co uses a computer package to maintain its accounting records. A printout of its cash book for the month of May 20X3 was extracted on 31 May and is summarised below.

|             | \$                  |             | \$                  |
|-------------|---------------------|-------------|---------------------|
| Balance b/d | 546                 | Payments    | 5,966               |
| Receipts    | <u>6,293</u>        | Balance c/d | <u>873</u>          |
|             | <u><u>6,839</u></u> |             | <u><u>6,839</u></u> |

The company's chief accountant provides you with the following information.

- (a) Bank charges of \$630 shown on the bank statement have not been entered in the company's cash book.
- (b) Three standing orders entered on the bank statement have not been recorded in the company's cash book: a subscription for trade journals of \$52, an insurance premium of \$360 and a business rates payment of \$2,172.
- (c) A cheque drawn by Sandilands Co for \$693 and presented to the bank on 26 May has been incorrectly entered in the cash book as \$936.

After correcting the errors above, what is the revised balance on the cash book?

- A \$2,098 debit
  - B \$2,584 debit
  - C \$3,868 credit
  - D \$3,382 credit
- (2 marks)**

- 34.4 A company purchases a machine with an expected useful life of 6 years for \$9,000. After two years of use, management revised the expected useful life to 8 years. The machine is to be depreciated at 30% per annum on the reducing balance basis. A full year's depreciation is charged in the year of purchase, with none in the year of sale. During year 4, it is sold for \$3,000.

What is the profit or loss on disposal?

- A \$1,000 profit
  - B \$87 loss
  - C \$1,410 profit
  - D \$840 profit
- (2 marks)**

- 34.5 Which one of the following does a business aim to ensure by charging depreciation in the financial statements?

- A The cost of non current assets is spread over the accounting periods which benefit from their use.
  - B There are sufficient funds set aside to replace the assets when necessary.
  - C Profits are not understated.
  - D Assets are shown at their realisable value.
- (2 marks)**

- 34.6 A business purchased an asset on 1 January 20X1 at a cost of \$160,000. The asset had an expected life of eight years and a residual value of \$40,000. The straight-line method is used to measure depreciation. The financial year ends on 31 December.

At 31 December 20X3, the estimated remaining life of the asset from that date is now expected to be only three more years, but the residual value is unchanged.

What will be the net book value of the asset as at 31 December 20X3, for inclusion in the statement of financial position?

- A \$97,500
  - B \$100,000
  - C \$107,500
  - D \$115,000
- (2 marks)**

34.7 The debit side of a trial balance totals \$400 more than the credit side.

Which one of the following errors would fully account for the difference?

- A \$200 paid for building repairs has been correctly entered in the cashbook and credited to the building non-current asset account.
- B Discount received \$200 has been debited to the discount allowed account.
- C A receipt of \$400 for commission receivable has been omitted from the records.
- D An invoice for \$400 has been entered into the sales day book but omitted from the receivables ledger.

(2 marks)

34.8 Under IAS 1 *Presentation of financial statements*, which of the following **must** be disclosed on the *face* of the statement of profit or loss and other comprehensive income?

- A Profit before tax
- B Gross profit
- C Revenue
- D Dividends

(2 marks)

34.9 The following bank reconciliation has been prepared:

|  | \$            |
|--|---------------|
| Balance per bank statement (overdrawn) | 73,680        |
| Add: Outstanding lodgements            | 102,480       |
| Less: Unpresented cheques              | (87,240)      |
| Balance per cash book (credit)         | <u>88,920</u> |

Assuming the amounts stated for items other than the cash book balance are correct, what should the cash book balance be?

- A \$88,920 credit (as stated)
- B \$120,040 credit
- C \$58,440 debit
- D \$58,440 credit

(2 marks)

34.10 In relation to statements of cash flows, which, if any, of the following are correct?

- 1 The direct method of calculating net cash from operating activities leads to a different figure from that produced by the indirect method, but this is balanced elsewhere in the statement of cash flows.
  - 2 A company making high profits must necessarily have a net cash inflow from operating activities.
  - 3 Profits and losses on disposals of non-current assets appear as items under cash flows from investing activities in the statement of cash flows or a note to it.
- A Item 1 only
  - B Items 2 and 3
  - C None of the items
  - D All of the items

(2 marks)

34.11 Which of the following items could appear on the credit side of a sales ledger control account?

- 1 Cash received from customers
  - 2 Irrecoverable debts written off
  - 3 Increase in the allowance for receivables
  - 4 Discounts allowed
  - 5 Sales
  - 6 Credits for goods returned by customers
  - 7 Cash refunds to customers
- A 1, 2, 4, and 6  
 B 1, 2, 4 and 7  
 C 3, 4, 5 and 6  
 D 3, 4, 6 and 7

(2 marks)

34.12 A business has compiled the following information for the year ended 31 October 20X2:

|                     | \$      |
|---------------------|---------|
| Opening inventories | 386,200 |
| Purchases           | 989,000 |
| Closing inventories | 422,700 |

The gross profit percentage of sales is 40%

What is the sales revenue for the year?

- A \$1,333,500  
 B \$1,587,500  
 C \$2,381,250  
 D The sales revenue is impossible to calculate from this information.

(2 marks)

34.13 On 30 September 20X1 part of the inventory of a company was completely destroyed by fire.

The following information is available:

- Inventory at 1 September 20X1 at cost \$49,800
- Purchases for September 20X1 \$88,600
- Sales for September 20X1 \$130,000
- Inventory at 30 September 20X1 – undamaged items \$32,000
- Standard gross profit percentage on sales 30%

Based on this information, what is the cost of the inventory destroyed?

- A \$17,800  
 B \$47,400  
 C \$15,400  
 D \$6,400

(2 marks)

34.14 Catt sells goods at a margin of 50%. During the year to 31 March 20X3 the business made purchases totalling \$134,025 and sales totalling \$240,000. Inventories in hand at 31 March 20X3, valued at cost, was \$11,385 higher than the corresponding figure at 1 April 20X2.

What was the cost of the goods Catt had drawn out?

- A \$2,640  
 B \$14,590  
 C \$25,410  
 D \$37,360

(2 marks)

34.15 Thatch plc's current ratio this year is 1.33:1 compared to that of 1.25:1 last year. Which of the following would be possible explanations?

- 1 Thatch made an unusually large sale immediately prior to the year end.
  - 2 Thatch paid its payables earlier than usual out of a bank overdraft.
  - 3 Thatch made an unusually large purchase of goods for cash immediately prior to the year end and these goods remain in inventory.
  - 4 Thatch paid its payables earlier than usual out of a positive cash balance.
- A 1 and 2 only  
 B 2 and 3 only  
 C 1 and 3 only  
 D 1 and 4 only

(2 marks)

34.16 Lexus has owns 60% of voting equity of Nexus. The following information relates to the results of Lexus and Nexus for the year.

|               | <i>Lexus</i><br>\$'000 | <i>Nexus</i><br>\$'000 |
|---------------|------------------------|------------------------|
| Revenue       | 350                    | 150                    |
| Cost of sales | 200                    | 60                     |
| Gross profit  | <u>150</u>             | <u>90</u>              |

During the year, Nexus sold goods to Lexus for \$50,000. Lexus still had 40% of these goods in inventory at the year end. Nexus uses a 25% mark up on all goods.

What were the consolidated sales and cost of sales of the Lexus group at the year end?

|   | <i>Sales</i> | <i>Cost of sales</i> |
|---|--------------|----------------------|
| A | \$500,000    | \$210,000            |
| B | \$500,000    | \$214,000            |
| C | \$450,000    | \$210,000            |
| D | \$450,000    | \$214,000            |

34.17 At 1 July 20X0 the share capital and share premium account of a company were as follows:

|   | \$      |
|---|---------|
| Share capital – 300,000 ordinary shares of 25c each | 75,000  |
| Share premium account                               | 200,000 |

During the year ended 30 June 20X1 the following events took place:

- 1 On 1 January 20X1 the company made a rights issue of one share for every five held, at \$1.20 per share.
- 2 On 1 April 20X1 the company made a bonus (capitalisation) issue of one share for every three in issue at that time, using the share premium account to do so.

What are the correct balances on the company's share capital and share premium accounts at 30 June 20X1?

|   | <i>Share capital</i> | <i>Share premium account</i> |
|---|----------------------|------------------------------|
| A | \$460,000            | \$287,000                    |
| B | \$480,000            | \$137,000                    |
| C | \$120,000            | \$137,000                    |
| D | \$120,000            | \$227,000                    |

(2 marks)

34.18 A statement of cash flows prepared in accordance with IAS 7 *Statement of Cash Flows* opens with the calculation of cash flows from operating activities from the net profit before taxation.

Which of the following lists of items consists only of items that would be ADDED to net profit before taxation in that calculation?

- A Decrease in inventories, depreciation, profit on sale of non-current assets
  - B Increase in trade payables, decrease in trade receivables, profit on sale of non-current assets
  - C Loss on sale of non-current assets, depreciation, increase in trade receivables
  - D Decrease in trade receivables, increase in trade payables, loss on sale of non-current assets

35.11 The payables ledger control account below contains a number of errors:

PAYABLES LEDGER CONTROL ACCOUNT

|   | \$               |   | \$               |
|---|------------------|---|------------------|
| Opening balance (amounts owed to suppliers) | 318,600          | Purchases   | 1,268,600        |
| Cash paid to suppliers                      | 1,364,300        | Contras against debt balances in receivables ledger | 48,000           |
| Purchases returns                           | 41,200           | Discounts received                                  | 8,200            |
| Refunds received from suppliers             | 2,700            | Closing balance                                     | 402,000          |
|   | <u>1,726,800</u> |   | <u>1,726,800</u> |

All items relate to credit purchases.

What should the closing balance be when all the errors are corrected?

- A \$128,200
- B \$509,000
- C \$224,200
- D \$144,600

(2 marks)

35.12 What are the journal entries for an accrual of rent expenses of \$500?

- A Debit prepayments \$500, credit rent \$500
- B Debit accrual \$500, credit rent \$500
- C Debit rent \$500, credit accruals \$500
- D Debit rent \$500, credit prepayments \$500

(2 marks)

35.13 An electrical store and a cake shop both have the same mark up on cost. However, the gross profit margin of the electrical store is significantly higher than that of the cake shop.

Which of the following is a possible reason for this?

- A The cake shop has a higher turnover of inventory than the electrical store.
- B The electrical store takes advantage of trade-discounts for bulk buying.
- C The cake shop has a higher level of wastage of inventory than the electrical store.
- D The cake shop's revenue is increasing, while that of the electrical store is decreasing.

35.14 Analysis of the statement of financial position of Charon for the year ended 20X9 reveals the following relationships:

|                       |       |
|-----------------------|-------|
| Current ratio         | 2:1   |
| Sales: current assets | 5:1   |
| Acid test ratio       | 1.5:1 |

If the sales for the year were \$30 million, what is the value of inventory that will appear in the statement of financial position?

- A \$1.5m
- B \$10.5m
- C \$3.0m
- D \$4.5m

(2 marks)

35.15 Which of the following statements are correct?

- 1 If company A has an investment in company B that gives it control over the company B, then the company B is classified as a subsidiary in the consolidated financial statements of company A.
  - 2 If a company has associates, but not subsidiaries, it will not prepare consolidated financial statements.
  - 3 If a company has a 21% investment in the voting equity of another company, it will account for its investment using the equity method.
- A 1 and 2  
 B 2 and 3  
 C All three statements are correct  
 D None of the statements are correct

(2 marks)

35.16 XYX Co's non-current assets had carrying amounts of \$368,400 and \$485,000 at the beginning and end of the year respectively. Depreciation for the year was \$48,600. Assets originally costing \$35,000, with a carrying amount of \$18,100 were sold in the year for \$15,000.

What were the additions to non-current assets in the year?

- A \$183,300  
 B \$200,200  
 C \$49,900  
 D \$180,200

(2 marks)

35.17 At 1 November 20X9, Telway Co had an allowance for receivables of \$90,000. At 31 October 20X0, its trade receivables were \$1,232,000 of which \$60,000 was identified as unrecoverable and was written off. Telway Co's allowance for receivables has now been adjusted to the equivalent of 5% of remaining trade receivables.

What amount should be recorded in the statement of profit or loss for the receivables expense for the year ended 31 October 20X0?

- A \$58,600 debit  
 B \$28,600 debit  
 C \$31,400 credit  
 D \$118,600 debit

(2 marks)

35.18 Why do we prepare a trial balance?

- A To test the accuracy of the double entry bookkeeping records  
 B To prepare management accounts  
 C To prepare financial statements  
 D To clear the suspense account

(2 marks)

(Total = 36 marks)

## 1 The context and purpose of financial reporting

- 1.1 C The role of the IASB is to develop and publish International Financial Reporting Standards.
- 1.2 B A sole trader does not have any shareholders. The financial statements are unlikely to be of interest to a financial analyst, they are more usually interested in the financial statements of public companies.
- 1.3 B (2) is the IASB's *Conceptual framework* description of the purpose of financial statements. (1) is false – although the supplier needs to know the current situation, the supplier also needs to be able to assess future prospects to ensure the entity has the ability to pay and to support an ongoing relationship.
- 1.4 A (2) is incorrect – shareholders are only liable for the debts of the business up to the amount they have invested in shares, whereas sole traders are liable for all of the debts of the business.
- 1.5 B Corporate governance is the system by which companies and other entities are directed and controlled.
- 1.6 A The responsibility of the financial statements rests with the directors, whether or not those financial statements are audited. Some of the duties of directors are statutory duties, laid down in law, including the duty to act within their powers, promote the success of the company and exercise reasonable skill and care.
- 1.7 B The Statement of Financial Position contains a list of all the assets owned and all the liabilities owed by a business.
- 1.8 C The Statement of Profit or Loss contains a record of income generated and expenditure incurred over a given period.
- 1.9 C Unless a partnership is a limited liability partnership, the partners' individual exposure to debt is not limited because the partnership is not a separate legal entity from the partners themselves. Financial records must be maintained by a partnership, but there is no requirement to make them publicly available unless the partnership is a limited liability partnership.
- 1.10 C All three statements are true.
- 1.11 D The IFRS Advisory Council is a forum for the IASB to consult with the outside world. The IASB produces IFRSs and is overseen by the IFRS Foundation.
- 1.12 B The role of the IASB is to develop and publish international financial reporting standards.
- 1.13 C The IFRS Foundation does not focus primarily on the needs of global, multi-national organisations. One of the objectives of the foundation is to take account of the financial reporting needs of emerging economies and small and medium-sized entities (SMEs).
- 1.14 A One of the ways IFRSs are used is as an international benchmark for those countries which develop their own requirements.

## 2 The qualitative characteristics of financial information

- 2.1 D The business entity concept.
- 2.2 C The accruals concept.
- 2.3 C The materiality concept.
- 2.4 C Information has the quality of faithful representation when it is complete, neutral and free from material error.
- 2.5 D Consistency. To maintain consistency, the presentation and classification of items in the financial statements should stay the same from one period to the next, unless a change is required by an IFRS or unless there is a significant change in the nature of operations or a review of the accounts indicates a more appropriate presentation.

- 2.6 D Relevance and faithful representation.
- 2.7 D Financial information should be complete, neutral and free from error.
- 2.8 A Statement (1) only is correct
- (2) Materiality concerns whether an item in the financial statements can influence users' decisions.
  - (3) Information should be a faithful representation of the economic phenomena it purports to represent. This includes being neutral, ie without bias in the selection or presentation of the financial information. Therefore information must not be manipulated in any way in order to influence the decisions of the users.
- 2.9 C Statement (2) only is correct. Information is material if its omission or misstatement could influence the economic decisions of users taken on the basis of the financial statements.  
Statement 1 describes the opposite of the accruals concept. Statement 3 is also incorrect, faithful representation does not prevent estimates being made.
- 2.10 A Relevance, Faithful representation, Comparability, Verifiability, Timeliness and Understandability.
- 2.11 D The accruals concept is not a qualitative characteristic of financial information.
- 2.12 D Providing information regarding the financial position and performance of a business are primary objectives of financial statements. All classes of users require information for decision making.
- 2.13 D (1) is incorrect, the presentation or classification can be changed if there is a significant change in the nature of operations, if an IFRS requires it or if a review of the accounts indicates a more appropriate presentation. (2) is incorrect, companies should not make provisions in order to smooth profits, provisions should only be made in accordance with IAS 37.

### 3 Double entry bookkeeping I

- 3.1 C  $\text{Assets} - \text{liabilities} = \text{opening capital} + \text{profits} - \text{drawings}$   
Therefore,  $\text{assets} - \text{liabilities} - \text{opening capital} + \text{drawings} = \text{profit}$
- 3.2 B  $\text{Closing capital} - \text{opening capital} = \text{increase (I) in net assets}$ . This means that option B is equivalent to:  

$$P = I + D - C_i$$
  
This is the correct form of the business equation.
- 3.3 D 
$$\begin{aligned} I &= P + C_i - D \\ &= \$72,500 + 8,000 - 2,200 \\ &= \$78,300 \end{aligned}$$
  
Therefore, closing net assets =  $\$(101,700 + 78,300) = \$180,000$ .
- 3.4 B 
$$\begin{aligned} I &= P + C_i - D \\ &= \$35,400 - 6,000 + 10,200 \\ &= \$39,600 \end{aligned}$$
  
Therefore, opening capital = opening net assets =  $\$(95,100 - 39,600) = \$55,500$ .
- 3.5 B The selling price is not relevant to this adjustment.
- 3.6 C This will mean less cash coming into the bank.
- 3.7 A Increase in net assets = Capital introduced + profit – drawings  

$$\begin{aligned} 184,000 - 128,000 &= 50,000 + \text{profit} - 48,000 \\ \text{Profit} &= 56,000 - 50,000 + 48,000 \\ &= \$54,000 \end{aligned}$$

|     |   |                   |       |
|-----|---|-------------------|-------|
| 3.8 | C | Dr Purchases      | \$400 |
|     |   | Dr Trade Payables | \$250 |
|     |   | Cr Cash           | \$650 |

A payment is a credit to the cash account. The payment to J Bloggs is a cash purchase and so the double entry is Dr Purchases, Cr Cash. Remember that the purchase from J Doe has already been recorded as Dr Purchases, Cr Trade Payables, so the payment of cash to clear the invoice should now be recorded as Dr Trade Payables, Cr Cash.

|     |   |                  |       |
|-----|---|------------------|-------|
| 3.9 | A | Dr Receivables   | \$150 |
|     |   | Dr Sales Returns | \$300 |
|     |   | Cr Sales         | \$150 |
|     |   | Cr Cash          | \$300 |

The double entry for the sale of goods on credit is Dr Receivables, Cr Sales \$150. The return of goods previously sold for cash is Dr Sales Returns, Cr Cash \$300.

- 3.10 A A debit note is sent to a supplier with a return of goods. A debit note is in effect a request for a credit note.
- 3.11 B The journal, cash book and sales day book are books of prime entry.
- 3.12 C Debit notes sent to suppliers are recorded in the purchase returns day book.
- 3.13 D Balance carried down from previous period shows debits exceed credits and so it is a debit balance brought down for the new period.
- 3.14 B The opening balance on the ledger is \$14,000 CR, this is the amount that would have appeared in the trial balance at 1 October 20X0.
- 3.15 B Discounts allowed are recorded in the cash book. Credit notes received are to do with returned purchases (not sales). Trade discounts are not recorded, as they are deducted on the sales invoices and only the net sale is recorded.
- 3.16 C A debit records an increase in assets or a decrease in liabilities. A credit records an increase in liabilities and/or capital. Therefore only C is true.
- 3.17 D Remember that only credit purchases are listed in the purchases daybook.
- 3.18 D An imprest system for petty cash helps with management of small cash expenditures and reduces the risk of fraud. The amount paid in to replenish petty cash at the beginning of each period should be the amount of petty cash spending in the previous period, which is the total of expenditures shown by petty cash vouchers for the previous period. The amount of petty cash at any time is the maximum petty cash balance minus the value of the petty cash vouchers for the period.
- 3.19 A The petty cash voucher is a record that cash has been issued for an approved item of expense. The receipt is evidence of the amount of the expense. The petty cash book is used to record the transaction in the book-keeping system.

**4****Double entry bookkeeping II**

4.1 A \$544

**SALES DAY BOOK**

| 20X9  |           |  | \$         |
|-------|-----------|--|------------|
| 1 May | P Dixon   |  | 160        |
| 4 May | M Maguire |  | 80         |
| 5 May | M Donald  |  | 304        |
|       |           |  | <u>544</u> |

4.2 B \$823

## PURCHASES BOOK

|       |               |            |
|-------|---------------|------------|
| 20X9  |               | \$         |
| 2 May | A Clarke (W1) | 323        |
| 4 May | D Daley       | 400        |
| 6 May | G Perkins     | 100        |
|       |               | <u>823</u> |

$$\text{W1} \quad \$380 \times \frac{85}{100} = \$323$$

4.3 C Dr Purchases \$450  
 Dr Trade Payables \$250  
 Cr Purchase Returns \$700

The purchase of goods on credit is recorded as Dr Purchases, Cr Trade payables \$450. The return of goods which were purchased on credit is recorded as Dr Trade Payables, Cr Purchase Returns, combining both entries gives the answer above.

4.4 B Dr Cash  
 Cr Sales  
 Cr Trade Receivables

Cash received is a debit to the cash account. The cash received from R Singh is offset against the trade receivable balance due from R Singh: Dr Cash, Cr Trade Receivables. The cash received from S Kalu is a cash sale: Dr Cash, Cr Sales.

4.5 D Remember the receivables account is a memorandum account.

4.6 D When cash is received by a business, a debit entry is made in the cashbook. A receipt of cash decreases an overdraft and increases a bank balance.

4.7 C

## TRADE PAYABLES ACCOUNT

|              | \$             |             | \$             |
|--------------|----------------|-------------|----------------|
| Cash at bank | 100,750        | Balance b/d | 250,225        |
| Balance c/d  | <u>474,485</u> | Purchases   | <u>325,010</u> |
|              | <u>575,235</u> |             | <u>575,235</u> |

4.8 C Credit sales = \$80,000 – \$10,000 + \$9,000 = \$79,000.

4.9 C A is incorrect as the debits and credits don't equal each other, B is incorrect as the debits and credits are the wrong way round and D are incorrect as the credit purchase has been ignored.

4.10 C You are recording the transaction in Steel Co's books – Steel Co is the seller, so the double entry is Dr receivables, Cr sales \$250.

4.11 A \$22,000

|                   | \$             | \$ |
|-------------------|----------------|----|
| Sales             | 40,000         |    |
| Returns inwards   | (2,000)        |    |
|                   | <u>38,000</u>  |    |
| Opening inventory | 3,000          |    |
| Purchases         | 20,000         |    |
| Returns outwards  | (4,000)        |    |
| Closing inventory | <u>(3,000)</u> |    |
|                   | (16,000)       |    |
| Gross profit      | <u>22,000</u>  |    |

4.12 A The receivables allowance is deducted from trade receivables and the net figure of \$71,192 (\$75,943 – \$4,751) is reported in the statement of financial position.

4.13 B Assets are represented by debit balances.

4.14 C The two balances must be separately disclosed.

4.15 D The debits are as follows:

|                    | \$             |
|--------------------|----------------|
| Opening inventory  | 9,649          |
| Purchases          | 142,958        |
| Expenses           | 34,835         |
| Non-current assets | 63,960         |
| Receivables        | 31,746         |
| Cash at bank       | 1,783          |
|                    | <u>284,931</u> |

4.16 A  $(5,754 + 11,745 + 150)$

4.17 C No system can prevent a transaction being processed inaccurately, for example being posted to an incorrect but valid account code (although an effective system can reduce the likelihood of this).

4.18 B Cash purchases are recorded in the cash book. The sales day book lists invoices sent to customers, not invoices received from suppliers.

## 5 Sales tax

5.1 D A, B and C could all be reasons why the output tax does not equal 20% of sales. D is incorrect as it makes no difference whether the customer is registered for sales tax or not.

5.2 B SALES TAX CONTROL ACCOUNT

|                                      | \$            |   | \$            |
|--------------------------------------|---------------|---|---------------|
|                                      |               | b/d                                       | 4,540         |
| Purchases ( $\$64,000 \times 15\%$ ) | 9,600         | Sales ( $\$109,250 \times 15\% / 115\%$ ) | 14,250        |
| ∴ Cash                               | <u>11,910</u> | c/d                                       | <u>2,720</u>  |
|                                      | <u>21,510</u> |   | <u>21,510</u> |

5.3 D Dr Purchases \$575 and Cr Payables \$575.

Alana is not registered for sales tax purposes and therefore cannot reclaim the input sales tax of \$75.

5.4 A \$7,000

SALES TAX CONTROL ACCOUNT

|                                      | \$            |   | \$            |
|--------------------------------------|---------------|---|---------------|
| Purchases ( $\$65,000 \times 20\%$ ) | 13,000        | Sales ( $\$120,000 \times 20\% / 120\%$ ) | 20,000        |
| ∴ Paid to tax authority              | <u>7,000</u>  |   |               |
|                                      | <u>20,000</u> |   | <u>20,000</u> |

5.5 D

|   | \$           |
|---|--------------|
| <i>Assets</i>                               |              |
| Opening cash                                | 1,000        |
| Cash received \$(1,000 + 200 sales tax)     | <u>1,200</u> |
| Closing cash                                | 2,200        |
| Inventory \$(800 – 400)                     | 400          |
|   | <u>2,600</u> |
| <i>Liabilities</i>                          |              |
| Opening liabilities                         | –            |
| Sales tax payable \$(200 – 160)             | 40           |
| Purchase inventory \$(800 + 160 sales tax)  | <u>960</u>   |
| Closing liabilities                         | 1,000        |
| <i>Capital</i>                              |              |
| Opening capital                             | 1,000        |
| Profit on sale of inventory \$(1,000 – 400) | 600          |
| Closing capital                             | <u>1,600</u> |

5.6 A Receivables and payables include sales tax where applicable.

5.7 B The sales tax element of the invoices will go to the sales tax account in the statement of financial position.

5.8 B

|   | \$              |
|---|-----------------|
| Output sales tax \$27,612.50 × $\frac{17.5}{117.5}$ | 4,112.50        |
| Input sales tax \$18,000 × $\frac{17.5}{100}$       | <u>3,150.00</u> |
| ∴ Balance on sales tax a/c (credit)                 | <u>962.50</u>   |

## 6 Inventory

6.1 A  $950,000 - 11,750 + 1,500 + (14,950 \times 100/115) = \$952,750$ 

6.2 C Carriage outwards and storage are distribution costs.

6.3 A

|                          | \$             |
|--------------------------|----------------|
| Original value           | 284,700        |
| Coats – Cost 400 × \$80  | (32,000)       |
| – NRV (\$75 × 95%) × 400 | 28,500         |
|                          | <u>281,200</u> |

At 31 January 20X3 the skirts were correctly valued at costs incurred to date of \$20 per skirt which was lower than the NRV of \$22. Therefore no adjustment required.

6.4 A

|             | \$             |
|-------------|----------------|
| 50 @ \$190  | 9,500          |
| 500 @ \$220 | 110,000        |
| 300 @ \$230 | 69,000         |
|             | <u>188,500</u> |

6.5 C Statement 1) inventory should be valued at the lower of cost and NRV not the higher  
Statement 2) production overheads based on a normal level of production should be included

6.6 D

|                                 | \$             |
|---------------------------------|----------------|
| Inventory check balance         | 483,700        |
| Less: goods from suppliers      | (38,400)       |
| Add: goods sold                 | 14,800         |
| Less: goods returned            | (400)          |
| Add: goods returned to supplier | 1,800          |
|                                 | <u>461,500</u> |

6.7 C If closing inventory is understated, cost of sales will be overstated. Next year opening inventory will be understated and cost of sales will be understated.

|  | \$             |
|--|----------------|
| Inventory count, 4 January 20X2                          | 527,300        |
| Purchases since end of year                              | (7,900)        |
| Cost of sales since end of year ( $15,000 \times 60\%$ ) | 9,000          |
| Purchase returns since end of year                       | 800            |
| Inventory at 31 December 20X1                            | <u>529,200</u> |

6.9 A Trade discounts should be deducted but not settlement discounts. IAS 2 does not allow the use of LIFO. Production overheads are part of the costs of conversion of finished goods and do form part of the valuation.

6.10 B

|  | \$            |
|--|---------------|
| Original inventory valuation           | 41,875        |
| Cost of damaged items                  | (1,960)       |
| NRV of damaged items ( $1,200 - 360$ ) | 840           |
|  | <u>40,755</u> |

6.11 B

|        | Cost | Net<br>realisable value | Lower of<br>cost & NRV | Units | Value        |
|--------|------|-------------------------|------------------------|-------|--------------|
|        | \$   | \$                      | \$                     |       | \$           |
| Basic  | 6    | 8                       | 6                      | 200   | 1,200        |
| Super  | 9    | 8                       | 8                      | 250   | 2,000        |
| Luxury | 18   | 10                      | 10                     | 150   | 1,500        |
|        |      |                         |                        |       | <u>4,700</u> |

6.12 C \$2,950 (10 units @\$45 and 50 units @\$50)

6.13 C

6.14 C

|   | \$             |
|---|----------------|
| Line 1: $(400 \times \$3) - \$200$            | 116,400        |
| Line 2: $(200 \times \$35) - \$300 - \$1,200$ | 1,000          |
|   | 5,500          |
|   | <u>122,900</u> |

6.15 A

|                                       | \$             |
|---------------------------------------|----------------|
| Inventory count value                 | 836,200        |
| Less: purchases                       | (8,600)        |
| Add: sales ( $14,000 \times 70/100$ ) | 9,800          |
| Add: goods returned                   | 700            |
| Inventory figure                      | <u>838,100</u> |

- 6.16 B The cost of materials used should be based on opening and closing valuations of inventory at AVCO.

|                         | \$             |
|-------------------------|----------------|
| Opening inventory       | 56,200         |
| Purchases               | 136,500        |
|                         | <u>192,700</u> |
| Less: Closing inventory | (59,800)       |
| Cost of materials used  | <u>132,900</u> |

- 6.17 C Continuous inventory reduces the need for physical inventory counts, but in practice periodic counts are needed to ensure that the recorded quantities of inventory match the physical quantities that are held (and, for example, there have not been significant losses of inventory due to theft).

- 6.18 B

| Date     | Units     | Unit cost   | Cost of issues \$ | Balance in inventory \$ |
|----------|-----------|-------------|-------------------|-------------------------|
| 1 March  | 50        | \$40        |                   | 2,000                   |
| 17 March | <u>50</u> | <u>\$50</u> |                   | <u>2,500</u>            |
|          | 100       | \$45*       |                   | 4,500                   |
| 31 March | – 60      | \$45        | 2,700             |                         |
|          | <u>40</u> | <u>\$45</u> |                   | <u>1,800</u>            |

\* 4,500 / 100

- 6.19 B Price per unit under periodic weighted average cost:

$$\begin{aligned}
 &= \text{Total cost} / (\text{opening quantity} + \text{total quantity received}) \\
 &= (\$300 \times 10) + (\$250 \times 12) + (\$200 \times 6) / (0 + 10 + 12 + 6) \\
 &= \$257.14 \text{ per unit.}
 \end{aligned}$$

Valuation of closing inventory of 8 units  $(10+12-8+6-12) \times \$257.14 = \$2,057.12$

## 7 Tangible non-current assets I

- 7.1 A It is **never** B as funds are not set aside, nor C, this is revaluation, nor D – depreciation has nothing to do with the wearing out of assets, depreciation is an application of the matching concept and allocates the cost of the asset over the accounting periods expected to benefit from its use.

- 7.2 C An internal control to ensure information relating to non-current assets in the nominal ledger and the financial statements is correct.

- 7.3 D

|  |               |
|--|---------------|
|  | \$            |
| Balance b/d  | 67,460        |
| Less: Carrying amount of non-current asset sold<br>(4,000 + 1,250) | 5,250         |
|  | <u>62,210</u> |

- 7.4 A If disposal proceeds were \$15,000 and profit on disposal is \$5,000, then carrying amount must be \$10,000, the difference between the asset register figure and the non-current asset account in the nominal ledger.

- 7.5 A An expense has been posted as a non-current asset.

- 7.6 B Assets which are intended to be used by the business on a continuing basis, including both tangible and intangible assets that do not meet the IASB definition of a current asset.

|       |  |               |

|                               | \$            |             | \$            |
|-------------------------------|---------------|-------------|---------------|
| Plant and machinery disposals | <u>35,000</u> | Balance b/d | <u>35,000</u> |

#### PLANT AND MACHINERY DISPOSALS

|                             | \$             |                          | \$             |
|-----------------------------|----------------|--------------------------|----------------|
| Plant and machinery account | 100,000        | Accumulated depreciation | 35,000         |
|                             |                | Cash                     | 50,000         |
|                             |                | SPL (loss on sale)       | 15,000         |
|                             | <u>100,000</u> |                          | <u>100,000</u> |

7.15 B IAS 16 does not require the purchase date of each asset to be disclosed. The carrying amount of an asset = cost/valuation – accumulated depreciation. The useful life of an asset is determined upon acquisition and should be reviewed at least annually and depreciation rates adjusted for the current and future periods if expectations vary significantly from the original estimates. When an asset is revalued, IAS 16 permits entities to make a transfer from the revaluation surplus to retained earnings of the excess depreciation arising due to the revaluation.

7.16 B The depreciation charge is calculated based on the remaining useful life at the date of the revaluation:  $1,000,000/20$  years = \$50,000

7.17 A The excess depreciation is the new depreciation amount of \$50,000 less the old depreciation charge of \$30,000 ( $\$750,000/25$  years) which is \$20,000. This amount should be debited

from the revaluation surplus and credited to retained earnings each year. Remember that both retained earnings and the revaluations surplus are credit balances in the trial balance.

- 7.18 C The disclosure requirements in IAS 16 are comprehensive, particularly in relation to revalued assets.
- 7.19 D The reconciliation should show the movement on the non-current asset balance and include the following:
- Additions
  - Disposals
  - Increases/decreases from revaluations
  - Reductions in carrying amount
  - Depreciation
  - Any other movements.

## 8 Tangible non-current assets II

8.1 B

|                    | \$                |
|--------------------|-------------------|
| Cost               | 10,000            |
| 20X0 Depreciation  | <u>2,500</u>      |
|                    | 7,500             |
| 20X1 Depreciation  | <u>1,875</u>      |
|                    | 5,625             |
| 20X2 Depreciation  | <u>1,406</u>      |
|                    | 4,219             |
| 20X3 Part exchange | <u>5,000</u>      |
| Profit             | <u><u>781</u></u> |

8.2 A

|  | \$              | \$                    |
|--|-----------------|-----------------------|
| Carrying amount at 1 <sup>st</sup> August 20X0 | 200,000         |                       |
| Less depreciation                              | (20,000)        |                       |
| Proceeds                                       | 25,000          |                       |
| Loss   | <u>5,000</u>    |                       |
| Therefore carrying amount                      | <u>(30,000)</u> |                       |
|  |                 | <u><u>150,000</u></u> |

8.3 B

|        |                               |          |
|--------|-------------------------------|----------|
| DEBIT  | Property, plant and equipment | \$38,000 |
| CREDIT | Plant repairs                 | \$38,000 |
| DEBIT  | Dep'n expense                 | \$1,900  |
| CREDIT | Accumulated dep'n             | \$1,900  |

Profit is understated by \$38,000 – \$1,900 = \$36,100

8.4 B

$$\frac{\$30,000 - \$6,000}{4 \text{ years}} \times \frac{5 \text{ months}}{12 \text{ months}} = \$2,500$$

8.5 B

$$\text{Revaluation surplus} - (1,000,000 - (800,000 - (800,000 \times 2\% \times 10))) = \$360,000$$

$$\text{Depreciation charge} - (1,000,000/40) = \$25,000$$

8.6 D

Improvements are capital expenditure, repairs and maintenance are not.

8.7 C

An illuminated sign advertising the business name will provide long-term benefits for the business and is therefore a non-current asset, ie capital expenditure. A replacement for a broken window is a repair, so it is revenue expenditure. Repainting the restaurant is a repair and renewal expense so it would be likely to be treated as revenue expenditure. Cleaning of the kitchen floors is a maintenance cost and therefore is revenue expenditure.

8.8 A

Number plates, radio and delivery costs are included in the capital cost of acquiring the car. Road tax is an annual charge against revenue.

8.9 B

|                           | \$            |
|---------------------------|---------------|
| Water treatment equipment | 39,800        |
| Delivery                  | 1,100         |
|                           | <u>40,900</u> |

8.10 C A is a receivable, B and D are inventory.

8.11 C Items (i) and (ii) are non-current assets. Only item (iii) is a current asset.

8.12 C Assets which are expected to be converted into cash in the short term.

8.13 C To record the purchase of the asset:

Dr Non-current assets – cost \$15,000

Cr Payables \$15,000

Depreciation charge is  $15,000 \times 15\% \times 2/12 = \$375$ 

8.14 D \$585,000

The revaluation surplus at 30 June 20Y8 was \$600,000 (\$1,600k – \$1,000k). The old depreciation charge was \$25,000 (\$1,250,000/50 years) per year. The new depreciation charge is \$40,000 (\$1,600,000/40 years), so the excess depreciation is \$15,000 per year. The balance on the revaluation surplus is therefore \$600,000 – \$15,000 = \$585,000 at 30 June 20Y9.

8.15 D

|   | \$         |
|---|------------|
| Carrying amount at disposal (15,000 – 10,000) | 5,000      |
| Trade-in allowance                            | 5,500      |
| Profit on disposal                            | <u>500</u> |

8.16 B \$52,500

Carrying amount at 1.1.X3 =  $100,000 - (100,000 \times 2/5) = \$60,000$ New depreciation charge = Carrying amount/Revised useful life =  $\$60,000/8 \text{ years} = \$7,500$ Carrying amount at 31.12.X3 =  $\$60,000 - \$7,500 = \$52,500$ 

8.17 A \$7,000

Carrying amount at 1.10.X8:  $34,000 - ((34,000 - 4,000) \times 3/5) = \$16,000$ 

Revised depreciation charge: (Carrying amount – revised residual value)/remaining useful life

$$= (16,000 - 2,000)/2 = \$7,000.$$

8.18 A

|                             |         |
|-----------------------------|---------|
| Dr Depreciation charge      | \$6,000 |
| Cr Accumulated depreciation | \$6,000 |

8.19 B In the 5 years to 31 December 20X5, accumulated depreciation on the building is \$1,600,000  $\times 2\% \times 5 \text{ years} = \$160,000$ .

On revaluation on 1 January 20X6:

|                                  | Debit   | Credit  |
|----------------------------------|---------|---------|
|                                  | \$      | \$      |
| Building (2,250,000 – 1,600,000) | 650,000 |         |
| Accumulated depreciation         | 160,000 |         |
| Revaluation surplus              |         | 810,000 |

The annual depreciation charge from 1 January 20X6 =  $\$2,250,000/45 \text{ years remaining} = \$50,000$ . This is \$18,000 more than the annual depreciation charge based on the historical cost of the asset.

This excess depreciation charge is transferred each year from revaluation surplus to retained earnings, and the revaluation surplus at 31 December 20X6 =  $\$810,000 - \$18,000 = \$792,000$ .

- 8.20 A Annual depreciation was initially \$1,000,000/50 years = \$20,000.  
After revaluation, annual depreciation is \$1,200,000/48 years = \$25,000.

|   | \$                |
|---|-------------------|
| Valuation, 1 January 20X5                         | 1,200,000         |
| Accumulated depreciation to 30 June 20X5          | (6/12 × \$25,000) |
| Carrying amount at 30 June 20X5                   | <u>1,187,500</u>  |
| Sale/disposal price                               | 1,195,000         |
| Profit on disposal in statement of profit or loss | 7,500             |

Note: The balance on the revaluation surplus at 30 June will be transferred to realised profits (retained profits reserve), but this will not be reported as profit in the statement of profit or loss.

## 9 Intangible non-current assets

- 9.1 B There is no requirement that development expenditure should be amortised over a period not exceeding five years.
- 9.2 C 1 Development expenditure must be capitalised if the criteria are met.  
3 There is no time scale given by IAS 38 for amortisation.
- 9.3 C Development costs are amortised over the useful life of the project. This is not confined to five years.
- 9.4 A 3 only.
- 9.5 B A factory is a tangible asset as it has physical form. The others are intangible assets.
- 9.6 A Research expenditure is never capitalised.
- 9.7 D Research expenditure is never capitalised.
- 9.8 A Research expenditure is never capitalised, development expenditure is capitalised if it meets certain conditions per IAS 38. Intangible assets are amortised over their useful life, if the life of the asset is indefinite, then it does not have to be amortised.
- 9.9 A \$123,000. Research expenditure \$103,000 + depreciation of development costs \$20,000.
- 9.10 A \$219,000. Development costs b/f \$180,000 + additions on project 910 \$59,000 – depreciation \$20,000.
- 9.11 C The patent should be amortised over its useful life of 10 years.  $(250,000 / 10) = \$25,000$
- 9.12 B The amortisation charge is \$15,000/3 years = \$5,000 per annum. The double entry to record the amortisation is Dr expenses, Cr accumulated amortisation.
- 9.13 A Amortisation is an application of the matching concept and allocates the cost of the intangible asset over its useful life (over the accounting periods expected to benefit from its use).
- 9.14 C A patent has no physical substance and provides future economic benefits; it is therefore an intangible non-current asset.
- Computer hardware is a tangible non-current asset as it is physical in substance and provides future economic benefits.
- Operating software that operates the computer hardware on first glance may appear to be an intangible non-current asset. However since it is an integral part of the computer hardware (which could not function without it) it is classed as part of the computer hardware.
- A building extension has physical substance and provides future economic benefits and is therefore a tangible non-current asset.

## 10 Accruals and prepayments

|  |                |                                |
|--|----------------|--------------------------------|

|                 |  |               |             | <u>1,400</u> |
|                 |  |               |             | <u>2,100</u> |
|                 |  |               |             | <u>2,000</u> |
|                 |  |               |             | <u>600</u>   |
|                 |  |               |             | <u>7,400</u> |

## GAS ACCOUNT

|             |         | \$           |             | \$           |
|-------------|---------|--------------|-------------|--------------|
|             |         | 28 February  | invoice     | 1,300        |
| 31 May      | invoice | 1,400        |             |              |
| 31 August   | invoice | 2,100        |             |              |
| 30 November | invoice | 2,000        | 30 November | SPL          |
|             |         | <u>6,800</u> |             | <u>6,800</u> |
|             |         |              |             | <u>6,800</u> |

10.9 A

$$\frac{5 \text{ months}}{12 \text{ months}} \times \$24,000 = \$10,000$$

$$\frac{7 \text{ months}}{12 \text{ months}} \times \$30,000 = \$17,500$$

Total rent: \$10,000 + \$17,500 = \$27,500

10.10 D

## RENTAL INCOME ACCOUNT

|                                | \$                 |        | \$                      |                |
|--------------------------------|--------------------|--------|-------------------------|----------------|
|                                | Opening rent owing | 16,900 | Opening rent in advance | 24,600         |
| Rent income (balancing figure) | 316,200            |        | Cash received           | 318,600        |
| Closing rent in advance        | <u>28,400</u>      |        | Closing rent owing      | <u>18,300</u>  |
|                                | <u>361,500</u>     |        |                         | <u>361,500</u> |

10.11 A

Statement of profit or loss and other comprehensive income =  $\$60,000 \times 12/18 = \$40,000$

Statement of financial position =  $\$60,000 \times 3/18$  prepayment = \$10,000

10.12 A

An accrual should be made for \$10,000 (\$30,000/3 months). The double entry to record the accrual in the accounts is:

Dr Expenses (SPL) \$10,000

Cr Accruals (SOFP) \$10,000

This reduces profit from \$25,000 to \$15,000

An accrual is a liability and so will reduce the net asset position, from \$275,000 to \$265,000. Remember that net assets = assets – liabilities.

10.13 B

|               |                |
|---------------|----------------|
|               | \$             |
| Original loss | (1,486)        |
| Accrual       | (1,625)        |
| Prepayment    | 834            |
| Revised loss  | <u>(2,277)</u> |

10.14 C The double entry to record the accrual in the accounts is:

Dr Expenses (SPL) \$50,000  
 Cr Accruals (SOFP) \$50,000

This reduces profit from \$125,000 to \$75,000 and the net asset position from \$375,000 to \$325,000.

## 11 Receivables and payables

11.1 C Payables are a liability, so statement 2 is false.

|  |                 |
|--|-----------------|
| 11.2 D   | \$              |
| Closing allowance $(400,000 - 38,000) \times 10\%$ | 36,200          |
| Opening allowance                                  | 50,000          |
| Decrease in allowance                              | <u>(13,800)</u> |
| Irrecoverable debts written off                    | 38,000          |
| Statement of profit or loss charge                 | <u>24,200</u>   |

|                                 |                |
|---------------------------------|----------------|
| 11.3 A                          | \$             |
| Irrecoverable debts written off | 14,600         |
| Reduction in allowance          | <u>(2,000)</u> |
|                                 | <u>12,600</u>  |

|  |               |
|--|---------------|
| 11.4 D   | \$            |
| Irrecoverable debt written off                                   | 28,500        |
| Increase in allowance $((868,500 - 28,500) \times 5\% - 38,000)$ | <u>4,000</u>  |
|  | <u>32,500</u> |

11.5 C  $\$146,000 + (\$218,000 - \$83,000) = \$281,000$ 

11.6 B Because the debt has been previously written off, there is no receivable for which to offset the cash, therefore the double entry is Dr Cash, Cr Irrecoverable debts expense.

|  |                 |
|--|-----------------|
| 11.7 B   | \$              |
| Allowance required $5\% \times (864,000 - 13,000)$ | 42,550          |
| Existing allowance                                 | <u>(48,000)</u> |
| Reduction in allowance                             | <u>(5,450)</u>  |
| Irrecoverable debts written off                    | 13,000          |
| Statement of profit or loss charge                 | <u>7,550</u>    |

$$\begin{aligned} \text{Net trade receivables} &= \$864,000 - 13,000 - 42,550 \\ &= \$808,450 \end{aligned}$$

11.8 D A decrease in the allowance is written back to profit or loss.

11.9 C The debt needs to be fully written out of the books. An allowance was already made, so the SPL has already been charged ie:

|                                     |   |
|-------------------------------------|---|
| Dr Irrecoverable debts (SPL)        | X |
| Cr Allowance for receivables (SOFP) | X |

Therefore you only need to clear the balances from Receivables and Allowances for receivables, which option C will do.

11.10 C An increase in the allowance for receivables will reduce profits and receivables. Gross profit will not be affected since allowances for receivables are dealt with in the net profit section.

11.11 D

|   | <i>SPL charge</i> |
|---|-------------------|
|   | \$                |
| Receivables allowance at 31.12.X1 (15% of \$20,000) | \$ 1,000          |
| Receivables allowance at 1.1.X1                     | <u>3,000</u>      |
| Decrease in allowance                               | 2,000             |
| Irrecoverable debts written off                     | (1,000)           |
| Debt recovered                                      | 800               |
| Total credit to statement of profit or loss         | <u>1,800</u>      |

11.12 A

When a business first establishes an allowance for receivables the full amount of the allowance should be debited to Irrecoverable debts (statement of profit or loss) and credited to Allowance for receivables (statement of financial position).

11.13 C

|   | <i>SPL charge</i> |
|---|-------------------|
|   | \$                |
| Receivables allowance at year end           | \$ 1,000          |
| Receivables allowance at beginning of year  | <u>850</u>        |
| Increase in allowance                       | (150)             |
| Irrecoverable debts written off             | (500)             |
| Total charge to statement of profit or loss | <u>650</u>        |

11.14 C

An aged receivables analysis shows the outstanding balances owed by each customer analysed by how long they have been outstanding, usually 30, 60 and 90+ days. The receivables allowance is deducted from the receivables balance in the statement of financial position.

A credit limit is set by the credit control department of the business and is the maximum amount of credit each customer of that business can have. Credit limits are not applied to cash sales.

11.15 A

The trade payables are due to be paid within 12 months, the overdraft is repayable on demand.

11.16 D

Offering credit facilities will not reduce the level of irrecoverable debts.

11.17 D

Dr Payables control account, Cr Discounts received (income).

11.18 D

Statement (4) only is correct.

A payable is a person or institution to whom a business owes money.

Statements (1) to (3) are examples of where money is owed to the business from others, so these are receivables. In the case of (2), if a company makes a loan or advance to an employee, this creates a receivable, being the repayment due from the employee.

Statement (4) is an example of where money is owed by the business to others, so this is a payable.

11.19 C

Statements (1) and (3) are correct.

A payable is a person or institution to whom a business owes money eg, a supplier. The amount of money owed will be known exactly as it will have been billed or invoiced by the supplier. Therefore the liability of \$500 for invoiced goods (2) is a payable.

An accrual or accrued expense is an expense which is charged against the profit or loss for a particular period, with a corresponding liability, even though it has not yet been paid for. The amount and timing of money owed will not be known exactly as it will not yet have been billed or invoiced. However timing is virtually certain and a close estimate is usually known. This is recorded as the accrual. The amount owed to the tax authorities (1) is therefore an accrual rather than a payable.

A provision is a liability of uncertain timing or amount. The timing and/or amount are less certain than for an accrual. The amount owed for the warranty claims (3) comes under this definition rather than a payable.

- 11.20 C The reconciling items are (3) and (6).

The supplier statement reconciliation would read as follows with items (3) and (6) as reconciling items. All the other transactions appear both in the ledger and the supplier statement.

|   |            |
|---|------------|
| Balance per supplier's statement 31 March 20X1          | 520        |
| Less reconciling items:                                 |            |
| Payment (30 March) not on statement (3)                 | (385)      |
| Invoice (#533) on statement, not on payables ledger (6) | (35)       |
| Balance per payables ledger 31 March 20X1               | <u>100</u> |

Invoice #533 would then need to be investigated with the supplier to ensure it is not an error on their part. Once it is established it is a valid invoice, the ledger should be corrected to record this invoice.

## 12 Provisions and contingencies

- 12.1 C Contingent assets should not be recognised in the financial statements. However, they should be disclosed if it is probable that the economic benefits associated with the asset will flow to the entity. If it becomes probable that the a transfer of economic benefits associated with a contingent liability will happen, then the contingent liability is no longer contingent and a liability should be recognised in the financial statements.
- 12.2 A A possible transfer of economic benefits should be disclosed. Where transfer is probable a provision should be made.
- 12.3 C As the claim is unlikely to succeed, the potential settlement of \$500,000 should be disclosed as a contingent liability note. However, given that the legal costs of \$50,000 must be paid whether the claim is successful or not, this amount should be provided for in the company's financial statements.
- 12.4 A A provision is required for the warranties sold, it should be calculated using the expected value approach. 2 is a contingent liability because it is possible that the company will have to pay out, if it was probable, then a provision would be required. If it was remote, no disclosure would be needed.
- 12.5 A All 3 statements are correct.
- 12.6 C The provision should be increased by \$1,086, the double entry is therefore Dr Expenses, Cr Provision.
- 12.7 B Doggard Co needs to reduce the provision by \$500 ie a credit to the statement of profit or loss.
- 12.8 A A provision is a liability of uncertain timing or amount. A contingent liability is a *possible* obligation of uncertain timing or amount.
- 12.9 C The statement is the definition of a contingent liability.
- 12.10 C Montague should include a provision of \$3,000 in his year-end financial statements as this is the best estimate of the amount he will probably have to pay out.
- 12.11 D Mobiles Co should provide on the basis of the expected cost. The expected cost would be calculated as  $(2.5\% \times 100,000 \times \$50) + (2.5\% \times 100,000 \times \$10) = \$125,000 + \$25,000 = \$150,000$ .
- 12.12 B The expected value approach to calculating a provision takes each possible outcome (ie the amount of money that will need to be paid under each circumstance) and weights it according to the probability of that outcome happening. The total amount of each weighted value is the provision.

12.13 C

|  | \$'000 |
|--|--------|
| Provision required at 31.12.X1 = $(0.05 \times 150) + (0.20 \times 25) + (0.75 \times 60)$ | 57.5   |
| Provision b/f at 31.12.X0  | 64     |
| Utilised during year   | (25)   |
| Increase required – charge to SPL  | 18.5   |
| Provision c/f at 31.12.X1  | 57.5   |

**13****Capital structure and finance costs**

- 13.1 D Paid ordinary dividend only:  $10m \times 2c = \$200,000$ . The dividend paid on the redeemable preference shares will be recognised in the financial statements as a finance cost.

The proposed ordinary dividend will not be recognised in the financial statements, but will be disclosed in the notes to the financial statements.

Only the paid interim ordinary dividend will be recognised as a deduction from equity reserves in the statement of financial position.

- 13.2 A A rights issue will increase cash and therefore assets. Retained earnings remain the same and the share premium account will be increased.

- 13.3 B Share capital will be credited with the nominal value of the shares – the balance goes to share premium.

|                                       | \$             |
|---------------------------------------|----------------|
| Ordinary shares at start of year      | 50,000         |
| Add: bonus issue $50,000 \times 50c$  | 25,000         |
| Add: new issue $60,000 \times 50c$    | 30,000         |
|                                       | <u>105,000</u> |
| Share premium at start of year        | 180,000        |
| Less: bonus issue $50,000 \times 50c$ | (25,000)       |
| Add: new issue $60,000 \times 30c$    | 18,000         |
|                                       | <u>173,000</u> |

- 13.5 B \$9,000 is payable (SPL), but only \$6,000 paid (April and July).

- 13.6 C Dividends paid on ordinary shares are included in the statement of changes in equity, not the statement of profit or loss and other comprehensive income. Dividends paid on redeemable preference shares are treated like interest on loans and are shown in the statement of profit or loss and other comprehensive income as a finance charge. The gain on revaluation of non-current assets is shown in the statement of profit or loss and other comprehensive income, as other comprehensive income.

|                        | \$                   |
|------------------------|----------------------|
| <i>Ordinary shares</i> |                      |
| Opening balance        | 125,000              |
| Rights issue           | 250,000 $\times 25c$ |
| Bonus issue            | 150,000 $\times 25c$ |
|                        | <u>225,000</u>       |
| <i>Share premium</i>   |                      |
| Opening balance        | 100,000              |
| Rights issue           | 250,000 $\times 75c$ |
| Bonus issue            | 150,000 $\times 25c$ |
|                        | <u>250,000</u>       |

|                  | \$                                 |
|------------------|------------------------------------|
| July – September | 1,000,000 $\times 8\% \times 3/12$ |
| October – March  | 750,000 $\times 8\% \times 6/12$   |
| April – June     | 750,000 $\times 8\% \times 3/12$   |
|                  | 500,000 $\times 7\% \times 3/12$   |
|                  | <u>8,750</u>                       |
|                  | <u>73,750</u>                      |

- 13.9 B This is the transfer of the premium to the share premium account.
- 13.10 C A bonus issue does not involve cash but can be financed from the share premium account.
- 13.11 D A bonus issue does not raise any funds, instead other reserves are capitalised and reclassified as share capital. A rights issue is an issue of shares for cash, the right to buy the shares are initially offered to existing shareholders. If the existing shareholders do not take up their right to buy the shares, then their shareholding will be diluted.

13.12 C

|  | \$             |
|--|----------------|
| Share capital @ 1.1.20X0               | 500,000        |
| Issue on 1.4.20X0 (200,000 @ 50c)      | 100,000        |
| Bonus issue (1.2m ÷ 4) @ 50c           | 150,000        |
| Share capital as at 31.12.20X0         | <u>750,000</u> |
|  |                |

|         | Unpresented cheques   |                | (3,300)                |          |
|         | Overdraft   |                | <u>(700)</u>           |          |
| 16.13 A | The other two items are part of the bank reconciliation.                                      |                |                        |          |
| 16.14 B |   |                | \$                     |          |
|         | Overdraft per bank statement  |                | 39,800                 |          |
|         | Less: deposits credited after date  |                | (64,100)               |          |
|         | Add: unpresented cheques  |                | 44,200                 |          |
|         | Overdraft per cash book   |                | <u>19,900</u>          |          |
| 16.15 B | Cash book 3, 5: bank reconciliation 1, 2, 4   |                |                        |          |

## 17 Correction of errors

- 17.1 B The discount received should have been *credited* to discounts received, so the effect is doubled.
- 17.2 B Start by posting the adjustment in full:
- |                   | Debit | Credit |
|-------------------|-------|--------|
|                   | \$    | \$     |
| Discount allowed  | 3,840 | 2,960  |
| Discount received | 3,840 | 2,960  |
| Suspense account  |       | 1,760  |
- 17.3 D Returns outwards are returns to suppliers, which should therefore reduce the purchases balance – ie it should be a credit balance.  
Option A would result in credits being higher than debits in the trial balance. Options B and C would not cause an imbalance.
- 17.4 A B and C would make the credit side \$50 higher. D would have no effect.
- 17.5 B This has debited a non-current asset to cost of sales which is an error of principle as it has broken the principles of accounting – ie that non-current assets should be capitalised.
- 17.6 C A transaction has been posted to the wrong account, but not the wrong class of account.
- 17.7 B This is an error of original entry.

| Adjusted profit  | <u>97,100</u>  |                  |           |                     |        |  |         |                 |               |

- 17.9 B The cash book was credited with \$210 reimbursement of petty cash. However, the nominal ledger was posted with only \$200 of expenditure (debits). Therefore the credits are \$10 higher than the debits.

17.10 D  $\$10,200 + \$3,000 + \$1,400 = \$14,600$ .

- 17.11 A Both errors will affect cost of sales and therefore gross profit, making a net effect of \$40,000. Net profit will be further reduced by \$10,000 missing from stationery expense.

- 17.12 D Debits will exceed credits by  $2 \times \$48 = \$96$

- 17.13 D Errors of principle, such as recording a capital expenditure transaction as revenue expenditure, would not be revealed by a trial balance because it would not create an inequality between total debits and total credits. Transposition errors are errors where figures (digits) are written in the wrong order in either a credit or a debit entry. This would create an imbalance between credits and debts, and so the error would be indicated by extracting a trial balance.

17.14 C

|  | <i>Debit</i>  | <i>Credit</i> |

## 18 Suspense accounts

- 18.1 D Error (5) will not cause a trial balance imbalance.

- 18.2 A SUSPENSE ACCOUNT

|                | \$            | \$                               |
|----------------|---------------|----------------------------------|
| Share capital  | 3,000         | Opening balance                  |
| Motor vehicles | 9,000         | Plant asset ( $2,800 \times 2$ ) |
|                |               | Petty cash (TB)                  |
|                |               | Closing balance                  |
|                | <u>12,000</u> | <u>2,440</u>                     |
|                |               | <u><u>12,000</u></u>             |

- 18.3 B This results in a debit to the suspense account therefore reducing the balance.

Option A results in a credit to the suspense account and options C and D do not affect the suspense account at all.

- 18.4 B (1) This entry has been correctly debited but to the wrong account – no effect on trial balance  
 (4) Double entry has been carried out although the wrong way round – no effect on trial balance

- 18.5 A SUSPENSE ACCOUNT

|             | \$                | \$                          |
|-------------|-------------------|-----------------------------|
| Balance b/d | 210               | Gas bill ( $420 - 240$ )    |
| Interest    | <u>70</u>         | Discount ( $2 \times 500$ ) |
|             | <u><u>280</u></u> | <u><u>180</u></u>           |

- 18.6 C The \$25,000 currently held in the Suspense account needs to be posted to Plant and machinery.

- 18.7 D

|  | \$                  |        |
|--|---------------------|--------|
| Opening balance                              | 16,500              | credit |
| Discount allowed (debit discount allowed)    | 3,900               | credit |
| Discount received (credit discount received) | (5,100)             | debit  |
| Transposition of cash received (credit RLCA) | <u>(9,900)</u>      | debit  |
|  | <u><u>5,400</u></u> | credit |

- 18.8 B Only errors 1 and 3 involve a suspense account entry to correct them.

- 18.9 D A and B will only affect the personal ledgers, C will cause an incorrect double entry.

- 18.10 B A would give a debit balance of \$130, C would have no effect and D would not cause a trial balance imbalance.

## 19 15 mark questions: preparing financial statements

### 19.1 Shuswap

#### (a) Suspense account

|  |              |
|--|--------------|
| Proceeds of issue of 4m shares at \$1.10 | 4,400        |
| Proceeds of sale of plant (balance)      | 600          |
|  | <u>5,000</u> |

Journal entries:

|                                    |            |

## 20 Incomplete records

|        |                   |                |
|--------|-------------------|----------------|
| 20.1 B |                   | \$             |
|        | Opening inventory | 386,200        |
|        | Purchases         | 989,000        |
|        | Closing inventory | (422,700)      |
|        | Cost of sales     | <u>952,500</u> |

$$952,500 \times 100/60 = 1,587,500$$

20.2 A Closing net assets plus drawings minus capital introduced minus opening net assets.

20.3 B Cost of sales = \$114,000

$$\text{Therefore sales should be} = \$114,000 \times 100/60 = \$190,000$$

$$\text{Theft} = \$190,000 - 181,600 = \$8,400$$

20.4 C TOTAL RECEIVABLES ACCOUNT

20.10 B \$937,050

## PURCHASES CONTROL ACCOUNT

|                       | \$               |                     | \$               |
|-----------------------|------------------|---------------------|------------------|
| Payments to suppliers | 888,400          | Opening balance     | 130,400          |
| Discounts received    | 11,200           | Goods taken         | 1,000            |
| Closing balance       | 171,250          | Refunds received    | 2,400            |
|                       | <u>1,070,850</u> | Purchases (bal fig) | <u>937,050</u>   |
|                       | <u>1,070,850</u> |                     | <u>1,070,850</u> |

20.11 A \$669,375

|                         | \$             |
|-------------------------|----------------|
| Opening inventory       | 243,000        |
| Purchases               | 595,400        |
| Less: purchases returns | (41,200)       |
|                         | <u>797,200</u> |
| Less: closing inventory | (261,700)      |
|                         | <u>535,500</u> |

$$\text{Sales} = 535,500 \times 100/80 = \$669,375$$

20.12 A

$$\text{Sales} = 381,600 + 6,800 + 112,900 + 7,200 + 9,400 = \$517,900$$

20.13 D Cost of sales: \$17,000 + \$91,000 - \$24,000 = \$84,000

|               |            |
|---------------|------------|
| Sales         | 100%       |
| Cost of sales | 60%        |
| Gross profit  | <u>40%</u> |

$$\text{Sales: } \frac{\$84,000}{60\%} = \$140,000$$

20.14 B

|  | \$            |
|--|---------------|
| Sales (100%)                           | 64,800        |
| Cost of sales (70%)                    | 45,360        |
| Gross profit (30%)                     | <u>19,440</u> |
|  | <u>19,440</u> |
| Opening inventory                      | 28,400        |
| Purchases                              | <u>49,600</u> |
|  | <u>78,000</u> |
| Calculated closing inventory (bal fig) | (32,640)      |
| Cost of sales                          | <u>45,360</u> |
| Calculated closing inventory           | 32,640        |
| Actual closing inventory               | —             |
| Destroyed by fire                      | <u>32,640</u> |

20.15 A

|                         | \$              |
|-------------------------|-----------------|
| <i>Cost of sales</i>    |                 |
| Opening inventory       | 38,000          |
| Purchases               | 637,000         |
| Less: closing inventory | <u>(45,000)</u> |
|                         | <u>630,000</u>  |

$$\text{Sales } 630,000 \times 100/70 = \$900,000$$

20.16 C Opening net assets + Profit + Capital introduced - Drawings = Closing net assets  
210,000 + Profit + 100,000 - 48,000 = 400,000

Profit = \$138,000

## 21 Company financial statements

- 21.1 D The revaluation surplus is part of equity. Dividends paid on redeemable preference shares are treated like interest paid on loans, and are therefore accrued for as finance costs in the financial statements.
- 21.2 B Profit on disposal of properties will be included in profit in the statement of profit or loss and other comprehensive income. Equity dividends proposed after the reporting period are disclosed by note.
- 21.3 B \$
- | <i>Receivables and prepayments</i>            | \$                   |
|---|----------------------|
| Insurance $9,000 \times 8/12$ prepayment      | 6,000                |
| Loan (receivable)                             | 12,000               |
| Interest due $12,000 \times 2\%$ (receivable) | 240                  |
| Rent due (receivable)                         | 4,000                |
|   | <u><u>22,240</u></u> |
- 21.4 D All of these items are disclosed, either on the face of the main financial statements or in the notes. Although dividends proposed are not included in the statement of changes in equity, they must still be disclosed in the notes.
- 21.5 A Adjusting events after the reporting period should be adjusted for, not just disclosed.
- 21.6 C The loss on sale of investments will have been recognised in the statement of profit or loss and other comprehensive income. Dividends proposed after the year end are disclosed in the notes, they are not recognised in the financial statements.
- 21.7 D Loan stock is a non-current liability.  
A Share premium account is a statutory reserve.  
B Retained earnings is otherwise known as the revenue reserve.  
C Revaluation surplus is an unrealised reserve.
- 21.8 B The total will be \$260,000, of which \$60,000 will be credited to share premium.
- 21.9 C A revaluation surplus arises when a non-current asset is **revalued**. Loan notes are not part of share capital.
- 21.10 A The under provision for the previous year of \$2,500 plus the provision for the current year of \$20,000 gives a charge to the SPL of \$22,500.

## 22 Disclosure notes

- 22.1 A Disclosure notes provide more detail about the information in the main financial statements.
- 22.2 B A reconciliation of the opening and closing carrying amounts is required by IAS 16 for tangible non-current assets and by IAS 38 for intangible assets.
- 22.3 B IAS 2 requires disclosure of the accounting policies adopted in measuring inventories, including the cost formula used, the total carrying amount of inventories and the carrying amount in classifications appropriate to the entity and the carrying amount of inventories carried at net realisable value.
- 22.4 A IAS 38 does not require the net realisable value of deferred development costs to be disclosed.
- 22.5 C Both statements are correct.
- 22.6 B These are the disclosure requirements given in IAS 37 for contingent liabilities.
- 22.7 C IAS 16 does not require disclosure of the market value of all tangible non-current assets.

- 22.8 B Inventories must be valued at the lower of cost and net realisable value. The amount of any write-down in the period must be disclosed, and so too must the carrying amount of inventories classified by type and the cost of inventories recognised as an expense in the period. There is no requirement to disclose the original cost of inventories that have been written down in value.
- 22.9 D IAS 10 requires disclosure of the nature of material non-adjusting events after the reporting period and either an estimate of the financial effect of the event or a statement that a reasonable estimate cannot be made.

## 23 Events after the reporting period

- 23.1 A All of these events are indicative of conditions that existed at the reporting period.
- 23.2 A 2 and 3 do not affect the company's position at the end of the reporting period.
- 23.3 B These affect valuation of receivables and inventory at the end of the reporting period.
- 23.4 B These events are adjusting if discovered between the reporting date and the date the financial statements are authorised for issue as they provide evidence about conditions that existed at the reporting date: insolvency of an account receivable which was outstanding at the end of the reporting period, discovery of fraud or error which shows that the financial statements were incorrect, sale of inventory which gives evidence about its value at the end of the reporting period.
- 23.5 B 2 and 4 both affect the valuation of assets at the end of the reporting period.
- 23.6 C IAS 10 requires the financial statements to be adjusted for events that reflect conditions that existed at the reporting date. Only event 3 is indicative of conditions at the reporting date – ie the recoverability of the receivable balance. Events 1 and 2 are non-adjusting events, however, they are material so they should be disclosed.
- 23.7 D None of these events require adjustment in the financial statements.
- 23.8 A An adjusting event after the reporting date is event that occurs between the reporting date and the date on which the financial statements are authorised for issue that provides further evidence of conditions that existed at the reporting date. The event must occur *after* the reporting period but *before* the date the financial statements are authorised for issue.
- 23.9 A The nature of the event and an estimate of the financial effect (or a statement that such an estimate cannot be made) should be disclosed.

## 24 Statements of cash flows

- 24.1 C Only the proceeds of a share issue and dividends received involve the movement of cash.
- 24.2 D Loss on sale of non-current assets should be added back to net profit before tax.
- 24.3 D
- |                                     |                       |
|-------------------------------------|-----------------------|
|                                     | \$                    |
| Add: depreciation charge            | 980,000               |
| Less: profit on sale of assets      | (40,000)              |
| Less: increase in inventories       | (130,000)             |
| Add: decrease in receivables        | 100,000               |
| Add: increase in payables           | 80,000                |
| <b>Addition to operating profit</b> | <b><u>990,000</u></b> |
- 24.4 B Depreciation should be added back as it not a cash flow and proceeds of sale of non-current assets appears under 'investing' cash flows.
- 24.5 D
- 1 Proceeds from sale of premises appears under investing activities.
  - 2 Dividends received appears under operating or investing activities.
  - 3 A bonus issue of shares is not a cash flow.

- 24.6 C    1    The direct and indirect methods will give the correct figure.  
               2    A rights issue of shares is a cash flow.  
               4    The profit on sale of a non-current asset appears as an adjustment to profit in order to reach net cash flow from operations.
- 24.7 D    The depreciation charge and the increase in payables should both have been added.
- 24.8 B    Neither a proposed dividend nor a bonus issue of shares involve the movement of cash.
- 24.9 B    Proceeds from sale of equipment are included in investing activities.
- 24.10 B

\$'000

|                            |                                       |
|----------------------------|---------------------------------------|
| Cash flows from financing: |                                       |
| Issue of share capital     | (120 + 60) – (80 + 40)                |
| Repayment of bank loan     | (100 – 150)                           |
|                            | <u>60</u><br><u>(50)</u><br><u>10</u> |

- 24.11 D    2 and 4. Decrease in inventories should be added, decrease in payables should be deducted.
- 24.12 B    The corrected extract is as follows:

|   |            |
|---|------------|
|   | \$'000     |
| <i>Net cash flow from operating activities</i>  |            |
| Profit before tax                               | 484        |
| Depreciation charges                            | 327        |
| Profit on sale of property, plant and equipment | (35)       |
| Increase in inventories                         | (74)       |
| Decrease in trade and other receivables         | 41         |
| Increase in trade payables                      | 29         |
| Cash generated from operations                  | <u>772</u> |

- 24.13 D    Interest received and proceeds from the sale of property are cash flows from investing activities; taxation paid is a cash flow from operating activities.
- 24.14 A    The net cash flows from operating activities will be the same using the two methods.
- 24.15 D

|  |            |
|--|------------|
|  | \$'000     |
| Carrying amount of assets at beginning of the year         | 462        |
| Increase in revaluation surplus during the year            | 50         |
| Book value of assets disposed of (110 – 65)                | (45)       |
| Depreciation charge for the year                           | (38)       |
|  | <u>429</u> |
| Carrying amount of assets at end of the year               | 633        |
| Purchases of property, plant and equipment during the year | <u>204</u> |

- 24.16 C    A loss on disposal of a non-current asset is added back as an adjustment in the calculation of cash flows from operating activities (using the indirect method), and the cash received from the disposal is included within cash flows from investing activities
- 24.17 B    *Cash flows from operating activities*
- |   |              |
|---|--------------|
| Cash received from customers (\$400 + \$33,400 – \$900) | \$ 32,900    |
| Cash paid to suppliers (\$1,000 + \$18,500 – \$2,550)   | (16,950)     |
| Cash paid to employees (\$1,500 + \$9,500 – \$750)      | (10,250)     |
| Interest paid   | (2,100)      |
| Interest received                                       | 175          |
| Net cash flow from operating activities                 | <u>3,775</u> |

- 24.18 C    A business may make a profit but have negative cash flow.
- 24.19 D    Jo is correct. A business that does not have cash available to fund operations is likely to fail.
- 24.20 B    There is an opportunity to reclassify some cash outflows that might have been reported in the operating section as investing cash outflows. For example, questionable capitalisation of expenses.

## 25 15 mark questions: preparing simple consolidated financial statements

### 25.1 Swing and Cat

#### SWING GROUP

#### CONSOLIDATED STATEMENT OF PROFIT OR LOSS FOR THE YEAR ENDED 31 DECEMBER 20X8

|   | \$'000       |

*Workings*1 *Group structure*2 *Intragroup sale*

Sale price to be eliminated from consolidated revenue:

|               |               |
|---------------|---------------|
| Cost to Black | \$'000        |
| 40% mark up   | 12,000        |
| Cost to Bury  | <u>4,800</u>  |
|               | <u>16,800</u> |

Unrealised profit in inventory:  $\$4,800,000 \times 30\% = \$1,440,000$

$$\begin{aligned}\text{Gross profit} &= \$105,000,000 + \$43,000,000 - \$1,440,000 \\ &= \$146,560,000\end{aligned}$$

3 *Inventory*

|                             | \$'000         |
|-----------------------------|----------------|
| Black                       | 13,360         |
| Bury                        | 3,890          |
| Less unrealised profit (W2) | <u>(1,440)</u> |
|                             | <u>15,810</u>  |

4 *Trade receivables*

|                          | \$'000         | \$'000         |
|--------------------------|----------------|----------------|
| Black                    | 14,640         |                |
| Less dividend receivable | <u>(7,000)</u> |                |
|                          |                | 7,640          |
| Bury                     |                | 6,280          |
| Less intragroup          |                | <u>(1,500)</u> |
|                          |                | <u>12,420</u>  |

5 *Trade payables*

|                 | \$'000         |
|-----------------|----------------|
| Black           | 9,000          |
| Bury            | 2,460          |
| Less intragroup | <u>(1,500)</u> |
|                 | <u>9,960</u>   |

6 *Retained earnings*

|   | <i>Black</i>   | <i>Bury</i>  |
|---|----------------|--------------|
|   | \$'000         | \$'000       |
| Per question                              | 33,500         | 10,280       |
| Adjustment (unrealised profit (W2))       | <u>(1,440)</u> | <u>–</u>     |
| Pre-acquisition retained earnings         | <u>(2,000)</u> | <u>8,280</u> |
| Group share of post-acq'n ret'd earnings: |                |              |
| Bury (70% $\times$ 8,280)                 | 5,796          |              |
| Group retained earnings                   | <u>37,856</u>  |              |

7 *Non-controlling interest*

|   | \$'000        |
|---|---------------|
| Fair value of NCI at acquisition  | 11,800        |
| Plus NCI's share of post-acquisition retained earnings (30% $\times$ 8,280) | 2,484         |
| NCI at reporting date   | <u>14,284</u> |

(b)

| Net profit percentage | $\frac{\text{Net profit}}{\text{Sales}} \times 100$ | $45/245 \times 100 = 18.4\%$ | $25/95 \times 100 = 21.1\%$ |
|-----------------------|---|------------------------------|-----------------------------|
|                       |   | <i>Black</i>                 | <i>Bury</i>                 |

At 21.1%, the net profit percentage of Bury is slightly higher than that of Black (18.4%). The main reason for this is that Black has higher administrative expenses compared to its sales than Bury. Since wages and salaries normally make up the most part of administrative expenses, the reason for the difference may be that Bury is making more efficient use of its staff.

## 25.3 Prestend

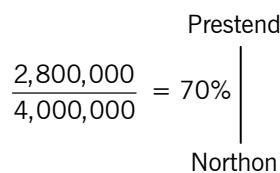

## (a) Calculation of goodwill on the acquisition of Northon

|  | \$              | \$'000          |

| Owners of the parent  |  | 641          |
| Non-controlling interest (25% × 260)                                    |  | <u>65</u>    |
|   |  | <u>706</u>   |

*Working: group structure*

Liverton

$$\frac{3,000}{4,000} = 75\%$$

Everpool

*Working: Consolidated gross profit*

Profit on sale by Liverton to Everpool: \$200,000 – \$110,000 = \$90,000

Unrealised profit: \$90,000 × 60% = \$54,500

Consolidated gross profit: \$2,700,000 + \$1,150,000 – \$54,000 = \$3,796,000

Cost of sales is the balancing figure.

## 26 Consolidated financial statements

|   |  |        |                |
|---|--|--------|----------------|
| 26.1 C  |  | \$     | \$             |
| Fair value of consideration   |  |        | 270,000        |
| Plus fair value of NCI at acquisition   |  |        | 42,000         |
| Less net acquisition-date fair value of identifiable assets acquired and liabilities assumed: |  |        |                |

| Fair value adjustment at acquisition  | <u>20,000</u>  |        |
| Goodwill  | <u>276,000</u>   |        |
|   | <u>99,000</u>  |        |
| 26.11 D   |  | \$'000 |
| Unrealised profit ( $30,000 \times 25\% \times 40\%$ )  | 3  |        |
| Gross profit ( $330 + 300 - 3$ )  | <u>627</u>   |        |
| 26.12 C   | 3 and 4 are incorrect.   |        |
|   | An investor must have significant influence over the investee in order for the investee to be classified as an associate. If the investor holds 20% or more of the voting power of the entity, significant influence can be assumed (unless it can clearly be shown that this is not the case). Therefore 1 is true. For an investee to be classified as a subsidiary, the investor (the parent) must have control over the investee (the subsidiary). Control can be demonstrated if the investor has the power to appoint the majority of board members of the investee, so 2 is true. 3 is incorrect because the power to govern the financial and operating policies of F make F a subsidiary of E. Likewise, 4 is incorrect as the power to govern the financial and operating policies of H makes H a subsidiary of G. |        |
| 26.13 C   | Tangerine is an associate of Clementine, however because Clementine has no other investments in other companies, it will not produce consolidated financial statements. Therefore the investment will appear in the single company financial statements of Clementine as a simple investment. The statement of financial position will show an investment at cost and the statement of profit or loss will show dividends received from Tangerine. If Clementine instead did produce consolidated financial statements, Tangerine would be accounted for using the equity method and B would instead be correct.   |        |
| 26.14 B   | A parent may hold less than 50% of the share capital but more than 50% of the voting rights. Goodwill only appears in the <b>consolidated</b> statement of financial position. Consolidated financial statements present the substance of the relationship between parent and subsidiaries, rather than the legal form.  |        |
| 26.15 D   | S is not a subsidiary as P's shareholdings in S do not give it the power to control S. R is a subsidiary as P has the right to appoint or remove the directors of R, and so control it.  |        |
| 26.16 C   | Investments in associates are accounted for using equity accounting. An investment is an associate if the investor has significant influence over the investee. Significant influence is presumed if the investor owns at least 20% of the voting equity of the investee. Therefore 2 is not an associate. 1 and 4 are subsidiaries as Company A investor has control over them.   |        |

|         |  |                |              |
|---------|--|----------------|--------------|

| 26.24 B |  | \$'000         |              |
|         | Shares (18m × 2/3 × \$5.75)  | 69,000         |              |

26.25 B

|               | X Co<br>\$'000 | Y Co × 2/12<br>\$'000 | Adj<br>\$'000 | Group<br>\$'000 |
|---------------|----------------|-----------------------|---------------|-----------------|
| Revenue       | 3,400          | 400                   | (10)          | 3,790           |
| Cost of sales | 1,500          | 300                   | (10+1*)       | 1,789           |

2,001

\* Unrealised profit

|                   |               | \$      |
|-------------------|---------------|---------|
| Sale price        | 125%          | 10,000  |
| Cost price        | 100%          | (8,000) |
| Gross profit      | 25%           | 2,000   |
| Unrealised profit | (2,000 × 50%) | 1,000   |

26.26 D

Eliminate unrealised profit on goods in inventory of WX:

|              |      | \$       |
|--------------|------|----------|
| Sale price   | 120% | 60,000   |
| Cost price   | 100% | (50,000) |
| Gross profit | 20%  | 10,000   |

Unrealised profit attributable to NCI = \$10,000 × 25% = \$2,500

Unrealised profit attributable to WX = \$10,000 × 75% = \$7,500

26.27 C

|                                |          | \$'000 |
|--------------------------------|----------|--------|
| Net profit of S                | 60 000   |        |
| NCI share of profit of S (20%) | (12,000) |        |

Because the sale was made from the parent, P to the subsidiary, S, there is no unrealised profit attributable to the non-controlling interest.

## 27 15 mark question: interpretation of financial statements

### 27.1 Binky and Smokey

(a)

|                               |   | Binky   | Smokey  |
|-------------------------------|---|---|---|
| Gross profit percentage       | $\frac{\text{Gross profit}}{\text{Sales}} \times 100$                         | $\frac{129}{284} \times 100 = 45.4\%$           | $\frac{154}{305} \times 100 = 50.5\%$           |
| Net profit percentage         | $\frac{\text{Net profit}}{\text{Sales}} \times 100$                           | $\frac{61}{284} \times 100 = 21.5\%$            | $\frac{47}{305} \times 100 = 15.4\%$            |
| Asset turnover ratio          | $\frac{\text{Sales}}{\text{Capital employed}} \times 100$                     | $\frac{284}{258} \times 100 = 110.1\%$          | $\frac{305}{477} \times 100 = 63.9\%$           |
| Current ratio                 | $\frac{\text{Current assets}}{\text{Current liabilities}}$                    | $\frac{201}{188} = 1.1:1$                       | $\frac{383}{325} = 1.2:1$                       |
| Quick ratio                   | $\frac{\text{Current assets} - \text{inventory}}{\text{Current liabilities}}$ | $\frac{110}{188} = 0.6:1$                       | $\frac{90}{325} = 0.3:1$                        |
| Receivables collection period | $\frac{\text{Receivables}}{\text{Sales}} \times 365$                          | $\frac{46}{284} \times 365 = 59.1 \text{ days}$ | $\frac{75}{305} \times 365 = 89.8 \text{ days}$ |

- (b) The **gross profit percentage** is high for both companies. **Smokey**, which has a higher sales figure in absolute terms, also has a **higher** gross profit percentage. It is possible that its marginally greater sales volume enables it to take advantage of **discounts**. As the two companies operate in the same market, it is possibly geographical location that makes the difference in the profit margin Smokey can make.

The picture is different when it comes to **net profit percentage**. At 21.5%, that of Binky is significantly higher than that of Smokey (15.4%). The main reason for this is that **expenses in all categories are higher for Smokey**. In addition, Smokey is paying loan interest, while Binky does not have any loans.

The **asset turnover** ratios show that **Binky is making more efficient use of assets** than Smokey, as it is generating proportionally more sales from the assets. As discussed below, the inefficiency of Smokey may be partly because **working capital is tied up in inventory**.

The **current ratios** of both companies are **greater than one**, with Smokey having the edge slightly. These ratios indicate that the companies have sufficient current assets to meet their current liabilities. However, the quick ratios are more worrying.

Both companies have **quick ratios of less than one**, indicating potential liquidity problems. In the case of **Smokey, the quick ratio is very low** at 0.3:1. Much of Smokey Ltd's working capital is tied up in inventory, and the high inventory level suggests that inventory is not selling. Smokey, with its low cash balance and **lack of liquidity**, may have problems paying debts as they fall due.

The **receivables collection period is high** for both companies, but for Smokey, at 89.8 days it is considerably higher than that of Binky, which has 59.1 days. **Smokey Ltd needs to pay attention to credit control**. The longer a debt remains unpaid, the less likely it is to be paid.

In conclusion, although Smokey has a higher profit margin, it has liquidity problems, is less efficient and has ineffective credit control. **Binky is therefore a better investment prospect.**

## 28 Interpretation of financial statements

28.1 A Issuing further loan notes and paying dividends will *increase* gearing. A bonus issue simply capitalises reserves, so has no effect.

28.2 D Understatement of the December 20X1 closing inventory will lead to understatement of December 20X2 opening inventory and therefore understatement of cost of sales.

28.3 A Profit will be an addition to owner's capital.

$$\begin{aligned} 28.4 \text{ D } \text{Purchases} &= \$ (32,500 - 6,000 + 3,800) \\ &= \$30,300 \end{aligned}$$

$$\therefore \text{Accounts payable payment period} = \frac{4,750}{30,300} \times 365 = 57 \text{ days}$$

$$28.5 \text{ A } \text{Gearing} = \frac{\text{Total long term debt}}{\text{Total long term debt} + \text{share holders equity}} = \frac{75}{75 + 500} = 13\%$$

$$28.6 \text{ A } \text{Quick ratio} = \frac{\text{Current assets} - \text{Inventory}}{\text{Current liabilities}} = \frac{205 - 65}{80} = 1.75$$

$$28.7 \text{ A } \text{Current ratio} = \frac{\text{Current assets}}{\text{Current liabilities}} = \frac{205}{80} = 2.56$$

28.8 C The gearing ratio is used to assess how much the company owes in relation to its size.

28.9 B

|               | %        | \$         |
|---------------|----------|------------|
| Sales         | 100      | 2,400      |
| Cost of sales | 66 2/3   | 1,600      |
| Gross profit  | 33 1/3   | 800        |
| Expenses      | 28 1/3   | 680        |
| Net profit    | <u>5</u> | <u>120</u> |

28.10 C Current ratio is 2,900 : 1,100 = 2.6:1 ie high compared to the industry norm.

28.11 B Analysis of financial statements is carried out so that the significance of the financial statements can be better understood. Comparisons through time and with other companies help to show how well the company is doing.

## 29 Mixed bank 1

29.1 A

|                            | \$             |
|----------------------------|----------------|
| Increase in net assets     | 88,000         |
| Capital introduced         | (50,000)       |
| Drawings (68,000 + 20,000) | 88,000         |
| Profit for the year        | <u>126,000</u> |

29.2 A

|                      | \$        |
|----------------------|-----------|
| Debit cash           | 1,100,000 |
| Credit share capital | 250,000   |
| Credit share premium | 850,000   |

29.3 C Closing inventory should be valued at the lower of cost and NRV as per IAS 2.

29.4 D

|  | Share<br>capital<br>\$ | Share<br>premium<br>\$ |
|--|------------------------|------------------------|
| 1 July 20X4                                  | 500,000                | 400,000                |
| 1 January 20X5 – bonus issue (250,000 × 50c) | 125,000                | (125,000)              |
| 1 April 20X5 – rights issue                  | 62,500                 | 125,000                |
|  | <u>687,500</u>         | <u>400,000</u>         |

29.5 B

## RECEIVABLES LEDGER CONTROL ACCOUNT

|                     | \$             |                                 | \$             |
|---------------------|----------------|---------------------------------|----------------|
| Opening balance     | 138,400        | Cash received                   | 78,420         |
| Credit sales        | 80,660         | Payables contra                 | 1,000          |
| Dishonoured cheques | 850            | Discounts allowed               | 1,950          |
|                     | <u>219,910</u> | Irrecoverable debts written off | 3,000          |
|                     | <u>219,910</u> | Closing balance                 | <u>135,540</u> |

29.6 A

## SUSPENSE ACCOUNT

|                 | \$     |                 | \$     |
|-----------------|--------|-----------------|--------|
| Opening balance | 14,550 | To cash account | 10,000 |
|                 |        | To rent account | 4,550  |

29.7 D A revaluation of a non-current asset and a bonus issue of shares are both non-cash transactions.

29.8 D

|                   | \$             |
|-------------------|----------------|
| Opening inventory | 138,600        |
| Purchases         | 716,100        |
| Closing inventory | (149,100)      |
| Cost of sales     | <u>705,600</u> |

$$\text{Sales} = 705,600 \times 100/70 = 1,008,000$$

29.9 C

|                           | SPLOCI<br>\$  | SOFP<br>\$   |
|---------------------------|---------------|--------------|
| Prepaid insurance         | 8,200         |              |
| Payment January 20X5      | 38,000        |              |
| Prepayment July-Sept 20X5 | (9,500)       | 9,500        |
|                           | <u>36,700</u> | <u>9,500</u> |

29.10 D All three statements are correct.

29.11 D Beta has issued a credit note for \$500 to Alpha which Alpha has not yet received.

29.12 A Research expenditure is never capitalised.

- 29.13 D (i) and (iv) provide information about conditions which existed at the reporting date and are therefore adjusting.

29.14 A RENT RECEIVED

|                 | \$            |                | \$            |
|-----------------|---------------|----------------|---------------|
| Arrears b/f     | 3,800         | In advance b/f | 2,400         |
| Rent in advance | 3,000         | Cash received  | 83,700        |
| Balance c/f     | <u>84,000</u> | In arrears     | <u>4,700</u>  |
|                 | <u>90,800</u> |                | <u>90,800</u> |

29.15 B

|   | \$            |
|---|---------------|
| Allowance for receivables $((517,000 - 37,000) \times 5\%)$ | 24,000        |
| Previous allowance  | (39,000)      |
| Reduction   | (15,000)      |
| Debts written off   | 37,000        |
| Charge to statement of profit or loss                       | <u>22,000</u> |

- 29.16 D 2 and 3 only. Attributable overheads should be included in finished goods inventories.

- 29.17 B The proceeds will appear under *investing activities* and any profit will be deducted under *operating activities*.

- 29.18 C All four items will appear in the statement of changes in equity.

29.19 A

|                            | \$              |
|----------------------------|-----------------|
| Balance per bank statement | (38,600)        |
| Bank charges               | 200             |
| Lodgements                 | 14,700          |
| Cheque payments            | (27,800)        |
| Cheque payment misposted   | 8,400           |
| Balance per cash book      | <u>(43,100)</u> |

## 30 Mixed bank 2

30.1 C

|   | \$            |
|---|---------------|
| Balance b/f $((280,000 - 14,000) \times 20\%)$              | 53,200        |
| Addition 1 April $(48,000 \times 20\% \times \frac{9}{12})$ | 7,200         |
| Addition 1 Sept $(36,000 \times 20\% \times \frac{4}{12})$  | 2,400         |
|   | <u>62,800</u> |
| Sale $(14,000 \times 20\% \times \frac{1}{2})$              | <u>1,400</u>  |
|   | <u>64,200</u> |

- 30.2 D Item 1 is wrong, as inventory should be valued at the **lower** of cost and net realisable value.  
Items 2, 3 and 4 are all correct.

30.3 D

## RENT RECEIVABLE

|   | \$           |   | \$            |
|---|--------------|---|---------------|
| 31.1.X6 Statement of profit or loss                   | 27,500       | 1.2.X5 Balance b/f ( $\frac{2}{3} \times \$6,000$ ) | 4,000         |
|   |              | 1.4.X5 Received                                     | 6,000         |
|   |              | 1.7.X5 Received                                     | 7,500         |
|   |              | 1.10.X5 Received                                    | 7,500         |
| 31.1. X6 Balance c/f ( $\frac{2}{3} \times \$7,500$ ) | <u>5,000</u> | 1.1.X6 Received                                     | <u>7,500</u>  |
|   |              |   | <u>32,500</u> |
|   |              |   | <u>32,500</u> |

30.4 D 20%. ROCE is defined as the profit on ordinary activities before interest and tax divided by capital employed = \$300,000/\$1.5m = 20%

30.5 D Items 1 and 4 are adjusting events. Item 2 is a non-adjusting event but might be disclosed by way of note if material. Item 3 is a non-adjusting event that is disclosed by way of note.

30.6 D

|                          | \$         |
|--------------------------|------------|
| Balance per Alta         | 3,980      |
| Cheque not yet received  | (270)      |
| Goods returned           | (180)      |
| Contra entry             | (3,200)    |
| Revised balance per Alta | <u>330</u> |
| Balance per Ordan        | (230)      |
| Remaining difference     | <u>100</u> |

30.7 C For discounts, we need to debit the discounts received account \$13,000 to reverse the entry and debit the discounts allowed account \$13,000 to record the entry correctly. The credit of \$26,000 will be to suspense. So journal 2 is correct.

For machinery, we need to debit plant and machinery \$18,000 and credit suspense \$18,000. So journal 4 is correct.

30.8 B Item (1), as the plant register is not part of the double entry system, the adjustment does not go through the suspense account.

Item (2), the transaction has been completely omitted from the records.

Therefore only items (3) and (4) affect the suspense account.

30.9 D

|   | \$             |
|---|----------------|
| Initial profit                                    | 630,000        |
| Item (1) – increase in depreciation (4,800 – 480) | (4,320)        |
| Item (2) – bank charges                           | (440)          |
| Item (3) – no effect on P/L                       | –              |
| Item (4) – no effect on P/L                       | –              |
| Revised profit                                    | <u>625,240</u> |

30.10 A Statements 1 and 2 are correct.

30.11 C Only statements 2 and 3 are correct.

30.12 B

|  | \$             |
|--|----------------|
| Closing receivables                                    | 458,000        |
| Irrecoverable debts w/off                              | (28,000)       |
|  | <u>430,000</u> |
| Allowance required (5% × 430,000)                      | 21,500         |
| Existing allowance                                     | (18,000)       |
| Increase required                                      | <u>3,500</u>   |
| Charge to statement of profit or loss (28,000 + 3,500) | <u>31,500</u>  |

30.13 A

## PLCA

|                        | \$               |                 | \$               |
|------------------------|------------------|-----------------|------------------|
| Cash paid to suppliers | 988,400          | Opening balance | 384,600          |
| Discounts received     | 12,600           | Purchases       | 963,200          |
| Purchases returns      | 17,400           |                 |                  |
| Contras                | 4,200            |                 |                  |
| Closing balance        | <u>325,200</u>   |                 |                  |
|                        | <u>1,347,800</u> |                 | <u>1,347,800</u> |

30.14 A

We need to increase drawings (debit) and reduce purchases (credit). Therefore journal A is the correct answer. Remember that we only adjust inventory at the year end.

30.15 D

|   | \$             | \$             |
|---|----------------|----------------|
| Sales (balancing figure)                        | 1,080,000      |                |
| Opening inventory                               | 77,000         |                |
| Purchases                                       | <u>763,000</u> |                |
|   | <u>840,000</u> |                |
| Closing inventory                               | <u>84,000</u>  |                |
| Cost of sales (70%)                             |                | <u>756,000</u> |
| Gross profit ( $\frac{30}{70} \times 756,000$ ) |                | <u>324,000</u> |

30.16 C

Statements (3) and (4) are correct. Statement (1) is incorrect because land is not usually depreciated. Statement (2) is incorrect as the gain on revaluation for property accounted for in accordance with IAS 16 is shown in the statement of profit or loss and other comprehensive income, under 'other comprehensive income' or in the separate statement of other comprehensive income. (NB gains on property classified as investment property per IAS 40 are recognised in profit or loss, but this is beyond the scope of this syllabus).

30.17 B

|                                   | \$                     |
|-----------------------------------|------------------------|
| Balance per bank (overdrawn)      | (38,640)               |
| Add: outstanding lodgements       | <u>19,270</u>          |
|                                   | <u>(19,370)</u>        |
| Less: unpresented cheques         | <u>(14,260)</u>        |
| Balance per cash book (overdrawn) | <u><u>(33,630)</u></u> |

30.18 C

$$48,000 + 400 + 2,200 = 50,600$$

30.19 B

Opening inventory: debit statement of profit or loss, credit inventory account

Closing inventory: debit inventory account, credit statement of profit or loss

Remember that inventory is part of cost of sales, which is included in the statement of profit or loss.

30.20 D

|  | \$'000              |
|--|---------------------|
| Fair value of consideration  | 4,000               |
| Plus fair value of NCI at acquisition  | 2,200               |
| Less net acquisition-date fair value of identifiable assets acquired and liabilities assumed | <u>(4,750)</u>      |
| Goodwill   | <u><u>1,450</u></u> |

## 31 Mixed bank 3

31.1 A

|                               | \$             |
|-------------------------------|----------------|
| Sales (100%)                  | 650,000        |
| Cost of sales (70%)           | 455,000        |
| Gross profit (30%)            | <u>195,000</u> |
| Opening inventory             | 380,000        |
| Purchases                     | 480,000        |
|                               | 860,000        |
| Closing inventory (bal. fig.) | (405,000)      |
| Cost of sales                 | <u>455,000</u> |
| Calculated inventory          | 405,000        |
| Actual inventory              | 220,000        |
| Lost in fire                  | <u>185,000</u> |

31.2 B Income from investments and dividends paid on redeemable preference shares are recognised in the statement of profit or loss.

31.3 D Dividends paid go through the SOCIE, not the statement of profit or loss and other comprehensive income. Also dividends declared after the end of the reporting period, are disclosed by way of note to the financial statements.

31.4 D Goose Co has control over all three of these investments, and hence they are all subsidiaries.

|                           |                    |
|---------------------------|--------------------|
| 31.5 B Trade receivables  | = 838,000 – 72,000 |
|                           | = 766,000          |
| Allowance for receivables | = 60,000           |
| Net balance               | = 766,000 – 60,000 |
|                           | = 706,000          |

31.6 C 1 and 4 are correct. Overheads must be included in the value of finished goods. Inventories should be valued at the lower of cost and net realisable value, not replacement cost.

31.7 C Inventory is correctly recorded, so 2 and 4 are incorrect. Purchases are understated, so cost of sales are understated and so profit for 20X6 is overstated. Therefore 1 only is the correct answer.

31.8 D 1.26:1. (Receivables 176,000)/(trade payables 61,000 + overdraft 79,000).

31.9 A All four items are correct.

31.10 A

| INSURANCE      |               |                       |
|----------------|---------------|-----------------------|
| Prepayment b/f | \$ 8,100      | \$ SPL 11,100         |
| (3/4 × 10,800) |               | Prepayments c/f 9,000 |
| Paid           | 12,000        | (3/4 × 12,000)        |
|                | <u>20,100</u> | <u>20,100</u>         |

31.11 C Statements 2 and 3 are incorrect. A bounced cheque is credited to the cash book and bank errors do not go through the cash book at all.

31.12 B

| SHARE CAPITAL |            |                        |
|---------------|------------|------------------------|
|               | \$m        | \$m                    |
| Bal b/f       |            | 100                    |
| Bal c/f       | 210        | Bonus (1/2 × 100m) 50  |
|               | <u>210</u> | Rights (2/5 × 150m) 60 |
|               |            | <u>210</u>             |

| SHARE PREMIUM |            |            |
|---------------|------------|------------|
|               | \$m        | \$m        |
| Bonus         | 50         | Bal b/f    |
| Bal c/f       | 60         | Rights     |
|               | <u>110</u> | <u>110</u> |

31.13 A All three statements are correct

31.14 A Items 2, 3 and 4 preserve double entry and so would not show up in a trial balance.

| 31.15 D  |  | \$'000       |
|--|--|--------------|
| Fair value of consideration transferred  |  | 8,000        |
| Plus fair value of NCI at acquisition ( $\$1.20 \times 3,000,000$ )                          |  | 3,600        |
| Less net acquisition-date fair value of identifiable assets acquired and liabilities assumed |  | (8,750)      |
| Goodwill   |  | <u>2,850</u> |

31.16 B

|                    | \$                                   |
|--------------------|--------------------------------------|
| Opening inventory  | 40,000                               |
| Purchases          | 60,000                               |
|                    | <u>100,000</u>                       |
| Closing inventory  | (50,000)                             |
| Cost of sales      | <u>50,000</u>                        |
| This implies sales | <u>100,000</u> ( $50,000 \times 2$ ) |

So either 1 is correct or 3 is correct.

31.17 D

| RENT RECEIVED   |                |                 |                |
|-----------------|----------------|-----------------|----------------|
|                 | \$             | \$              |                |
| Arrears b/f     | 4,800          | Prepayments b/f | 134,600        |
|                 |                | Cash received   | 834,600        |
| SPL             | 828,700        |                 |                |
| Prepayments c/f | <u>144,400</u> | Arrears c/f     | <u>8,700</u>   |
|                 | <u>977,900</u> |                 | <u>977,900</u> |

31.18 C

#### RECEIVABLES LEDGER CONTROL ACCOUNT

|                 | \$             |                                 | \$             |
|-----------------|----------------|---------------------------------|----------------|
| Opening balance | 284,680        | Cash received                   | 179,790        |
| Credit sales    | 189,120        | Discounts allowed               | 3,660          |
|                 |                | Irrecoverable debts written off | 1,800          |
|                 |                | Sales returns                   | 4,920          |
|                 |                | Contras                         | 800            |
|                 |                | Closing balance                 | 282,830        |
|                 | <u>473,800</u> |                                 | <u>473,800</u> |

31.19 A \$150,000

|  | \$             |
|--|----------------|
| Carrying amount at 1 <sup>st</sup> August 20X0 | 200,000        |
| Less depreciation                              | (20,000)       |
|  | <u>180,000</u> |
| Proceeds                                       | 25,000         |
| Loss   | 5,000          |
| Carrying amount of asset sold                  | (30,000)       |
| Therefore carrying amount                      | <u>150,000</u> |

## 32 Mixed bank 4

32.1 A Share capital ( $1m \times \$1$ ) = 1,000,000

Share premium ( $1m \times 50c$ ) = 500,000

32.2 C The correct answer is decrease current ratio and decrease quick ratio. Proposed dividends are not accrued for, so the only impact on the financial statements is to decrease cash.

32.3 D

| RENTAL INCOME   |                |                 |                |
|-----------------|----------------|-----------------|----------------|
|                 | \$             |                 | \$             |
| Arrears b/f     | 42,300         | Prepayments b/f | 102,600        |
| SPL             | 858,600        | Received        | 838,600        |
| Prepayments c/f | <u>88,700</u>  | Arrears c/f     | <u>48,400</u>  |
|                 | <u>989,600</u> |                 | <u>989,600</u> |

32.4 C Journals A and B have their entries reversed and Journal D should not include the suspense account at all.

32.5 A Per IAS 37 provide for probable losses of known amount and for which there is a constructive obligation, disclose possible losses, ignore remote ones.

32.6 A

| RENT PAID                                   |                |                       |
|---|----------------|-----------------------|
|   | \$             | \$                    |
| Prepayment b/f<br>( $1/12 \times 120,000$ ) | 10,000         |                       |
| Paid – 1/1                                  | 30,000         | SPL                   |
| – 1/4                                       | 36,000         | 136,000               |
| – 1/7                                       | 36,000         |                       |
| – 1/10                                      | 36,000         | Prepayments c/f       |
|   | <u>148,000</u> | 12,000                |
|   |                | (1/3 $\times$ 36,000) |
|   |                | <u>148,000</u>        |

32.7 A

|  | \$             | \$             |
|--|----------------|----------------|
| Trade receivables  | 863,000        |                |
| Irrecoverable debts w/off                                  | (23,000)       |                |
|  | <u>840,000</u> |                |
| Closing allowance for receivables ( $5\% \times 840,000$ ) |                | 42,000         |
| Opening allowance  |                | 49,000         |
| Reduction  |                | <u>(7,000)</u> |

Charge =  $23,000 - 7,000$   
= 16,000

32.8 C

| SHARE CAPITAL |            |                      |
|---------------|------------|----------------------|
|               | \$m        | \$m                  |

| Bonus (note 2) | 0.5        | Bal b/f              |
| Bal c/f        | 1.8        | Share issue (note 1) |
|                | <u>2.3</u> | 0.9                  |
|                |            | <u>2.3</u>           |

*Notes*

- 1 Share issues of 1,000,000 shares raises \$1,400,000. Shares are 50c each, so share capital is \$500,000 and share premium \$900,000.
- 2 Share capital is \$1.5m or 3m shares. Therefore the bonus issue is 1m shares.
- 32.9 C Inventory should be valued at the lower of cost and net realisable value, so statement 1 is incorrect.
- 32.10 B
- |  | \$                    |
|--|-----------------------|
| Held all year ((960,000 – 84,000) × 20%) | 175,200               |
| Addition (48,000 × 20% × 1/2)            | 4,800                 |
| Disposal (84,000 × 20% × 3/4)            | <u>12,600</u>         |
|  | <u><u>192,600</u></u> |
- 32.11 B Items 1 and 4 involve completed double entry and so do not go through the suspense account.
- 32.12 D Debit drawings and credit the cost to purchases.
- 32.13 D Cost + Profit = Selling price
- |   |    |     |            |
|---|----|-----|------------|
| 100   | 25 | 125 |            |
| PUP = (25/125 × 15,000) × 2/3               |    |     | = \$2,000  |
| Inventories = \$40,000 + \$20,000 – \$2,000 |    |     | = \$58,000 |
- 32.14 D Tax is separately disclosed in the statement of profit or loss and other comprehensive income only, while profit for the period is shown in the statement of profit or loss and other comprehensive income and in the statement of changes in equity.
- 32.15 D The reducing balance method charges more depreciation in earlier years.
- 32.16 D A decrease in receivables should be added and so should an increase in payables. Therefore 3 and 4 are correct.
- 32.17 C \$47,429
- |  | \$           | \$                   |
|--|--------------|----------------------|

| Therefore non-current assets acquired during the year        | (1,395,000)        |
| Sales proceeds from disposal of non-current asset            | 150,000            |
| To be included in 'net cash flows from investing activities' | <u>(1,245,000)</u> |

#### NON-CURRENT ASSETS

|                     | \$'000       |              | \$'000       |
|---------------------|--------------|--------------|--------------|
| Bal b/f             | 2,500        | Depreciation | 75           |
| Revaluation         | 500          | Disposal     | 120          |
| Additions (bal fig) | <u>1,395</u> | Bal c/f      | 4,200        |
|                     | <u>4,395</u> |              | <u>4,395</u> |

- 33.8 A A transposition error in the sales day book will not cause a difference between the SLCA and the receivables ledger as the total of the SDB is posted to the SLCA and the individual balances in the SDB to the receivables ledger, therefore the same error will be posted to both the SLCA and the receivables ledger.
- 33.9 A Make sure you read the **dates carefully** as some of the goods are returned after 31 May and we are only concerned with sales returns at that date, which is the goods with a list price of \$3,000. The value of the original sale is after the trade discount of 10%, so the actual amount invoiced for those goods is \$2,700 ( $\$3,000 \times 90\%$ ).
- 33.10 C Only statement 2 is correct. Development expenditure should be capitalised in accordance with IAS 38, however, research expenditure should be written off to the statement of profit or loss as incurred. Goodwill arising in a business combination should be capitalised as a non-current asset in the statement of financial position.
- 33.11 D All of the suggestions are flawed. FIFO is not permitted under IAS 2. Provisions cannot be created unless a constructive obligation exists, the amount can be reliably estimated and the likelihood of having to pay out cash is probable – none of these conditions are met, therefore a provision cannot be made. Development expenditure must be amortised over its useful life.
- 33.12 C Journal entries 1 and 2 should both be reversed.
- 33.13 C Carriage outwards is a distribution expense.
- 33.14 C

|  | <i>Frog</i><br>\$'000 | <i>Toad</i><br>\$'000 |
|--|-----------------------|-----------------------|
| Per question                               | 650                   | 160                   |
| Pre-acquisition retained earnings          |                       | (145)*                |
|  |                       | <u>15</u>             |
| Post-acquisition retained earnings of Toad | 15                    |                       |
| Group retained earnings                    | <u>665</u>            |                       |

\*  $100 + (60/12 \times 9)$

- 33.15 D
- |                            | \$            |
|----------------------------|---------------|
| Profit before tax          | 36,000        |
| Dividend                   | (21,000)      |
| Added to retained earnings | <u>15,000</u> |
- 33.16 D It reduces receivables.
- 33.17 A \$2,185. Prepayment b/f \$60 ( $2/3 \times 90$ ) + \$2,145 – prepayment c/f \$60 – accrual b/f \$80 + accrual c/f \$120 = \$2,185.
- 33.18 B In option 2, receivables and drawings are debits but discount received is a credit. In option 4, capital and trade payables are credits but operating expenses are debits.
- 33.19 B \$205
- Profit = Drawings + Increase in net assets – Capital introduced  
= \$77 + \$173 – \$45  
= \$205
- 33.20 B \$130 loss
- Capital = Assets – Liabilities  
\$50 + \$100 + profit for the year = \$90 – \$70  
\$150 + profit for the year = \$20  
Therefore, the profit for the year is in fact a *loss* of \$130.

## 34 Mixed bank 6

- 34.1 A X is a receivable of Y.  
 34.2 A \$47,429

### RECEIVABLES LEDGER CONTROL

|                     | \$             |                                 | \$             |

|                     |              | Business rates      | 2,172        |
|                     | <u>3,214</u> |                     | <u>3,214</u> |
|                     |              | 1 May Balance b/d   | 2,098        |

- 34.4 B \$87 loss

|   | \$        |
|---|-----------|
| Carrying amount: $9,000 \times 0.7 \times 0.7 \times 0.7$ | 3,087     |
| Proceeds of sale  | (3,000)   |
| Loss on disposal  | <u>87</u> |

- 34.5 A Depreciation is an application of the accruals principle.

- 34.6 C Original annual depreciation =  $$(160,000 - 40,000)/8$  years = \$15,000 per year.

The change in the estimated life of the asset is made on 31 December 20X3, and this means that the change should be applied for the year ending 31 December 20X3.

|   | \$                   |
|---|----------------------|
| Cost  | 160,000              |
| Accumulated depreciation to 31 December 20X2      | (2 years × \$15,000) |
| Carrying amount at 1 January 2008                 | 30,000               |
| Residual value                                    | 130,000              |
| Remaining depreciable amount as at 1 January 20X3 | 40,000               |
|   | <u>90,000</u>        |

Remaining life from 1 January 20X3 = 4 years

Annual depreciation =  $\$90,000/4$  years = \$22,500.

Net book value (carrying amount at 31 December 20X3 =  $\$130,000 - \$22,500 = \$107,500$ .

- 34.7 B \$200 debit which should have been credited – correction will bring trial balance into agreement

- 34.8 C IAS 1 requires revenue to be disclosed on the face of the statement of profit or loss and other comprehensive income. It does not specify that a company must disclose profit before tax or gross profit on the face of the statement of profit or loss and other comprehensive income, however, most companies choose to do this. Dividends are disclosed in the statement of changes in equity if they are paid or are declared before the period end.

- 34.9 D  $(\$73,680) + 102,480 - 87,240 = (\$58,440)$  \$58,440 overdrawn

- 34.10 C 1, 2 and 3 are all incorrect.

- 34.11 A

34.12 B  $\$952,500 \times 100/60 = \$1,587,500$

34.13 C

|  | \$                   |
|--|----------------------|
| Theoretical gross profit ( $\$130,000 \times 30\%$ )                 | 39,000               |
| Actual gross profit ( $\$130,000 - \$49,800 - \$88,600 + \$32,000$ ) | <u>23,600</u>        |
| Shortfall – missing inventory  | <u><u>15,400</u></u> |

34.14 A

|   | \$                    |
|---|-----------------------|
| Sales                                   | 240,000               |
| Purchases                               | 134,025               |
| ∴ Drawings                              | (2,640)               |

## 35 Mixed bank 7

35.1 A

### PLANT AND EQUIPMENT (CARRYING AMOUNT)

|                  | \$'000     | \$'000                      |
|------------------|------------|-----------------------------|
| b/d              | 155        | Depreciation charge in year |
| Purchases of P+E | 10         | 25                          |
|                  | <u>165</u> | ∴ Carrying amount of sale   |
|                  |            | 15                          |
| c/d              |            | <u>125</u>                  |
|                  |            | <u><u>165</u></u>           |

| So, | Carrying amount | \$'000   |
|-----|-----------------|----------|
|     |                 | 15       |
|     | Proceeds        | (7)      |
|     | Loss            | <u>8</u> |

35.2 D

$(2c + 3c) \times 10,000,000$ . The final ordinary dividend is declared before the year end and so is accrued for. The preference dividend is classified as a finance cost.

35.3 A

Working capital is increased as the company will receive cash for the share issue. Share premium is not reduced as it is not a bonus issue of shares, it will probably increase as the shares will probably be issued at a premium.

35.4 D

A revaluation surplus will be presented as part of equity, not current liabilities.

35.5 C

In statement (i) both sides of the double entry posting from the cash book would be incorrect but equal in value, so this would not cause a trial balance imbalance. In statement (ii), both expenses and non-current assets are debit balances in the trial balance, so posting to the wrong account in this case would not cause a trial balance imbalance.

- 35.6 D The dividends actually paid will go through the statement of changes in equity. The final proposed dividend of \$120,000 is disclosed in the notes to the statement of financial position.
- 35.7 D Deferred development expenditure should be amortised over its useful life. If the conditions in IAS 38 are met, development expenditure *must* be capitalised. Trade investments are not intangible assets, they should be reported under non-current assets: investments in the SOFP.

| 35.8 D                    | RENT           |                                      |
|---------------------------|----------------|--------------------------------------|
| Bal b/f (rent in arrears) | \$ 4,800       | Bal b/f (rent in advance) \$ 134,600 |
| SPL (bal. fig.)           | 828,700        | Bank 834,600                         |
| Bal c/f (rent in advance) | 144,400        | Bal c/f (rent in arrears) 8,700      |
|                           | <u>977,900</u> | <u>977,900</u>                       |

- 35.9 D A, B and C are all income items reflected in the statement of profit or loss and other comprehensive income. In contrast D is reflected in the statement of financial position.

- 35.10 B Items A, C and D are all capital items, reflected in the statement of financial position.

35.11 A PAYABLES LEDGER CONTROL ACCOUNT

|                        | \$             | \$                                       |
|------------------------|----------------|--|

| Discounts received     | 8,200          | Purchases 1,268,600                      |
| Purchases returns      | 41,200         | Refunds received 2,700<br>from suppliers |
| Contras                | 48,000         |  |
| Closing balance        | <u>128,200</u> | <u>1,589,900</u>                         |
|                        |                | 1,589,900                                |

- 35.12 C We need to increase the rent expenses (debit) and set up a liability to pay this amount (credit accruals).

- 35.13 C Wastage of inventory means that cost of sales is high relative to revenue.

- 35.14 A Sales: current assets = 5:1

Therefore current assets (\$30m/5) = \$6m

Current ratio = 2:1

Therefore current liabilities (\$6m/2) = \$3m

Acid test ratio = 1.5:1

Therefore current assets – inventory (\$3m × 1.5) = \$4.5m

Hence, Inventory (\$6m – \$4.5m) = \$1.5m

- 35.15 C All three statements are correct.

- 35.16 A  $485,000 + 48,600 + 18,100 - 368,400$

- 35.17 B  $= 60,000 + ((1,232,000 - 60,000) \times 5%) - 90,000$

- 35.18 A Although we may use a trial balance as a step in preparing management or financial statements, the main reason is A.

## SECTION A – ALL 35 questions are compulsory and MUST be attempted

- 1 Which of the following calculates a sole trader's net profit for a period?
- A Closing net assets + drawings – capital introduced – opening net assets  
 B Closing net assets – drawings + capital introduced – opening net assets  
 C Closing net assets – drawings – capital introduced – opening net assets  
 D Closing net assets + drawings + capital introduced – opening net assets (2 marks)
- 
- 2 Which of the following explains the imprest system of operating petty cash?
- A Weekly expenditure cannot exceed a set amount.  
 B The exact amount of expenditure is reimbursed at intervals to maintain a fixed float.  
 C All expenditure out of the petty cash must be properly authorised.  
 D Regular equal amounts of cash are transferred into petty cash at intervals. (2 marks)
- 
- 3 Which of the following statements are TRUE of limited liability companies?
- 1 The company's exposure to debts and liability is limited  
 2 Financial statements must be produced  
 3 A company continues to exist regardless of the identity of its owners  
 A 1 and 2 only  
 B 1 and 3 only  
 C 2 and 3 only  
 D 1, 2 and 3 (2 marks)
- 
- 4 Annie is a sole trader who does not keep full accounting records. The following details relate to her transactions with credit customers and suppliers for the year ended 30 June 20X6:
- |   | \$      |
|---|---------|
| Trade receivables, 1 July 20X5                  | 130,000 |
| Trade payables, 1 July 20X5                     | 60,000  |
| Cash received from customers                    | 686,400 |
| Cash paid to suppliers                          | 302,800 |
| Discounts allowed                               | 1,400   |
| Discounts received                              | 2,960   |
| Contra between payables and receivables ledgers | 2,000   |
| Trade receivables, 30 June 20X6                 | 181,000 |
| Trade payables, 30 June 20X6                    | 84,000  |
- What figure should appear for purchases in Annie's statement of profit or loss for the year ended 30 June 20X6?
- A \$325,840  
 B \$330,200  
 C \$331,760  
 D \$327,760 (2 marks)
- 
- 5 Which TWO of the following errors would cause the total of the debit column and the total of the credit column of a trial balance not to agree?
- 1 A transposition error was made when entering a sales invoice into the sales day book  
 2 A cheque received from a customer was credited to cash and correctly recognised in receivables  
 3 A purchase of non-current assets was omitted from the accounting records  
 4 Rent received was included in the trial balance as a debit balance  
 A 1 and 2  
 B 1 and 3  
 C 2 and 3  
 D 2 and 4 (2 marks)
-

- 6 At 31 December 20X5 the following require inclusion in a company's financial statements:
- 1 On 1 January 20X5 the company made a loan of \$12,000 to an employee, repayable on 1 January 20X6, charging interest at 2% per year. On the due date she repaid the loan and paid the whole of the interest due on the loan to that date.
  - 2 The company paid an annual insurance premium of \$9,000 in 20X5, covering the year ending 31 August 20X6.
  - 3 In January 20X6 the company received rent from a tenant of \$4,000 covering the six months to 31 December 20X5.

For these items, what total figures should be included in the company's statement of financial position as at 31 December 20X5?

- |                           |                              |
|---------------------------|------------------------------|
| A Current assets \$10,000 | Current liabilities \$12,240 |
| B Current assets \$22,240 | Current liabilities \$nil    |
| C Current assets \$10,240 | Current liabilities \$nil    |
| D Current assets \$16,240 | Current liabilities \$6,000  |
- (2 marks)**

- 7 A company's statement of profit or loss for the year ended 31 December 20X5 showed a net profit of \$83,600. It was later found that \$18,000 paid for the purchase of a motor van had been debited to the motor expenses account. It is the company's policy to depreciate motor vans at 25% per year on the straight line basis, with a full year's charge in the year of acquisition.

What would the net profit be after adjusting for this error?

- |             |  |
|-------------|--|
| A \$106,100 |  |
| B \$70,100  |  |
| C \$97,100  |  |
| D \$101,600 |  |
- (2 marks)**

- 8 Xena has the following working capital ratios:

|                    | 20X9    | 20X8    |
|--------------------|---------|---------|
| Current ratio      | 1.2:1   | 1.5:1   |
| Receivables days   | 75 days | 50 days |
| Payables days      | 30 days | 45 days |
| Inventory turnover | 42 days | 35 days |

Which of the following statements is correct?

- |   |  |
|---|--|
| A Xena's liquidity and working capital has improved in 20X9               |  |
| B Xena is receiving cash from customers more quickly in 20X9 than in 20X8 |  |
| C Xena is suffering from a worsening liquidity position in 20X9           |  |
| D Xena is taking longer to pay suppliers in 20X9 than in 20X8             |  |
- (2 marks)**

- 9 Which of the following statements is/are correct?

- 1 A statement of cash flows prepared using the direct method produces a different figure to net cash from operating activities from that produced if the indirect method is used.
  - 2 Rights issues of shares do not feature in a statement of cash flows.
  - 3 A surplus on revaluation of a non-current asset will not appear as an item in a statement of cash flows.
  - 4 A profit on the sale of a non-current asset will appear as an item under cash flows from investing activities in the statement of cash flows.
- |                |  |
|----------------|--|
| A 1 and 3 only |  |
| B 3 and 4 only |  |
| C 2 and 4 only |  |
| D 3 only       |  |
- (2 marks)**

- 10 A company receives rent from a large number of properties. The total received in the year ended 30 April 20X6 was \$481,200.

The following were the amounts of rent in advance and in arrears at 30 April 20X5 and 20X6:

|   | <i>30 April 20X5</i> | <i>30 April 20X6</i> |
|---|----------------------|----------------------|
|   | \$                   | \$                   |
| Rent received in advance                    | 28,700               | 31,200               |
| Rent in arrears (all subsequently received) | 21,200               | 18,400               |

What amount of rental income should appear in the company's statement of profit or loss for the year ended 30 April 20X6?

- A \$486,500
- B \$460,900
- C \$501,500
- D \$475,900

(2 marks)

- 11 Which of the following are differences between sole traders and limited liability companies?

- 1 A sole trader's financial statements are private and never made available to third parties; a company's financial statements are sent to shareholders and may be publicly filed.
- 2 Only companies have share capital.
- 3 A sole trader is fully and personally liable for any losses that the business might make.
- 4 Drawings would only appear in a sole trader's financial statements.

- A 1 and 4 only
- B 2, 3 and 4
- C 2 and 3 only
- D 1, 3 and 4

(2 marks)

- 12 Which of the following statements is true?

- A The interpretation of an entity's financial statements using ratios is only useful for potential investors.
- B Ratios based on historical data can predict the future performance of an entity.
- C The analysis of financial statements using ratios provides useful information when compared with previous performance or industry averages.
- D An entity's management will not assess an entity's performance using financial ratios.

(2 marks)

- 13 A company's motor vehicles cost account at 30 June 20X6 is as follows:

MOTOR VEHICLES – COST

|             | \$            |             | \$            |
|-------------|---------------|-------------|---------------|
| Balance b/f | 35,800        | Disposal    | 12,000        |
| Additions   | 12,950        | Balance c/f | 36,750        |
|             | <u>48,750</u> |             | <u>48,750</u> |

What opening balance should be included in the following period's trial balance for Motor vehicles – cost at 1 July 20X6?

- A \$36,750 Dr
- B \$48,750 Dr
- C \$36,750 Cr
- D \$48,750 Cr

(2 marks)

14 Which TWO of the following items must be disclosed in the note to the financial statements for intangible assets?

- 1 The useful lives of intangible assets capitalised in the financial statements
  - 2 A description of the development projects that have been undertaken during the period
  - 3 A list of all intangible assets purchased or developed in the period
  - 4 Impairment losses written off intangible assets during the period
- A 1 and 4  
B 2 and 3  
C 3 and 4  
D 1 and 2

(2 marks)

15 Which of the following statements are correct ?

- 1 Capitalised development expenditure must be amortised over a period not exceeding five years.
  - 2 Capitalised development costs are shown in the statement of financial position under the heading of non-current assets.
  - 3 If certain criteria are met, research expenditure must be recognised as an intangible asset.
- A 2 only  
B 2 and 3  
C 1 only  
D 1 and 3

(2 marks)

16 The following transactions relate to Rashid's electricity expense ledger account for the year ended 30 June 20X9:

|                            | \$    |
|----------------------------|-------|
| Prepayment brought forward | 550   |
| Cash paid                  | 5,400 |
| Accrual carried forward    | 650   |

What amount should be charged to the statement of profit or loss in the year ended 30 June 20X9 for electricity?

- A \$6,600  
B \$5,400  
C \$5,500  
D \$5,300

(2 marks)

17 At 30 June 20X5 a company's allowance for receivables was \$39,000. At 30 June 20X6 trade receivables totalled \$517,000. It was decided to write off debts totalling \$37,000. The receivables allowance was to be adjusted to an amount equivalent to 5% of the trade receivables.

What figure should appear in the statement of profit or loss for the year ended 30 June 20X6 for receivables expense?

- A \$61,000  
B \$52,000  
C \$22,000  
D \$37,000

(2 marks)

- 18 The total of the list of balances in Valley's payables ledger was \$438,900 at 30 June 20X6. This balance did not agree with Valley's payables ledger control account balance. The following errors were discovered:

- 1 A contra entry of \$980 was recorded in the payables ledger control account, but not in the payables ledger.
- 2 The total of the purchase returns daybook was undercast by \$1,000.
- 3 An invoice for \$4,344 was posted to the supplier's account as \$4,434.

What amount should Valley report in its statement of financial position for accounts payable at 30 June 20X6?

- A \$436,830
- B \$438,010
- C \$439,790
- D \$437,830

(2 marks)

- 19 According to IAS 2 *Inventories*, which TWO of the following costs should be included in valuing the inventories of a manufacturing company?

- 1 Carriage inwards
  - 2 Carriage outwards
  - 3 Depreciation of factory plant
  - 4 General administrative overheads
- A 1 and 4
  - B 1 and 3
  - C 3 and 4
  - D 2 and 3

(2 marks)

- 20 Prisha has not kept accurate accounting records during the financial year. She had opening inventory of \$6,700 and purchased goods costing \$84,000 during the year. At the year end she had \$5,400 left in inventory. All sales are made at a mark up on cost of 20%.

What is Prisha's gross profit for the year?

- A \$13,750
- B \$17,060
- C \$16,540
- D \$20,675

(2 marks)

- 21 At 31 December 20X4 a company's capital structure was as follows:

|   | \$      |
|---|---------|
| Ordinary share capital (500,000 shares of 25c each) | 125,000 |
| Share premium account                               | 100,000 |

In the year ended 31 December 20X5 the company made a rights issue of 1 share for every 2 held at \$1 per share and this was taken up in full. Later in the year the company made a bonus issue of 1 share for every 5 held, using the share premium account for the purpose.

What was the company's capital structure at 31 December 20X5?

|   | Ordinary share capital | Share premium account |
|---|------------------------|-----------------------|
| A | \$450,000              | \$25,000              |
| B | \$225,000              | \$250,000             |
| C | \$225,000              | \$325,000             |
| D | \$212,500              | \$262,500             |

(2 marks)

22 Which of the following should appear in a company's statement of changes in equity?

- 1 Total comprehensive income for the year
  - 2 Amortisation of capitalised development costs
  - 3 Surplus on revaluation of non-current assets
- A 1, 2 and 3  
B 2 and 3 only  
C 1 and 3 only  
D 1 and 2 only

(2 marks)

23 The plant and machinery account (at cost) of a business for the year ended 31 December 20X5 was as follows:

PLANT AND MACHINERY – COST

| 20X5                          | \$             | 20X5                                | \$             |
|-------------------------------|----------------|-------------------------------------|----------------|
| 1 Jan Balance b/f             | 240,000        | 31 Mar Transfer to disposal account | 60,000         |
| 30 Jun Cash purchase of plant | <u>160,000</u> | 31 Dec Balance c/f                  | <u>340,000</u> |
|                               | <u>400,000</u> |                                     | <u>400,000</u> |

The company's policy is to charge depreciation at 20% per year on the straight line basis, with proportionate depreciation in the years of purchase and disposal.

What should be the depreciation charge for the year ended 31 December 20X5?

- A \$68,000  
B \$64,000  
C \$61,000  
D \$55,000

26 Q's trial balance failed to agree and a suspense account was opened for the difference. Q does not keep receivables and payables control accounts. The following errors were found in Q's accounting records:

- 1 In recording an issue of shares at par, cash received of \$333,000 was credited to the ordinary share capital account as \$330,000
- 2 Cash of \$2,800 paid for plant repairs was correctly accounted for in the cash book but was credited to the plant asset account
- 3 The petty cash book balance of \$500 had been omitted from the trial balance
- 4 A cheque for \$78,400 paid for the purchase of a motor car was debited to the motor vehicles account as \$87,400.

Which of the errors will require an entry to the suspense account to correct them?

- A 1, 2 and 4 only
- B 1, 2, 3 and 4
- C 1 and 4 only
- D 2 and 3 only

(2 marks)

27 Prior to the financial year end of 31 July 20X9, Cannon Co has received a claim of \$100,000 from a customer for providing poor quality goods which have damaged the customer's plant and equipment. Cannon Co's lawyers have stated that there is a 20% chance that Cannon will successfully defend the claim.

Which of the following is the correct accounting treatment for the claim in the financial statements for the year ended 31 July 20X9?

- A Cannon should neither provide for nor disclose the claim.
- B Cannon should disclose a contingent liability of \$100,000.
- C Cannon should provide for the expected cost of the claim of \$100,000.
- D Cannon should provide for an expected cost of \$20,000.

28 Gareth, a sales tax registered trader purchased a computer for use in his business. The invoice for the computer showed the following costs related to the purchase:

|                      | \$    |
|----------------------|-------|
| Computer             | 890   |
| Additional memory    | 95    |
| Delivery             | 10    |
| Installation         | 20    |
| Maintenance (1 year) | 25    |
|                      | 1,040 |
| Sales tax (17.5%)    | 182   |
| Total                | 1,222 |

How much should Gareth capitalise as a non-current asset in relation to the purchase?

- A \$1,193
- B \$1,040
- C \$1,222
- D \$1,015

(2 marks)

- 29 The following bank reconciliation statement has been prepared by a trainee accountant:

|                              |               |
|------------------------------|---------------|
|                              | \$            |
| Overdraft per bank statement | 3,860         |
| Less: Unpresented cheques    | <u>9,160</u>  |
|                              | 5,300         |
| Add: Outstanding lodgements  | 16,690        |
| Cash at bank                 | <u>21,990</u> |

What should be the correct balance per the cash book?

- A \$21,990 balance at bank as stated
- B \$3,670 balance at bank
- C \$11,390 balance at bank
- D \$3,670 overdrawn

RECEIVABLES LEDGER CONTROL ACCOUNT

|                 | \$             |                                      | \$             |
|-----------------|----------------|--------------------------------------|----------------|
| Opening balance | 308,600        | Cash                                 | 147,200        |
| Credit sales    | 154,200        | Discounts allowed                    | 1,400          |
| Cash sales      | 88,100         | Interest charged on overdue accounts | 2,400          |
| Contras         | 4,600          | Irrecoverable debts                  | 4,900          |
|                 | <u>555,500</u> | Allowance for receivables            | 2,800          |
|                 |                | Closing balance                      | <u>396,800</u> |
|                 |                |                                      | <u>555,500</u> |

What should the closing balance be when all the errors made in preparing the receivables ledger control account have been corrected?

- A \$395,200
- B \$304,300
- C \$309,500
- D \$307,100

(2 marks)

- 32 Which of the following material events after the reporting date and before the financial statements are approved are adjusting events?

- 1 A valuation of property providing evidence of impairment in value at the reporting date.
- 2 Sale of inventory held at the reporting date for less than cost.
- 3 Discovery of fraud or error affecting the financial statements.
- 4 The insolvency of a customer with a debt owing at the reporting date which is still outstanding.

- A 1, 2 and 4 only
- B 1, 2, 3 and 4
- C 1 and 4 only
- D 2 and 3 only

(2 marks)

- 33 A company values its inventory using the FIFO method. At 1 May 20X5 the company had 700 engines in inventory, valued at \$190 each. During the year ended 30 April 20X6 the following transactions took place:

20X5

1 July  
1 November

Purchased 500 engines at \$220 each  
Sold 400 engines for \$160,000

20X6

1 February  
15 April

Purchased 300 engines at \$230 each  
Sold 250 engines for \$125 000

What is the value of the company's closing inventory of engines at 30 April 20X6?

- |   |           |
|---|-----------|
| A | \$188,500 |
| B | \$195,500 |
| C | \$166,000 |
| D | \$106,000 |

(2 marks)

- 34 Amy is a sole trader and had assets of \$569,400 and liabilities of \$412,840 on 1 January 20X8. During the year ended 31 December 20X8 she paid \$65,000 capital into the business and she paid herself wages of \$800 per month.

At 31 December 20X8, Amy had assets of \$614,130 and liabilities of \$369,770.

What is Amy's profit for the year ended 31 December 20X8?

- A \$32,400
  - B \$23,600
  - C \$22,800
  - D \$87,800

(2 marks)

- 35 Bumbly Co extracted the trial balance for the year ended 31 December 20X7. The total of the debits exceeded the credits by \$300.

Which of the following could explain the imbalance?

- A Sales of \$300 were omitted from the sales day book.
  - B Returns inward of \$150 were extracted to the debit column of the trial balance.
  - C Discounts received of \$150 were extracted to the debit column of the trial balance.
  - D The bank ledger account did not agree with the bank statement by a debit of \$300.

(2 marks)

## SECTION B – BOTH questions are compulsory and MUST be attempted

Please write your answer within the answer booklet in accordance with the detailed instructions provided within each of the questions in this section of the exam paper.

- 1 Keswick Co acquired 80% of the share capital of Derwent Co on 1 June 20X5. The summarised draft statements of profit or loss for Keswick Co and Derwent Co for the year ended 31 May 20X6 are shown below:

|                    | Keswick Co<br>\$'000 | Derwent Co<br>\$'000 |
|--------------------|----------------------|----------------------|
| Revenue            | 8,400                | 3,200                |
| Cost of sales      | <u>(4,600)</u>       | <u>(1,700)</u>       |
| Gross profit       | 3,800                | 1,500                |
| Operating expenses | <u>(2,200)</u>       | <u>(960)</u>         |
| Profit before tax  | <u>1,600</u>         | <u>540</u>           |
| Tax                | <u>(600)</u>         | <u>(140)</u>         |
| Profit of the year | <u><u>1,000</u></u>  | <u><u>400</u></u>    |

During the year Keswick Co sold goods costing \$1,000,000 to Derwent Co for \$1,500,000. At 31 May 20X6, 30% of these goods remained in Derwent Co's inventory.

*Required*

- (a) Prepare the Keswick group consolidated statement of profit or loss for the year ended 31 May 20X6.

Note: The statement should stop once the consolidated profit for the year has been determined. The amounts attributable to the non-controlling interest and equity owners of Keswick are not required. Show all workings as credit will be awarded to these as appropriate. **(7 marks)**

- (b) Which of the following formulas describes the amount to be entered in the consolidated statement of profit or loss as '*Profit attributable to: Equity owners of Keswick Co*'?

- A Group profit after tax – non-controlling interest
  - B Group profit after tax + non-controlling interest
  - C Keswick Co's profit after tax
  - D Group profit after tax
- (2 marks)**

- (c) What amount should be shown in the consolidated statement of profit or loss for the non-controlling interest? **(2 marks)**

- (d) The following table shows factors to be considered when determining whether a parent–subsidiary relationship exists.

Factor Description

- A Significant influence
- B Control
- C Non-controlling interest
- D Greater than 50% of the equity shares being held by an investor
- E 100% of the equity shares being held by an investor
- F Greater than 50% of the preference shares being held by an investor
- G 50% of all shares and all debt being held by an investor
- H Greater than 50% of preference shares and debt being held by an investor

*Required*

Which of the above factors A to H illustrate the existence of a parent–subsidiary relationship?

**(4 marks)**

**(15 marks)**

- 2 Malright, a limited liability company, has an accounting year end of 31 October. The accountant is preparing the financial statements as at 31 October 20X7 and requires your assistance. The following trial balance has been extracted from the general ledger.

| Account   | <i>Dr</i><br>\$'000 | <i>Cr</i><br>\$'000 |
|---|---------------------|---------------------|
| Buildings at cost                                   | 740                 |                     |
| Buildings accumulated depreciation, 1 November 20X6 |                     | 60                  |
| Plant at cost                                       | 220                 |                     |
| Plant accumulated depreciation, 1 November 20X6     |                     | 110                 |
| Bank balance  |                     | 70                  |
| Revenue   |                     | 1,800               |
| Net purchases                                       | 1,140               |                     |
| Inventory at 1 November 20X6                        | 160                 |                     |
| Cash  | 20                  |                     |
| Trade payables                                      |                     | 250                 |
| Trade receivables                                   | 320                 |                     |
| Administrative expenses                             | 325                 |                     |
| Allowance for receivables at 1 November 20X6        |                     | 10                  |
| Retained earnings at 1 November 20X6                |                     | 130                 |
| Equity shares, \$1                                  |                     | 415                 |
| Share premium account                               |                     | 80                  |
|   | <u>2,925</u>        | <u>2,925</u>        |

The following additional information is also available:

- The allowance for receivables was to be increased to an amount equivalent to 5% of trade receivables. The allowance for receivables is treated as an administrative expense.
- Plant is depreciated at 20% per annum using the reducing balance method and buildings are depreciated at 5% per annum on their original cost. Depreciation is treated as a cost of sales expense.
- Closing inventory has been counted and is valued at \$75,000.
- An invoice of \$15,000 for energy costs relating to the quarter ended 30 November 20X7 was received on 2 December 20X7. Energy costs are included in administrative expenses.

*Required*

Prepare the statement of profit or loss and the statement of financial position of Malright Co as at 31 October 20X7. **(15 marks)**

---

# **Answers to Mock Exam 1 (Specimen exam)**

**Note:** The ACCA examiner's answers follow these BPP Learning Media answers.

## SECTION A

- 1 A Remember that: closing net assets = opening net assets + capital introduced + profit – drawings.
- 2 B Under the imprest system, a reimbursement which equals the total of expense vouchers paid out, is made at intervals to maintain the petty cash balance at a certain amount.
- 3 C The shareholder's exposure to debts is limited, not the company's.
- 4 C

### PAYABLES CONTROL ACCOUNT

|                        | \$             |                     | \$             |
|------------------------|----------------|---------------------|----------------|
| Cash paid to suppliers | 302,800        | Balance b/f         | 60,000         |
| Discounts received     | 2,960          | Purchases (bal fig) | 331,760        |
| Contra                 | 2,000          |                     |                |
| Balance c/f            | <u>84,000</u>  |                     |                |
|                        | <u>391,760</u> |                     | <u>391,760</u> |

- 5 D Errors (1) and (3) will not cause a trial balance imbalance. In error 1, the incorrect amount will be posted to both sales and receivables (Dr receivables, Cr sales). In error 3, the complete omission of the transaction will have no effect on the trial balance.
- 6 B
- | <i>Current assets</i>              | \$            |
|------------------------------------|---------------|
| Loan asset                         | 12,000        |
| Interest ( $12,000 \times 12\%$ )  | 240           |
| Prepayment ( $8/12 \times 9,000$ ) | 6,000         |
| Accrued rent                       | 4,000         |
|                                    | <u>22,240</u> |
- 7 C
- | \$                                |               |
|-----------------------------------|---------------|
| Profit                            | 83,600        |
| Purchase of van                   | 18,000        |
| Depreciation $18,000 \times 25\%$ | (4,500)       |
|                                   | <u>97,100</u> |
- 8 C The ratios given relate to working capital and liquidity. The ratios have all worsened from 20X8 to 20X9, suggesting a worsening liquidity position. Receivables days have gone up, meaning that customers are taking longer to pay. Payables days have gone down, meaning that Xena is paying suppliers more quickly. Inventory turnover days have gone up, meaning inventories are being held for longer.
- 9 D Only item (3) is correct. The direct and indirect method both produce the same figure for cash from operating activities. A rights issue of shares does feature in a statement of cash flows as cash is received for the issue, a bonus issue, however, would not feature as no cash is received. A profit on the sale of a non-current asset would not appear as an investing cash flow, rather the cash received from the sale would appear as an investing cash flow and the profit on the sale would be added back to profit before tax under the indirect method of calculating cash from operating activities.

- 10 D
- | \$                    |                |
|-----------------------|----------------|
| Balance b/f (advance) | 28,700         |
| Balance b/f (arrears) | (21,200)       |
| Cash received         | 481,200        |
| Balance c/f (advance) | (31,200)       |
| Balance c/f (arrears) | <u>18,400</u>  |
|                       | <u>475,900</u> |

- 11 B A sole trader's financial statements are not publicly available, but they might be made available to some third parties, for example, the tax authorities.
- 12 C Ratio analysis is useful for different users of financial statements, including management, potential investors, the government, employees and so on. Historical performance can give an indication of what might occur in the future, especially if a trend is shown, but it cannot be used to accurately predict the future.
- 13 A Motor vehicles – cost account is an asset and so the balance brought forward must be a debit. It is \$36,750 as this is the figure that balances the account.
- 14 A An entity is **not** required to disclose a description of the development projects undertaken in the period, or a list of all intangible assets purchased or developed in the period. It is however, required to: disclose a description, the carrying amount and remaining amortisation period of any individual intangible asset that is **material** to the entity's financial statements, and distinguish between internally generated intangible assets capitalised in the period and those acquired in the period.
- 15 A Statement 2 is the only correct statement. Statement 1 is incorrect because capitalised development expenditure is amortised over its useful life. Statement 3 is incorrect because research expenditure is never capitalised.

16 A

|                         | \$           |
|-------------------------|--------------|
| Balance b/f             | 550          |
| Expense incurred (cash) | 5,400        |
| Accrual c/f             | 650          |
|                         | <u>6,600</u> |

17 C

|                        | \$     | \$              |
|------------------------|--------|-----------------|
| Debts written off      |        | 37,000          |
| Movement in allowance: |        |                 |
| (517 – 37) × 5%        | 24,000 |                 |
| Less opening allowance | 39,000 |                 |
|                        |        | <u>(15,000)</u> |
| Receivables expense    |        | <u>22,000</u>   |

18 D

|                    | \$             |
|--------------------|----------------|
| Balance per ledger | 438,900        |
| Less contra        | (980)          |
| Posting error      | (90)           |
| Corrected balance  | <u>437,830</u> |

The individual returns from the purchase returns day book are posted to the individual accounts in the memorandum payables ledger, so the list of balances does not need to be adjusted for error (2).

- 19 B Carriage outwards is a distribution expense. General administrative overheads should not be included per IAS 2.

$$(6,700 + 84,000 - 5,400) \times 20\% = \$17,060$$

$$\text{Share capital} = 125,000 + 62,500 \text{ rights issue of } 250,000 \text{ 25c shares } (500,000/2) + 37,500 \text{ bonus issue of } 150,000 \text{ 25c shares } (750,000/5) = 225,000$$

$$\text{Share premium} = 100,000 + 187,500 \text{ rights issue } (250,000 \times 75c) - 37,500 \text{ bonus issue } (150,000 \times 25c) = 250,000$$

- 22 C Amortisation of development costs will appear in the statement of profit or loss, not the statement of changes in equity.

- 23 D

| \$  |               |
|---|---------------|
| Depreciation:   |               |
| Jan–Mar $240,000 \times 20\% \times 3/12$             | 12,000        |
| Apr–Jun $(240,000 - 60,000) \times 20\% \times 3/12$  | 9,000         |
| Jul–Dec $(180,000 + 160,000) \times 20\% \times 6/12$ | 34,000        |
|   | <u>55,000</u> |

- 24 C  $10,200 / 42,500$

- 25 A Sales tax is merely collected by the business, the ultimate consumer bears the expense.

- 26 B All of the errors would require an entry to the suspense account to correct them.

- 27 C It is probable that Canon will have to pay \$100,000 for the claim, therefore a provision is required.

- 28 D  $1,040 - 25 = \$1,015$ . The maintenance costs should not be capitalised. The sales tax is recoverable as Gareth is registered for sales tax, therefore it should not be capitalised.

- 29 B

| \$                           |
|------------------------------|
| Overdraft per bank statement |
| (3,860)                      |
| Less: Unpresented cheques    |
| (9,160)                      |
| Add: Outstanding lodgements  |
| 16,690                       |
| Cash at bank                 |
| <u>3,670</u>                 |

- 30 B Completeness and neutrality are two characteristics given in the *Conceptual framework*. Going concern is the underlying assumption and accruals is not a stated characteristic.

- 31 D

#### RECEIVABLES LEDGER CONTROL ACCOUNT

|                                      | \$             |                     | \$             |
|--------------------------------------|----------------|---------------------|----------------|
| Opening balance                      | 308,600        | Cash                | 147,200        |
| Credit sales                         | 154,200        | Discounts allowed   | 1,400          |
| Interest charged on overdue accounts | 2,400          | Contras             | 4,600          |
|                                      | <u>465,200</u> | Irrecoverable debts | 4,900          |
|                                      |                | Closing balance     | 307,100        |
|                                      |                |                     | <u>465,200</u> |

- 32 B All of the events are adjusting events.

- 33 A Closing inventory:

| \$             |
|----------------|
| 50 × \$190     |
| 9,500          |
| 500 × \$220    |
| 110,000        |
| 300 × \$230    |
| 69,000         |
|                |
| <u>188,500</u> |

- 34 A Closing net assets = opening net assets + capital introduced + profit – drawings

| \$                                     |
|--|

| Trade and other payables (250 + 10 (W4)) | 260       |              |
| Bank overdraft                           | <u>70</u> |              |
|  |           | 330          |
| Total equity and liabilities             |           | <u>1,130</u> |

*Workings*

| Working 1         | \$'000       |
|-------------------|--------------|
| Cost of sales     |              |
| Opening inventory | 160          |
| Purchases         | 1,140        |
| Closing inventory | <u>(75)</u>  |
|                   | 1,225        |
| Depreciation (W2) | <u>59</u>    |
|                   | <u>1,284</u> |

## Working 2

|                                | <i>Property</i><br>\$'000 | <i>Plant</i><br>\$'000 | <i>Total</i><br>\$'000 |
|--------------------------------|---------------------------|------------------------|------------------------|
| Cost                           | 740                       | 220                    | 960                    |
| Depreciation b/f               | (60)                      | (110)                  | (170)                  |
| Depreciation for year          |                           |                        |                        |
| 740 × 5%                       | (37)                      |                        |                        |
| (220 – 110) × 20%              |                           | (22)                   | (59)                   |
| Net book value 31 October 20X7 | <u>643</u>                | <u>88</u>              | <u>731</u>             |

## Working 3

Trade receivables  
 Allowance =  $320,000 \times 5\% = \$16,000$   
 $320,000 - 16,000 = \$304,000$

## Working 4

Energy cost accrual  
 $15,000 \times 2/3 = \$10,000$

## SECTION A

- 1 In accordance with IAS 37 *Provisions, Contingent Liabilities and Contingent Assets*, which of the following criteria must be present in order for a company to recognise a provision?

- 1 There is a present obligation as a result of past events.
  - 2 It is probable that a transfer of economic benefits will be required to settle the obligation.
  - 3 A reliable estimate of the obligation can be made.
- A All three criteria must be present.  
 B 1 and 2 only  
 C 1 and 3 only  
 D 2 and 3 only

(2 marks)

- 2 Which one of the following types of book-keeping error is never indicated when a trial balance of nominal ledger account balances is extracted?

- A Errors of commission  
 B Errors of omission  
 C Errors of principle  
 D Transposition errors

(2 marks)

- 3 Nooma Co owns 55% of the ordinary shares of Matic Co. What is the correct accounting treatment of the revenues and costs of Matic Co in the consolidated statement of profit or loss of the Nooma Group?

- A The revenues and costs of Matic Co are added to the revenues and costs of Nooma Co on a line by line basis.  
 B 55% of the profit after tax of Matic Co should be added to Nooma Co's consolidated profit after tax.  
 C 55% of the revenues and costs of Matic Co are added to the revenues and costs of Nooma Co on a line by line basis.  
 D Only dividends received from Matic Co are shown in the consolidated statement of profit or loss of Nooma Co.

(2 marks)

- 4 Your firm's cash book at 30 April 20X8 shows a balance at the bank of \$2,490. Comparison with the bank statement at the same date reveals the following differences:

|                                       | \$  |
|---------------------------------------|-----|
| Unpresented cheques                   | 840 |
| Bank charges not in cash book         | 50  |
| Receipts not yet credited by the bank | 470 |
| Dishonoured cheque not in cash book   | 140 |

What is the adjusted bank balance per the cash book at 30 April 20X8?

- A \$1,460  
 B \$2,300  
 C \$2,580  
 D \$3,140

(2 marks)

- 5 W Co, a sales tax registered trader, bought a new printing machine. The cost of the machine was \$80,000, excluding sales tax at 17.5%. The delivery costs were \$2,000 and installation costs were \$5,000. Before using the machine to print customers' orders, a test was undertaken and the paper and ink cost \$1,000.

What should be the cost of the machine in the company's statement of financial position?

- A \$80,000
- B \$82,000
- C \$87,000
- D \$88,000

**(2 marks)**

- 6 Which of the following correctly defines 'equity' according to the IASB's *Conceptual Framework for Financial Reporting*?

- A Equity is a present obligation of the entity arising from past events, the settlement of which is expected to result in an outflow from the entity of resources embodying economic benefit.
- B Equity is a resource controlled by an entity as a result of past events and from which future economic benefits are expected to flow to the entity.
- C Equity is the residual interest in the assets of the entity after deducting all its liabilities.
- D Equity is increases in economic benefits during the accounting period in the form of inflows or enhancements of assets or decreases of liabilities.

**(2 marks)**

- 7 Which of the following is a qualitative characteristic of financial information included in the IASB's *Conceptual framework for financial reporting*?

- A Relevance
- B Fair presentation
- C Consistency
- D Accruals

**(2 marks)**

- 8 S & Co sell three products – A, B and C. The following information was available at the year end.

|                                | <i>Basic</i><br>\$ per unit | <i>Super</i><br>\$ per unit | <i>Luxury</i><br>\$ per unit |
|--------------------------------|-----------------------------|-----------------------------|------------------------------|
| Original cost                  | 10                          | 9                           | 20                           |

In accordance with IAS2 *Inventories*, what is the value of inventory at the year end?

- A \$23,500
- B \$31,000
- C \$31,850
- D \$32,750

**(2 marks)**

- 9 A car was purchased by a business in May 20X1 for:

|                   | \$            |
|-------------------|---------------|
| Cost              | 10,000        |
| Road fund licence | 150           |
| Total             | <u>10,150</u> |

The business adopts a date of 31 December as its year end.

The car was traded in for a replacement vehicle in August 20X4 at an agreed value of \$5,000.

It has been depreciated at 25% per annum on the reducing-balance method, charging a full year's depreciation in the year of purchase and none in the year of sale.

What was the profit or loss on disposal of the vehicle during the year ended December 20X4?

- A Loss of \$2,890
- B Profit of \$781
- C Profit of \$2,500
- D Profit of \$3,750

(2 marks)

- 
- 10 At 1 January 20X3, Attila Co had an allowance for receivables of \$35,000. At 31 December 20X3, the trade receivables of the company were \$620,000. It was decided to:

- 1 Write off (as uncollectable) receivables totalling \$30,000, and
- 2 Adjust the allowance for receivables to an amount equivalent to 5% of receivables.

What is the combined expense that should appear in the company's statement of profit or loss for the year, for irrecoverable debts and the allowance for receivables?

- A \$24,500
- B \$26,000
- C \$34,000
- D \$35,500

(2 marks)

- 
- 11 The annual sales of a company are \$235,000 including sales tax at 17.5%. Half of the sales are on credit terms, half are cash sales. The receivables in the statement of financial position are \$23,500.

What is the output tax?

- A \$17,500
- B \$20,562.5
- C \$35,000
- D \$41,125

(2 marks)

- 
- 12 Beta purchased some plant and equipment on 1 July 20X1 for \$40,000. The scrap value of the plant in ten years' time is estimated to be \$4,000. Beta's policy is to charge depreciation on the straight line basis, with a proportionate charge in the period of acquisition.

What is the depreciation charge on the plant in Beta's financial statements for the year ended 30 September 20X1?

- A \$900
- B \$1,000
- C \$3,600
- D \$4,000

(2 marks)

- 13 The following figures are taken from the statement of financial position of GEN Co.

|                                     | \$m |
|-------------------------------------|-----|
| Inventory                           | 2   |
| Receivables                         | 3   |
| Cash                                | 1   |
| Payables                            | 3   |
| Bank loan repayable in 5 years time | 3   |

What is the current ratio?

- A 1.33
- B 2.00
- C 1.00
- D 0.33

(2 marks)

- 14 A particular source of finance has the following characteristics: fixed payments, a fixed repayment date, it is secured on the assets of the company and the payments are classified as an expense.

Which of the following best describes this source of finance?

- A A redeemable preference share
- B An irredeemable preference share
- C A loan note
- D An overdraft

(2 marks)

- 15 Tong Co acquired 100% of the \$100,000 ordinary share capital of Cheek Co for \$1,200,000 on 1 January 20X5 when the retained earnings of Cheek Co were \$550,000 and the balance on the revaluation surplus was \$150,000. At the date of acquisition the fair value of plant held by Cheek Co was \$80,000 higher than its carrying value.

What is the goodwill arising on the acquisition of Cheek Co?

- A \$320,000
- B \$400,000
- C \$470,000
- D \$550,000

(2 marks)

- 16 During the year ended 31 December 20X1, Alpha Rescue had the following transactions on the receivables ledger.

|   | \$      |
|---|---------|
| Receivables at 1 January 20X1               | 100,000 |
| Receivables at 31 December 20X1             | 107,250 |
| Goods returned                              | 12,750  |
| Amounts paid into the bank from receivables | 225,000 |
| Discount received                           | 75,000  |
| Discounts allowed                           | 5,000   |

What were the sales for the year?

- A \$107,250
- B \$240,000
- C \$250,000
- D \$320,000

(2 marks)

- 17 Financial analysts calculate ratios from the published financial statements of large companies. Which one of the following reasons is UNLIKELY to be a reason why they calculate and analyse financial ratios?

- A Ratios can reduce lengthy or complex financial statements into a fairly small number of more easily-understood indicators.
- B Ratios can indicate whether a business is at serious risk of insolvency.
- C Ratios can help with comparisons between businesses in the same industry.
- D Ratios can indicate changes in the financial performance and financial position of a business over time.

(2 marks)

- 18 Cat Co has held 85% of the share capital of Dog Co for many years. During the current year Cat Co sold goods to Dog Co for \$15,000, including a mark up of 25% on cost. 60% of these goods were still in inventory at the year end.

The following extract was taken from the accounting records of Cat Co and Dog Co at 31 March 20X8.

|                   | <i>Cat Co</i><br>\$'000 | <i>Dog Co</i><br>\$'000 |
|-------------------|-------------------------|-------------------------|
| Opening inventory | 650                     | 275                     |
| Closing Inventory | 750                     | 400                     |

What is the figure for inventory to be included in the statement of financial position of the Cat Group at 31 March 20X8?

- A \$1,151,800
- B \$1,152,250
- C \$1,197,750
- D \$1,148,200

(2 marks)

- 19 A company's quick ratio has increased from 0.9:1 at 31 December 20X1 to 1.5:1 at 31 December 20X2. Which of the following events could explain this increase?

- A Improved inventory control
- B The refinancing of a long-term loan
- C A reduction in payables
- D An increase in payables

(2 marks)

- 20 Which of the following represents an error of original entry?

- A The purchase of goods for resale using cash was debited to the purchases account and credited to the cash book using the incorrect amount in both cases.
- B The purchase of goods for resale using cash was debited to the motor vehicles account and credited to the cash book using the correct amount in both cases.
- C The purchase of goods for resale using cash was debited to the purchases account and credited to the sales day book using the correct amount in both cases.
- D The purchase of goods for resale using cash was debited to the purchases account but no credit entry was made.

(2 marks)

- 21 A machine was purchased for \$100,000 on 1 January 20X1 and was expected to have a useful life of 10 years. After 3 years, management revised their expectation of the remaining useful life to 20 years. The business depreciates machines using the straight line method.

What is the carrying value of the machine at 31 December 20X5?

- A \$50,000
- B \$63,000
- C \$72,000
- D \$75,000

(2 marks)

22 Your organisation has received a statement of account from one of its suppliers, showing an outstanding balance due to them of \$1,350. On comparison with your ledger account, the following is determined:

- Your ledger account shows a credit balance of \$260
- The supplier has disallowed a cash discount of \$80 due to late payment of an invoice
- The supplier has not yet allowed for goods returned at the end of the period of \$270
- Cash in transit of \$830 has not been received by the supplier

Following consideration of these items, what is the unreconciled difference between the two records?

- A \$nil  
 B \$10  
 C \$90  
 D \$(180)

(2 marks)

23 A company is preparing its statement of cash flows for the year ended 31 December 20X2. Relevant extracts from the accounts are as follows.

| <i>Statement of profit or loss</i>     | \$          |
|--|-------------|
| Depreciation                           | 15,000      |
| Profit on sale of non-current assets   | 40,000      |
| <i>Statement of financial position</i> | <i>20X2</i> |
|  | \$          |
| Plant and machinery – cost             | 185,000     |
| Plant and machinery – depreciation     | 45,000      |
|  | <i>20X1</i> |
|  | \$          |
|  | 250,000     |
|  | 50,000      |

Plant and machinery additions during the year were \$35,000. What is the cash flow arising from the sale of non-current assets?

- A \$40,000  
 B \$100,000  
 C \$120,000  
 D \$135,000

(2 marks)

24 Which body is responsible for issuing International Financial Reporting Standards?

- A IFRS Interpretations Committee  
 B IFRS Advisory Council  
 C International Accounting Standards Board  
 D The United Nations

25 Teo Co acquired 95% of the ordinary share capital of Mat Co 31 December 20X0. The following information relates to Mat Co:

|                     | <i>20X0</i> | <i>20X1</i> |
|---------------------|-------------|-------------|
|                     | \$'000      | \$'000      |
| Retained earnings   | 700         | 800         |
| Revaluation surplus | –           | 100         |
|                     | <u>700</u>  | <u>900</u>  |

The fair value of the non-controlling interest in Mat Co at the date of acquisition was \$45,000.

What is the amount reported for non-controlling interest in the statement of financial position of the Teo Group as at 31 December 20X1?

- A \$45,000  
 B \$55,000  
 C \$85,000  
 D \$90,000

(2 marks)

26 Which of the following statements is/are correct?

- 1 AZ owns 25% of the preferred (non-voting) share capital of BX, which means that BX is an associate of AZ.
  - 2 CW has a 10% shareholding in DY and can appoint 4 out of 6 directors to the board of DY, so DY is classified as a subsidiary of CW.
  - 3 ES has significant influence over FT, which means that FT is an associate of ES.
  - 4 GR owns 55% of the share capital of HU, but by agreement with the minority shareholder, does not have control or significant influence over the financial and operating policies of HU, so HU is a simple investment of GR.
- A 1 and 2 only  
 B 2 and 3 only  
 C 2, 3 and 4 only  
 D 4 only

28 Jay Co values inventories on the first in first out (FIFO) basis. Jay Co has 120 items of product A valued at \$8 each in inventory at 1 October 20X9. During October 20X9, the following transactions in product A took place.

|            |           |                        |
|------------|-----------|------------------------|
| 3 October  | Purchases | 180 items at \$9 each  |
| 4 October  | Sales     | 150 items at \$12 each |
| 8 October  | Sales     | 80 items at \$15 each  |
| 18 October | Purchases | 300 items at \$10 each |
| 22 October | Sales     | 100 items at \$15 each |

What is the closing balance on the inventory account at 31 October 20X9?

- A \$1,500  
 B \$2,560  
 C \$2,628  
 D \$2,700

- 29 Fred's trial balance did not balance so he opened a suspense account with a debit balance of \$346. Control accounts are maintained for receivables and payables.

Fred discovered the following:

- 1 The sales day book was undercast by \$400.
- 2 Purchases of \$520 from the purchases day book have only been recorded in the payables ledger control account.
- 3 Profit on sale of non-current assets of \$670 had been recorded in the sundry income account as \$760.

What is the remaining balance on Fred's suspense account after these errors have been corrected?

- A \$264 credit
- B \$136 debit
- C \$956 debit
- D \$1,266 debit

(2 marks)

- 30 Charles Co entered into the following transactions:

- 1 He sold goods on credit to Cody with a list price of \$3,200. He allows a 10% trade discount and a further 2% discount for payment within seven days. Cody paid within two days.
- 2 He made a credit sale to Mary allowing a 5% trade discount on the list price of \$640.
- 3 He purchased goods for \$600 and paid \$590, receiving a discount for immediate cash payment.

How much discount should be recorded in the Discount Allowed account as a result of the above transactions?

- A \$57.60
- B \$10.00
- C \$352.00
- D \$409.60

(2 marks)

- 31 Where, in a company's financial statements complying with International Financial Reporting Standards, should you find the proceeds of non-current assets sold during the period?

- A Statement of cash flows and statement of financial position
- B Statement of changes in equity and statement of financial position
- C Statement of profit or loss and other comprehensive income and statement of cash flows
- D Statement of cash flows only

(2 marks)

- 32 If the current ratio for a company is equal to its quick ratio, which of the following statements is true?

- A The current ratio must be greater than one.
- B The company does not carry any inventory.
- C Receivables plus cash is greater than payables minus inventories.
- D Working capital is positive.

(2 marks)

- 33 The closing inventory of Epsilon amounted to \$284,000 at 30 September 20X1, the reporting date. This total includes two inventory lines about which the inventory taker is uncertain.

- 1 500 items which had cost \$15 each and which were included at \$7,500. These items were found to have been defective at the end of the reporting period. Remedial work after the reporting period cost \$1,800 and they were then sold for \$20 each. Selling expenses were \$400.
- 2 100 items which had cost \$10 each. After the reporting period they were sold for \$8 each, with selling expenses of \$150.

What figure should appear in Epsilon's statement of financial position for inventory?

- A \$283,650
- B \$283,800
- C \$284,000
- D \$284,450

(2 marks)

- 34 Which of these statements about research and development expenditure are correct?
- 1 If certain conditions are satisfied, research and development expenditure must be capitalised.
  - 2 One of the conditions to be satisfied if development expenditure is to be capitalised is that the technical feasibility of the project is reasonably assured.
  - 3 The amount of capitalised development expenditure for each project should be reviewed each year. If circumstances no longer justify the capitalisation, the balance should be written off over a period not exceeding five years.
  - 4 Development expenditure may only be capitalised if it can be shown that adequate resources will be available to finance the completion of the project.
- A 1 and 2 only
  - B 1 and 4 only
  - C 2 and 3 only
  - D 2 and 4 only

(2 marks)

- 35 A company measures the average time to collect receivables as:

$$[\text{Receivables at end of financial year}/\text{Annual credit sales}] \times 365 \text{ days}$$

Accounting ratios have just been calculated from the financial statements for the financial year that has just ended. These show an abnormally high average time to collect receivables, compared with ratios calculated for the previous financial year.

Which of the following may help to explain this unusually high turnover period for trade receivables?

- 1 There was an unusually large sale on credit close to the end of the financial year.
  - 2 The company has seasonal trade, and sales in the final quarter of the year are always higher than in the other quarters.
  - 3 However, sales in the final quarter of the year that has just ended were lower than in the previous year.
- A Reason 1 only
  - B Reason 2 only
  - C Reason 3 only
  - D Reasons 1, 2 and 3

|                               | <u>2,300,000</u> | <u>906,000</u> |                |

The following information is also available.

- (a) Spyder purchased 480 million shares in Phly some years ago, when Phly had a credit balance of \$95 million in reserves. The fair value of the non-controlling interest at the date of acquisition was \$165 million.
- (b) At the date of acquisition the freehold land of Phly was valued at \$70 million in excess of its book value. The revaluation was not recorded in the accounts of Phly.
- (c) Phly's inventory includes goods purchased from Spyder at a price that includes a profit to Spyder of \$12 million.
- (d) At 31 October 20X5 Phly owes Spyder \$25 million for goods purchased during the year.

*Required*

- (a) Calculate the total goodwill on acquisition.
- (b) Prepare the consolidated statement of financial position for Spyder as at 31 October 20X5. **(15 marks)**

# **Answers to Mock Exam 2**

## SECTION A

- 1    A    All three criteria must be present.
- 2    C    The existence of a transposition error should always be revealed by a trial balance. Errors of omission and commission may or may not be revealed, depending on the nature of the error and whether the error has resulted in a mismatch between debit and credit entries in the nominal ledger accounts. An error of omission is never revealed, because there have been no entries in the nominal ledger for the omitted item.
- 3    A    Matic Co is a subsidiary of Nooma Co, so the results of Matic Co should be consolidated on a line by line basis with the results of Nooma Co.
- 4    B
- |                                  |              |
|----------------------------------|--------------|
| Original cash book figure        | 2,490        |
| Adjustment re charges            | (50)         |
| Adjustment re dishonoured cheque | <u>(140)</u> |
|                                  | <u>2,300</u> |
- 5    D    \$88,000
- |                 |               |

|    |  | 5,000   |
|    |  | 12,750  |
|    |  | 107,250   |
|    |  | <u><u>350,000</u></u>   |

Discounts received refer to purchases and go in the payables ledger control account.

- 17 B Ratios can be used to analyse financial performance, and to make comparisons of performance over time and between different businesses in the same industry, but they cannot usually provide a reliable indicator of insolvency, especially if they are prepared only once a year.

|    |   |  |         |
|----|---|--|---------|
| 18 | D | \$1,148,200  | \$'000  |
|    |   | Unrealised profit ( $15,000 \times 25/125 \times 60\%$ )   | 1.8     |
|    |   | Inventory ( $750 + 400 - 1.8$ )  | 1,148.2 |
| 19 | C | Quick ratio = current assets excluding inventories / current liabilities.  |         |
|    |   | The quick ratio does not include inventories or long term loans, so A and B will have no effect. An increase in payables would reduce the quick ratio.   |         |
| 20 | A | B and C are errors of principle, D is an error of omission.  |         |
| 21 | B | \$63,000.  |         |
|    |   | Carrying value at the end of year 3: $100,000 - (100,000 \times 3/10) = \$70,000$  |         |
|    |   | Carrying value at the end of year 5: $70,000 - (70,000 \times 2/20) = \$63,000$  |         |
| 22 | C | \$90   | \$      |

|    |   | Depreciation (15,000)  |         |
|    |   | Carrying amount at 31 December 20X2 ( $185,000 - 45,000$ ) 140,000   |         |
| 24 | C | The International Accounting Standards Board is responsible for issuing IFRSs.   |         |
| 25 | B |  | \$      |
|    |   | Fair value of NCI at acquisition 45,000  |         |
|    |   | Plus NCI's share of post-acquisition retained earnings (and other reserves)  |         |
|    |   | $((800 - 100) \times 5\% + 100 \times 5\%)$ 10,000   |         |
|    |   | NCI at reporting date (31 December 20X1) 55,000  |         |
| 26 | C | An investor must have significant influence over the investee in order for the investee to be classified as an associate, therefore 3 is correct. If the investor owns between 20% and <50% of the <b>ordinary shares (voting)</b> of the investee, significant influence can be assumed, 1 is not true as the shares held do not have voting rights. For an investee to be classified as a subsidiary, the investor must have control over the investee. Control can be demonstrated if the investor can appoint the majority of board members of the investee, so 2 is correct. 4 is also correct as despite its 55% shareholding, GR does not have control or significant influence over HU and as such is not classified as a subsidiary or as an associate, but as a simple trade investment. |         |
| 27 | A | All three are incorrect. In 1 and 3 the debit and credit entries should be reversed and 2 should show a credit of \$60,000 to the share premium account.   |         |

28 D \$2,700

|          |           | No. of items | Unit price | Value |

29 A

## SUSPENSE ACCOUNT

|         | \$  | \$                |
|---------|-----|-------------------|
| Bal b/f | 346 | Purchases (2)     |
| Bal c/f | 264 | Sundry income (3) |
|         | 610 | 610               |

30 A Selling price =  $\$3,200 \times 90\% = \$2,880$ . Early settlement discount =  $2\% \times \$2,880 = \$57.60$ .

31 D Proceeds of a sale of non-current assets will only be shown in the statement of cash flows.

32 B The company does not carry any inventory.

33 A \$283,650

|        | \$      |                               |
|--------|---------|-------------------------------|
|        | 284,000 |                               |
| Item 1 | –       | No change as NRV exceeds cost |
| Item 2 | (350)   | Reduce to NRV (1,000 – 650)   |
|        | 283,650 |                               |

34 D 2 and 4 only are correct. Statements 1 and 3 are incorrect.

35 A If there has been a large credit sale near the end of the financial year, the amount owed will be included within receivables at the year end and trade receivables may be unusually high. If so, the average time for receivables to pay may be distorted, because year-end receivables are used to calculate the turnover ratio.

A large volume of sales in the final quarter of every year may explain why the measurement of the average collection period is long every year, but not why the collection period should be unusually long compared with the previous year.

Comparatively low sales in the final quarter would be more likely to result in a shorter-than-normal measurement of the average collection period.

## SECTION B

1

NOBRIE

### STATEMENT OF CASH FLOWS FOR THE YEAR ENDED 30 MAY 20X4

|   | \$'000         | \$'000         |
|---|----------------|----------------|
| <i>Cash flow from operating activities</i>                                |                |                |
